PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

DANGER
Corrosive. Causes irreversible eye damage. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Wear goggles, nose shield, or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

Residential (non-commercial) users are advised to wear chemical resistant gloves, protective eyewear (goggles, safety glasses, or face shield), long-sleeved shirt and long pants, socks and shoes.

Commercial users must wear a disposable coverall with hood, chemical resistant gloves, protective eyewear (goggles, safety glasses, or face shield), long-sleeved shirt and long pants, socks and chemical-resistant footwear. While removing existing paint by sanding or blasting, or applying new paint, user must wear a respirator with an organic vapor removing cartridge with a prefiter approved for pesticides (MSHAN/OSHA approval number prefix TC-25C), or a canister approved for pesticides (MSHAN/OSHA approval number TC-142), or an NIOSH approved full face respirator with an organic vapor removing cartridge with a P-100 filter.

Environmental Hazards. This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into a watercourse. Do not discharge effluent containing this product into a watercourse. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Wear protective clothing and supplied air respirator in accordance with the precautionary statements above when handling, painting or removing this paint.

FIRST AID
If in Eyes: - Hold eye open and rinse slowly and gently for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing.
- Call a poison control center or doctor for treatment advice.

If Inhaled: - Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Have product container or label with you when calling a poison control center or doctor for treatment advice. For emergency information on this product, call the National Pesticide Information Center at 1-800-858-7378, 6:30 AM to 4:30 PM Pacific Time (PT), seven days a week. During other times, call the Poison Control Center at 1-800-222-1222.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. VELOX PLUS ANTIFOULING WHITE is an antifouling coating for the control of barnacles, mussels, slime, algae, grasses and other marine and freshwater fouling organisms. It is for use on propellers, stern drives and other underwater metallic parts of recreational and commercial vessels. It is not intended for use on hulls. This product may be applied by brush or spray (commercial users).

SURFACE PREPARATION
STEEL OR BRONZE: Remove any existing antifouling coating.
Remove grease or oil stains from the propeller or metalic part using a fast degreasing solvent. Sand the metallic surface with rather coarse and sharp sandpaper (40 - 100) or sandblast it. Then remove dust with a dry rag or with a brush. Do not touch the sanded surface with bare hand, as this may leave traces of grease which will impair adhesion of the product.

ALUMINUM OR LIGHT ALLOY: Remove any existing antifouling coating. For new aluminum or light alloy parts that are already varnished with the original factory finish, degrease and sand with fine sandpaper. Bare aluminum must be treated with an appropriate epoxy coating, then sanded with fine sandpaper.

MIXING: Thoroughly mix before use, by shaking the can well in an upside down position for 2 minutes before opening. After opening, stir with a paddle to ensure that the paint is homogeneous.

APPLICATION

VELOX PLUS and its primer METAL PLUS can be applied by brush or sprayer (commercial users only). Apply one light coat of METAL PLUS, after allowing to dry for a minimum of 3 hours (10°F), apply 2-3 coats of VELOX PLUS waiting at least 3 hours (70°F) between each coat. Wait at least 15 hours before launching. Apply VELOX PLUS or METAL PLUS on other antifouling paints.

Theoretical coverage per coat: 450 square feet per gallon (11 square meters per liter).

For application by residential (non-commercial) users: Do not apply by airless sprayer. Apply only in outdoor, non-enclosed spaces.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Keep container closed when not in use. In case of spillage, absorb with inert material and dispose of in accordance with applicable regulations.

Pesticide Disposal. Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

Container Disposal. Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available.

Commercial Users: Triple rinse container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer the container for recycling or reconditioning, or puncture and dispose of at a sanitary landfill, or by other approved state and local procedures.

For additional safety and handling information, refer to the MSDS and technical bulletin for this product.
