This product is not for use on critical and semi-critical medical device surfaces. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product, when used as directed, is formulated to disinfect hard non-porous inanimate environmental surfaces: floors, walls, metal surfaces, sinks, countertops, appliances, tables, add 1/2 ounce of this product per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer. Product can be used in bathrooms, shower stalls, locker rooms, exercise facilities or other clean, hard non-porous surfaces commonly contacted by bare feet. Allow the surface to remain wet for 10 minutes, then remove excess liquid. Diluted product should be applied daily or more frequently with heavy facility use.

For sprayer applications, spray 6-8 inches from surface, rub with brush, sponge or cloth. Do not breathe spray mist. For use in federal inspection meat and poultry plants, add 1/2 ounce of this product per gallon of water. Apply using a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer. Do not use this product on surfaces that will be in contact with food or equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Fill the container with potable water and allow the water to remain in the container for 10 minutes. Then drain the container for 10 seconds after the flow begins to drip. Fill the container with potable water and allow the water to remain in the container for 10 minutes. Then drain the container for 10 seconds after the flow begins to drip.

The container shall be stored with potable water. The container shall be stored at 70°F or less.

**PRECAUTIONARY STATEMENTS**

**DANGER**

If you or your child has swallowed this product, see Poison Control Center or local doctor immediately. In case of contact with eyes, rinse immediately with plenty of water. If on skin or clothing, remove immediately by washing; see Inert Ingredients. Keep packaging out of reach of children. If swallowed, do not induce vomiting. Call Poison Control Center or Doctor immediately. Do not give anything by mouth to an unconscious person.

**WARNING**

This product contains chemical(s) known to the State of California to cause cancer, birth defects and other reproductive harm. Wash hands thoroughly with soap and water after handling this product.

**FIRST AID TREATMENT**

**Eye Contact**

Rinse eyes with plenty of water for at least 15 minutes. Remove any contact lenses and continue rinsing. Call your physician if irritation persists.

**Skin Contact**

Rinse skin thoroughly with plenty of water. If irritation persists, call 911 or doctor immediately. Do not apply or cause to come in contact with eyes, mouth, or skin.

**Inhalation**

If you inhale this product, remove the person from the contaminated area. If breathing is difficult, call 911 or a doctor immediately. Do not give anything by mouth to an unconscious person.

**Ingestion**

If the product enters the mouth, rinse it out thoroughly with plenty of water. Call 911 or doctor immediately. Do not give anything by mouth to an unconscious person.

**EXTREME HAZARDS**

Probable mucosal damage may contraindicate the use of gastric lavage.
