ULTRA™

PRODUCT DESCRIPTION: This product is a hard, durable, high-strength antifouling paint for use in severe fouling areas. This product provides excellent long-term protection from shell and weed fouling and uses 3M Hokan® technology to block alga. The fast-drying formula of this product allows your boat to be painted and launched in the same day. This product is recommended for use wherever the fouling challenge is severe, and can be used in fresh, salt and brackish water on fiberglass, wood and properly primed metal boat hulls and parts. This product can be applied by brush, roller or spray. This product has excellent color stability and resists changing color over the waterline.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. COMPATIBILITY: Ultra can be applied over any other hard antifouling paint after sanding the surface. Soft antifouling paints will need to be removed or overcoated with Primocote before applying this product.

VOC: Less than 330 grams/gallon (2.75 lbs/gallon) THEORETICAL COVERAGE: 455 sq ft/gallon yields 2 mils dry film thickness.

THINNER: SPECIAL THINNER 216 or BRUSH-EZE 433

DRIFT TIMES: Touch dry - 1 hour Dry to overcoat - 2 hours minimum

APPLICATION TEMPERATURES: 70°F (21°C) and above (air and hull) Dry to launch - 6 hours minimum 60 days maximum

Do not exceed 10% maximum.

APPLY ONCE:

PREVIOUSLY PAINTED - GOOD CONDITION: Remove all traces of loose paint and contamination by sanding the entire surface with 60 grit sandpaper; wipe surfacce clean with Special thinner 216. Apply at least 2 coats of this product. PREVIOUSLY PAINTED - POOR CONDITION: Completely remove all old antifouling paint, using Intersil® 2005. Sand and wipe clean with Fiberglass Solvent Wash 202.

BARE FIBERGLASS: It is very important that bare fiberglass be properly prepared to prevent delamination of the antifouling paint. Begin by scrubbing the surface thoroughly with a stiff brush using Intersil All-Purpose Boat Soap and water to remove loose dirt and contamination. Flush with fresh water to remove the soap residue and allow to dry. Remove mold release wax using one of the following Interlux products. Fiberglass Surf Prep YMA601 or Fiberglass Solvent Wash 202 following the product label instructions. Be certain that all of the contamination has been removed, run water over the surface, if the water holds up or separates, clean again. When the water sheets off, all contamination has been removed. After the surface has been properly cleaned, proceed with one of the application systems below.

BARE FIBERGLASS - NO SAND SYSTEM: Clean the surface following the preparation procedure above. Apply one coat of Interlux Intersil® 2005 or Fiberglass No-Sand Primer YMA209 following the label instructions for applying the primer and overcoating with antifouling paint. Apply two coats of this product, allowing for the appropriate dry times.

BARE FIBERGLASS - SANDING SYSTEM: Clean the surface following the preparation procedure above. Sand the entire surface with 60 grit sandpaper and wipe clean with Fiberglass Solvent Wash 202 to remove sanding residue. Repair any surface imperfections with Waterline YW 135. Sand and wipe clean. Apply two coats of this product allowing for appropriate dry times.

BARE WOOD: Sand the entire surface with 80 grit sandpaper, wipe surface clean with Interlux Special Thinner 216. Repair imperfections with Waterline YW 135. Sand and wipe clean. Apply the first coat of this product thinned 10% with Special Thinner 216 or Brush-Eze 433. Fill imperfections with Steam Compound 30 if necessary. Apply two more coats of this product unthinned, allowing appropriate dry times.

UNDERWATER METALS: Contact the Interlux Technical Service Department at 1-800-469-7599 for full information on how to properly prime underwater metals. DO NOT USE ON ALUMINUM.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

Harmful if absorbed through skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants, and hat. Avoid breathing spray mist. While spraying paint or sanding or sand blasting boat surfaces, wear a mask or an respirator approved by the Mine Safety & Health Administration and the National Institute of Occupational Safety & Health. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. May pose an aspiration pneumonia hazard.

FIRST AID:

If Swallowed:
- Call a Poison Control Center or doctor immediately for treatment advice.
- Have the person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a Poison Control Center or doctor.
- Do not give anything by mouth to an unconscious person.

If In Eyes:
- Hold open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
- Call a Poison Control Center or doctor for treatment advice.

If On Skin And Clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a Poison Control Center or doctor for treatment advice.

If Inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, give artificial respiration preferably mouth-to-mouth if possible.
- Call a Poison Control Center or doctor for further treatment advice.

In case of emergency call 1-800-854-6813. Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment.

ENVIRONMENTAL HAZARD:

This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow drifts and dust generated during painting operation to enter water. Disposal of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans and other waters unless in accordance with the requirements of a National Polluent Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer system without properly notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD:

Combustible. Do not use or store near heat or open flame.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, empty containers or waste is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:

Nonrefillable containers. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or drain for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

For chemical emergency spill, leak, exposure or accident, call your free: CHEMTREC 1-800-424-9300 (DAY OR NIGHT) MEDICAL ADVISORY: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-654-6813.
