For both interior and exterior use

Ready to use

Active Ingredient: Boric Acid .......................................................... 5.0%
Other Ingredients: ........................................................................ 95.0%
Total: .......................................................................................... 100.0%

EPA Reg. No. 81824-12  EPA Est. 68850-NC-001

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRODUCT INFORMATION

BORATHOR Granular Scatter Bait is ready to use to control the following pests:

Ants: Argentine, Carpenter, Thief, Pharaoh, Little Black, Pavement, Odorous House, Crazy, Acrobat, Rover, Big-Headed, White-Footed, Ghost, Cornfield

Cockroaches: Asian, American, Brown, Brown Banded, Smokey Brown, German and Oriental Cockroaches

Crickets: Camel, House, Field, Ground and Mole Crickets

Silverfish, Earwigs, Slugs, Snails, Pillbugs, Sowbugs, Centipedes, Millipedes

To be effective, this product must remain attractive and palatable to the target pests. Do not allow it to become contaminated with other pesticides or other substances.

Do not apply to food. Before making an application in a commercial food handling facility, cover or remove any food present in any part of the facility in which an application will occur. Bait may be placed in removable trays in all areas of food handling establishments including food handling areas. If this is done, record the number and location of all trays.

Application of this product by power duster is permitted in areas in which the use of a power duster is appropriate. Adjust power duster application rate to setting recommended by power duster manufacturer for such applications.

Keep children and pets out of areas being treated until application to that area is complete. Do not treat pets with this product. Do not contaminate feed and foodstuff with this product.

Can be applied in conjunction with ABATHOR Granular Ant Bait. Apply all products according to their separate individual label directions.
OUTDOOR USE
For applications to lawns, ornamental turf, playing fields, parks and golf course greens
Pests controlled: Ants, cockroaches, crickets (including mole crickets)
Application Location and Method: Spread/broadcast evenly with a mechanical spreader, hand shaker or duster. Do not water this product in.
For Mole crickets, irrigate areas to be treated immediately before application, preferably in the late afternoon. Do not irrigate after application.
Application Rates: (All the rates are equivalent)
2 lbs. / 1000 sq. ft.
2/3 cup (equal to 3.2 oz.) / 100 square feet
90 lbs. / acre
Application timing: Reapply in 7 days if pest infestation continues.
For applications around exterior building perimeters including exteriors of homes, hotels, apartment buildings, stores, restaurants, warehouses and other structures
Pests controlled: Ants, cockroaches, crickets
Application Method: Spread/scatter evenly and continuously in a band between 2 and 4 feet wide around the exterior perimeter of the structure by hand, hand shaker, mechanical spreader or bellows duster.
Application Rates: (rates are equivalent)
4 lbs. / 1000 sq. ft.
3/4 - 1 1/4 cups (4 - 6 oz.) per 100 square feet.
Application Locations: Apply along and around foundations, patios, driveways, sidewalks, entrances to homes and buildings, or other areas where pests are or may be present. Apply around exterior fixtures such as landscape lighting, floodlights and street lamps. Apply to flowerbeds, leaf litter, woods piles, vegetative debris, compost heaps, mulch beds, around trash cans and refuse areas. Apply along ant trails and in areas of ant activity. Apply most liberally in areas of greatest potential pest harborage however do not allow bait to accumulate in a pile that would be attractive to pets. Quarterly applications during periods of heightened pest activity (during the warmer months of the year) can help suppress the growth of pest populations and ant populations in particular. Applications can be made at the same time as and in conjunction with the application of a liquid pesticide around the exterior perimeter of the structure. If the liquid treatment contains a repellent pesticide such as a synthetic pyrethroid, keep the areas treated with the two different products separate by first applying the liquid pesticide on and immediately adjacent to the structure (to the extent permitted in the repellent product label directions) and then applying this product in a band outside the area covered by the liquid treatment. Applications can also be made in insect bait stations.
For Carpenter ants, create bands around trees, stumps, firewood piles, mulch beds and other potential Carpenter ant harbories. Treat Carpenter ant nests in hollow trees and stumps directly by applying the liquid treatment contains a repellent pesticide such as a synthetic pyrethroid, and the wall. Remove electrical wall sockets and switch covers and apply product into wall voids. Do not apply directly into electrical switch and outlet boxes.
For applications to ant mounds
Application Method and Rate: Limited to crack and crevice treatment only.
Application Locations: Apply in areas where pest activity is heaviest such as crack and crevice treatment
Pests controlled: Ants, cockroaches, crickets
Application Rates: (rates are equivalent)
4 lbs. / 1000 sq. ft.
1 ¾ cups (equal to 6 oz.) / 100 square ft.
Application Method: Spread/scatter evenly by hand, duster or hand shaker or inject into cracks and crevices with a bellows type duster.

INDOOR USE (EXCEPT FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS)
For applications to the interiors of apartment buildings, camps, factories, food handling establishments (non-food areas), garages, grocery stores, homes, hospitals, hotels, industrial plants, kennels, libraries, markets, military bases, mobile homes, motels, new construction, nursing homes, offices, pet stores, restaurants, schools, sewers, stores, theaters, transportation equipment, utilities, warehouses and zoos.
Pests Controlled: Ants, cockroaches, crickets, silverfish
Application Rates: (rates are equivalent)
4 lbs. / 1000 sq. ft.
1 ¾ cups (equal to 6 oz.) / 100 square ft.
Application Method: Spread/scatter evenly by hand, duster or hand shaker or inject into cracks and crevices with a bellows type duster.

USE IN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS
Pests controlled: Ants, cockroaches, crickets and silverfish
Application Method and Rate: Limited to crack and crevice treatment only.
Application Locations: Apply in areas where pest activity is heaviest such as crack and crevice treatment
Pests controlled: Ants, cockroaches, crickets, silverfish
Application Rates: (rates are equivalent)
4 lbs. / 1000 sq. ft.
1 ¾ cups (equal to 6 oz.) / 100 square ft.
Application Method: Spread/scatter evenly by hand, duster or hand shaker or inject into cracks and crevices with a bellows type duster.

USE IN MEAT AND POULTRY PLANTS
For applications only in inedible product areas as a crack and crevice treatment
Pests controlled: Ants, cockroaches, crickets and silverfish
Application Location: Apply in areas where pest activity is heaviest such as crack and crevice treatment
Pests controlled: Ants, cockroaches, crickets and silverfish
Application Rates: (rates are equivalent)
4 lbs. / 1000 sq. ft.
1 ¾ cups (equal to 6 oz.) / 100 square ft.
Application Method: Spread/scatter evenly by hand, duster or hand shaker or inject into cracks and crevices with a bellows type duster.

USE IN KITCHENS, BATHROOMS AND OTHER AREAS
For applications to the interiors of apartment buildings, camps, factories, food handling establishments (non-food areas), garages, grocery stores, homes, hospitals, hotels, industrial plants, kennels, libraries, markets, military bases, mobile homes, motels, new construction, nursing homes, offices, pet stores, restaurants, schools, sewers, stores, theaters, transportation equipment, utilities, warehouses and zoos.
Pests Controlled: Ants, cockroaches, crickets, silverfish
Application Rates: (rates are equivalent)
4 lbs. / 1000 sq. ft.
1 ¾ cups (equal to 6 oz.) / 100 square ft.
Application Method: Spread/scatter evenly by hand, duster or hand shaker or inject into cracks and crevices with a bellows type duster.

USE IN Kitchens, Bathrooms and Other Areas
For applications to the interiors of apartment buildings, camps, factories, food handling establishments (non-food areas), garages, grocery stores, homes, hospitals, hotels, industrial plants, kennels, libraries, markets, military bases, mobile homes, motels, new construction, nursing homes, offices, pet stores, restaurants, schools, sewers, stores, theaters, transportation equipment, utilities, warehouses and zoos.
Pests Controlled: Ants, cockroaches, crickets, silverfish
Application Rates: (rates are equivalent)
4 lbs. / 1000 sq. ft.
1 ¾ cups (equal to 6 oz.) / 100 square ft.
Application Method: Spread/scatter evenly by hand, duster or hand shaker or inject into cracks and crevices with a bellows type duster.
STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Consult federal, state or local disposal authorities for approved alternative procedures.

**Pesticide Storage:** Store in a dry place. Do not store where children or animals may gain access.

**Pesticide Disposal:** Wastes resulting from use of this product may be disposed of on site, in accordance with the label directions, or at an approved waste disposal facility.

**Container Disposal:** Empty container by using the product according to the label directions. Do not reuse the container! Place empty container in trash or offer for recycling if available. If container is partly filled, call your local solid waste agency for disposal instructions. NEVER PLACE UNUSED PRODUCT DOWN ANY INDOOR OR OUTDOOR DRAIN!

IMPORTANT READ BEFORE USE

**NOTICE:** Read the entire Directions for Use, Conditions of Sale, Disclaimer of Warranties and Limitations of Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

**CONDITIONS OF SALE:** The Directions for Use of this product are believed to be adequate and should be followed carefully. However, because of manner of use and other factors beyond the control of Ensystex II, Inc., it is impossible for Ensystex II to eliminate all risks associated with the use of this product such as ineffectiveness or unintended consequences. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Ensystex II harmless for any claims relating to such factors.

**DISCLAIMER OF WARRANTIES:** Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the Directions for Use when used in accordance with the Directions for Use under normal conditions of use. ENSYSTEX II MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER EXPRESS OR IMPLIED WARRANTIES WITH RESPECT TO THE SELECTION, PURCHASE, OR USE OF THIS PRODUCT THAT EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL. Any warranties, express or implied, having been made are inapplicable if this product has been used contrary to label instructions, under abnormal conditions or under conditions not reasonably foreseeable by (or beyond the control of) seller or Ensystex II, Inc., and buyer assumes the risk of any such use.

**LIMITATIONS OF LIABILITY:** To the extent permitted by law, Ensystex II shall not be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF ENSYSTEX II AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF ENSYSTEX II, THE REPLACEMENT OF THE PRODUCT.

This Conditions of Sale and Limitation of Warranty and Liability may not be amended by any oral or written agreement.
