FORMULATED FOR
LOVELAND PRODUCTS, INC., P.O. BOX 1286, GREELEY, COLORADO 80632-1286
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

Harmful if swallowed or absorbed through skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Physical/Chemical Hazards

Do not weld, heat or drill this container. Residues may ignite with explosive violence if heated sufficiently.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

• Long-sleeved shirt and long pants;
• Shoes plus socks;
• Chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber, or viton).

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

IMPORTANT: When reduced PPE is worn because a closed system is being used, handlers must be provided all PPE specified above for “applicators and other handlers” and have such PPE immediately available for use in an emergency, such as a spill or equipment breakdown.

User Safety Recommendations

Users should:

• Wash hands thoroughly before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water or areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Apply product only as specified on the label.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulations.

Precautionary Statements

Hazard to Humans and Domestic Animals

CAUTION: Harmful if swallowed or absorbed through skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Physical/Chemical Hazards

Do not weld, heat or drill this container. Residues may ignite with explosive violence if heated sufficiently.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

• Long-sleeved shirt and long pants;
• Shoes plus socks;
• Chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber, or viton).

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

IMPORTANT: When reduced PPE is worn because a closed system is being used, handlers must be provided all PPE specified above for “applicators and other handlers” and have such PPE immediately available for use in an emergency, such as a spill or equipment breakdown.

User Safety Recommendations

Users should:

• Wash hands thoroughly before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water or areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Apply product only as specified on the label.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. User Safety Recommendations

Users should:

• Wash hands thoroughly before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water or areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Apply product only as specified on the label.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulations.
DO NOT USE FIRST CHOICE NARROW RANGE 415 SPRAY OIL when temperature is above 90° F when making low volume application or above 95° F when making dilute application.

CROP RECOMMENDATIONS
Apply when pests appear. Adjust dosage with recommended range according to pest infestation, crop canopy size, crop conditions, etc. FIRST CHOICE NARROW RANGE 415 SPRAY OIL may be reapplied if pest pressure continues.

LEMONS
Red Scale, Yellow Scale, Purple Scale, Black Scale, Brown Soft Scale, Citrus Red Mite, Citrus Bud Mite. 1.2 to 1.4 gallons/100 gallons of water with thorough coverage. In Central and Southern California, apply in late spring and late summer through December. In Coastal California, apply from March through early November. The higher dosage is recommended for heavier infestations in early fall. To aid in control of Red, Black, Yellow, or Purple Scale, add a suitably labeled insecticide. Care should be taken when combining oil sprays with certain miticides and insecticides due to possible increased phytotoxicity when applied over foliage. See Agricultural Extension Service for recommendations on special combinations. See notes below for Spreader-sticker, Low Volume, and additional Black Scale uses.

NAVEL ORANGES
Citrus Red Mite, Red Scale, Yellow Scale, Purple Scale: 0.6 to 0.8 gallons FIRST CHOICE NARROW RANGE 415 SPRAY OIL per 100 gallons of water with full coverage. SEVIN® (0.4 lb. 80% WSP per 100 gallons) or 1.0 lbs. Malathion 25% WP per 100 gallons may be added if needed for scale control. Do not use FIRST CHOICE NARROW RANGE 415 SPRAY OIL on Navel Oranges after September 1.

ORANGES, GRAPEFRUIT, LIMES and OTHER CITRUS spp.
Red Scale, Yellow Scale, Purple Scale, Black Scale, Citricola Scale, Brown Soft Scale, Citrus Red Mite, Pacific Spider Mite, Two-spotted Spider Mite. 1.2 to 1.4 gallons/100 gallons of water with thorough coverage late summer and fall (Central California/Southern CA including Oxnard Plains) July through September. High-end dosage only for July or August applications. To aid in control of Red, Yellow, Black, Purple Scale, add a suitably labeled insecticide. Care should be taken when combining oil sprays with certain miticides and insecticides due to possible increased phytotoxicity when applied over foliage. See Agricultural Extension Service for recommendations on special combinations. Low Volume Applications: Oranges and Grapefruit. Citrus Red Mite, 12 to 15 gallons FIRST CHOICE NARROW RANGE 415 SPRAY OIL per acre in 50 to 100 gallons of water.

APRICOTS, ALMONDS, CHERRIES,NECTARINES, PEACHES, PISTACHIOS, PLUMS, PRUNES
Summer use for Red Mite: 0.7 gallons/100 gallons of water. Summer stage (post harvest): Brown Apricot Scale. San Jose Scale: 1 to 1.5 gallons/100 gallons of water. Some varieties may be sensitive to oil and organic phosphate combinations. Dormant or Delayed Dormant: San Jose Scale, Parlatoria Scale, Walnut Scale, Brown Apricot Scale, Black Scale, Mite Eggs, Aphid Eggs: 1.5 to 2 gallons/100 gallons of water. Delayed Dormant: Leaf Roller Eggs: 2.5 gallons/100 gallons of water. NOTE: On prune trees sensitive to oil, application should he made in the period between February 15 and the popcorn stage.

Agricultural Use Requirements cont’d.
• Shoes plus socks, and
• Chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber, or viton).

GENERAL USE DIRECTIONS
FIRST CHOICE NARROW RANGE 415 SPRAY OIL is a straight cut, narrow range petroleum oil designed specifically for agricultural use on citrus and other crops including apples, pears, grapes, apricots, almonds, avocados, cherries, kivi, nectarines, peaches, pistachios, plums, prunes, walnuts and ornamentals.

APPLICATIONS: FIRST CHOICE NARROW RANGE 415 SPRAY OIL is formulated as a ‘fast break’ spray oil and will not stay in solution unless agitated constantly. Keep agitator running at all times during spray operations. Apply so as to give total coverage to all parts of crop. Total coverage of all parts of trees is essential for optimum results. Apply as directed to thoroughly drench all limbs, twigs, and leaves without significant runoff. For smaller, immature trees and vines, spray solution quantities should be reduced proportionately.

DILUTION: Be sure tank is clean. Fill spray tank with 1/2 the required amount of water. Start agitator. Add total amount of spray oil. Continue to agitate while adding balance of water and while spraying. DO NOT USE THIS MATERIAL IF IT DOES NOT EMULSIFY.

GROUND APPLICATION: Dilute recommended dosage in 50-3,000 gallons of water per acre.

AERIAL APPLICATION: Dilute FIRST CHOICE NARROW RANGE 415 SPRAY OIL at the recommended dosage in 10-30 gallons of water per acre for thorough coverage (consult with local Extension Service or agricultural chemical authority for dilution and/or combinations with currently registered pesticides). Use lower rates on susceptible varieties or young trees. In case of conflicting directions, refer to the specific crop instructions.

COMPATIBILITY: FIRST CHOICE NARROW RANGE 415 SPRAY OIL may be tank mixed with insecticides, fungicides or foliar nutrients. To assure the compatibility of tank mixtures, mix the correct proportions of the tank mix components in a small container. After thorough mixing, allow the mixture to stand for 5 minutes. If the combination remains mixed or can be readily remixed, the tank mixture is compatible.

CHEMIGATION: DO NOT APPLY this product through any type of irrigation system. DO NOT APPLY this product within 30 days before or after applications of sulfur. DO NOT APPLY this product through any type of irrigation system. DO NOT APPLY this product within 30 days before or after applications of sulfur. DO NOT APPLY this product through any type of irrigation system.

NOTE: UNLESS SPECIFICALLY INDICATED OTHERWISE, THIS PRODUCT IS TO BE DILUTED WITH WATER BEFORE APPLICATION. DILUTION RATES ARE INDICATED BELOW AND ARE TO BE INTERPRETED AS GALLONS OF FIRST CHOICE NARROW RANGE 415 SPRAY OIL PER 100 GALLONS OF WATER.
APPLIES AND PEARS
Summer application (post harvest): Red Mites: 0.7 gallons/100 gallons of water. Immature summer stage (post harvest): San Jose and Italian Pear Scale, use 1 to 1.5 gallons/100 gallons of water. General use as an aid in adherence of insoluble insecticides: Use one quart to 100 gallons of water. Dormant and Delayed Dormant: San Jose Scale, Italian Pear Scale: 1.5 to 2 gallons/100 gallons of water. Delayed Dormant: Leaf Roller Eggs: 2.5 gallons/100 gallons of water. Pear Psylla: 1 gallon/100 gallons of water.

GRAPEs
(Dormant): Mealybugs: Use 1 to 2 gallons of FIRST CHOICE NARROW RANGE 415 SPRAY OIL per 100 gallons of water with thorough coverage. A tank mix using an insecticide registered for use on grapes for mealybug improves control.

HOPS
Mites and powder mildew: For powder mildew, use 1 to 2 gallons FIRST CHOICE NARROW RANGE 415 SPRAY OIL per 100 gallons of water. Start sprays at early leaf stage. Continue sprays on a 10-14 day interval. For mite control, use the same spray regime as powder mildew. Stop sprays at bud development. Apply with ground equipment only.

KIWI
(Dormant): Leafroller Scale, Oleander Scale, San Jose Scale: Apply 4 to 6 gallons FIRST CHOICE NARROW RANGE 415 SPRAY OIL per treated acre. Apply in a minimum of 100 gallons spray volume per acre. Do not apply after bud break. Use the higher rate where scale populations are high.

Late Spring-Summer: Scale crawlers and Leafrollers: Apply 1 gallon/100 gallons of water as a dilute spray only. Do not apply during period of fruit sensitivity (10 days after flowering to the third week in July). Do not use spray additives.

AVOCADOs
For Mites and Thrips, use 1 to 4 gallons of oil per 100 gallons of water in a dilute spray of 400 to 3,000 gallons per acre. Good coverage is required to be effective. Do not exceed 30 gallons of oil per acre per application. For concentrate spray, use 4 to 15 gallons of oil per acre in 50 to 100 gallons of spray mixture or in enough water for adequate coverage. When the application of oil is more than 2% v/v concentration, it is recommended that a small test area be treated and observed. Allow enough time for symptoms to appear before continuing to spray.

OLIVES
Parlatoria scale: Use 1.5 gallons FIRST CHOICE NARROW RANGE 415 SPRAY OIL per 100 gallons of water. Apply prebloom or post bloom up to budburst stage.

WALNUTS
Delayed dormant: Brown Apricot Scale, Black San Jose Scale, Olive Scale, Oleander Scale, Frosted Scale, Italian Pear Scale, European Fruit Lecanium, Putnam Scale, Brown Soft Scale, Certain Scale Insects, eggs of Aphids, Red Spider Mites: 1.5 to 2 gallons/100 gallons of water.

Summer Use: Red Spider Mites: 3 to 4 quarts/100 gallons of water. Summer stage: Brown Apricot Scale, San Jose Scale: 1 gallon/100 gallons of water. This treatment should only be used on trees that have not suffered from lack of moisture at any time during the growing season. Further, oils should not be applied to orchards where soil moisture is low. Do not apply after husk split.

SHADE TREES, SHRUBS, ORNAMENTALS, FLOWER AND FOLIAGE PLANTS

Shade Trees* and Shrubs including Conifers, Deciduous Broadleaf Evergreens & Woody Ornamentals: Aphids, Adelgids, Bark Beetles, Boxelder Bugs, Eriophyid Mites, Folage Feeding Caterpillar, Gall Mites, Lace Bug, Leaf Beetle Larvae, Leafhoppers, Leafminers, Mealybug, Psyllids (immature), Sawfly (larvae), Scales (immature), Sharpshooters, Spider Mites, True Bugs (immature), Whiteties (immature).

Winter Dormant Period: As needed: 2 to 4 gallons of oil per 100 gallons water. Summer (Foliar or Cover): As needed: 1 to 3 gallons of oil per 100 gallons water.

ORNAMENTAL TREES*, SHRUBS ALONG CITY STREETS, OTHER RIGHTS-OF-WAY INCLUDING CONIFERS, DECIDUOUS AND BROADLEAF EVERGREENS
Aphids, Adelgids, Bark Beetles, Boxelder Bugs, Eriophyid Mites, Folage Feeding Caterpillar, Gall Mites, Lace Bug, Leaf Beetle Larvae, Leafhoppers, Leafminers, Mealybug, Psyllids (immature), Sawfly (larvae), Scales (immature), Sharpshooters, Spider Mites, True Bugs (immature), Whiteties (immature).

Winter Dormant Period: As needed: 2 to 4 gallons of oil per 100 gallons water. Summer (Foliar or Cover): As needed: 1 to 3 gallons of oil per 100 gallons water.

FLOWERING AND FOLIAGE PLANTS INCLUDING ROSES AND OTHER FLOWER-ING SHRUBS
Aphids, Adelgids, Bark Beetles, Boxelder Bugs, Eriophyid Mites, Folage Feeding Caterpillars, Gall Mites, Lace Bug, Leaf Beetle Larvae, Leafhoppers, Leafminers, Mealybug, Psyllids (immature), Sawfly (larvae), Scales (immature), Sharpshooters, Spider Mites, True Bugs (immature), Whiteties (immature).

Winter Dormant Period: As needed: 2 to 3 gallons of oil per 100 gallons water. Summer (Foliar or Cover): As needed: 1 to 2 gallons of oil per 100 gallons water.

FOLIAGE ORNAMENTALS & BEDDING PLANTS
Aphids, Adelgids, Bark Beetles, Boxelder Bugs, Eriophyid Mites, Folage Feeding Caterpillars, Gall Mites, Lace Bug, Leaf Beetle Larvae, Leafhoppers, Leafminers, Mealybug, Psyllids (immature), Sawfly (larvae), Scales (immature), Sharpshooters, Spider Mites, True Bugs (immature), Whiteties (immature).

Winter Dormant Period: As needed: 2 to 3 gallons of oil per 100 gallons water. Summer (Foliar or Cover): As needed: 1 to 2 gallons of oil per 100 gallons water.

CAUTION: Spray no more than 4 times during the growing season; use a 2-week minimum application interval. Do not spray when buds have fully opened and shoot elongation is occurring. Do not spray when there is obvious moisture deficit in leaves, or the plant is under stress. For fall dormant applications, reduce rate to 2 gallons of oil per 100 gallons water. In the state of California, list use to: American Red Oak, Japanese Black Pine, Dogwood, Weeping Cherry, Cornelian Cherry, Crabapple, Norway Maple, Purple Leaf Plum. Keep away from open blooms - bleaching and spotting has been observed with the open blooms of certain plants.
1. When the soil (especially the sub-soil) is relatively dry or when trees are under
   stress.
2. Immediately prior to, during, or following an unusually cold weather period.
3. When the temperature is above 95 degrees Fahrenheit.
4. Do not use with captan, dichlone, glydoin, sulfur or lime sulfur. Do not use oil
   sprays and petroleum based products with this product.
5. Do not apply during low humidity, i.e. Santa Ana winds in Southern California.
6. Do not apply copper products for 30 days before or after oil application on
   citrus.
7. Do not apply in 50 to 100 gallons of spray mixture per acre is preferred but not
   required depending on the spray equipment used.
8. For shipping fruit, use the 6 gallon rate not later than 6 weeks before harvest
9. Application in 50 to 100 gallons of spray mixture per acre is preferred but not
   required depending on the spray equipment used.

**Storage & Disposal cont’d.**:

Storage: Pesticide disposal facility.

Disposal: Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank and continue to drain for 10 seconds. Repeat this procedure two more times. Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank and collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

For packages greater than 5 gallons and less than 56 gallons: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinseate collection system. Repeat this rinsing procedure two more times.

For reifiable containers: Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinseate collection system. Repeat this rinsing procedure two more times. Offer for recycling or reconditioning, if available, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC - 1-800-424-9300.

**Storage and Disposal**:

- Do not contain water, food or feed by storage or disposal.
- Do not store this product in a repository.
- Do not store this product in a cool, dry place and avoid excess heat.
- Do not use this product as a pesticide or a crop protection product.
- Pesticide disposal: Keep pesticides in original container.
- Store in a cool, dry place and avoid excess heat.
- Do not do any treatment of water or soil with this product.
- Do not reuse this container for any other purpose.
- Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinseate collection system. Repeat this rinsing procedure two more times.
- Offer for recycling or reconditioning, if available, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**Storage & Disposal cont’d.**:

Collection site or pick up for recycling. To find the nearest site, contact your chemical dealer or manufacturer, or contact the Agricultural Container Recycling Council (ACRC) at www.acrcycle.org. If not recycled, then puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**Note:** Being an oil spray, application should NOT be made:

1. On days when wind speed is above 10 miles per hour.
2. On extremely humid days.
3. On days when the temperature exceeds 93° F for lemons.
4. On days when the temperature exceeds 95° F. Do not apply if the temperature is below 55° F.
5. On days when the temperature is above 95° F.
6. On days when the temperature is above 95° F or when trees are under stress.
7. On days when the temperature is above 95° F or when trees are under stress.
8. On days when the temperature is above 95° F.
CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

BEFORE BUYING OR USING THIS PRODUCT, read the entire Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary in any way.

Follow the Directions for Use of this product carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop or other plant injury, ineffectiveness, or other unintended consequences may result from such risks as weather or crop conditions, mixture with other chemicals not specifically identified in this product's label, or use of this product contrary to the label instructions, all of which are beyond the control of LOVELAND PRODUCTS, INC. and the seller. The buyer or user of this product assumes all such inherent risks.

Subject to the foregoing inherent risks, LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use when the product is used in strict accordance with such Directions for Use under normal conditions of use. EXCEPT AS WARRANTED IN THIS LABEL AND TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THIS PRODUCT IS SOLD “AS IS,” AND LOVELAND PRODUCTS, INC. MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ELIGIBILITY OF THIS PRODUCT FOR ANY PARTICULAR TRADE USAGE.

IN THE UNLIKELY EVENT THAT BUYER OR USER BELIEVES THAT LOVELAND PRODUCTS, INC. HAS BREACHED A WARRANTY CONTAINED IN THIS LABEL AND TO THE EXTENT REQUIRED BY APPLICABLE LAW, BUYER OR USER MUST SEND WRITTEN NOTICE OF ITS CLAIM TO THE FOLLOWING ADDRESS: LOVELAND PRODUCTS, INC., ATTENTION: LAW DEPARTMENT, P. O. BOX 1286, GREELEY, CO 80632-1286.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE BUYER’S OR USER’S EXCLUSIVE REMEDY FOR ANY INJURY, LOSS, OR DAMAGE RESULTING FROM THE HANDLING OR USE OF THIS PRODUCT, INCLUDING BUT NOT LIMITED TO CLAIMS OF BREACH OF WARRANTY OR CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR OTHER TORTS, SHALL BE LIMITED TO ONE OF THE FOLLOWING, AT THE ELECTION OF LOVELAND PRODUCTS, INC. OR THE SELLER: DIRECT DAMAGES NOT EXCEEDING THE PURCHASE PRICE OF THE PRODUCT OR REPLACEMENT OF THE PRODUCT. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, LOVELAND PRODUCTS, INC. AND THE SELLER SHALL NOT BE LIABLE TO THE BUYER OR USER OF THIS PRODUCT FOR ANY CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES, OR DAMAGES IN THE NATURE OF A PENALTY.
