**Dimensions:** mm = 112 x 176 - Pliée 112 x 88
For dogs & puppies ONLY 8 weeks or older and weighing at least 5 lbs. Convenient, fast-acting, long-lasting spot-on treatment for control of ticks, fleas and chewing lice. CERTIFECT® rapidly starts killing all stages of ticks within 6 hours, including Gulf Coast ticks, black legged ticks, Brown Dog ticks, American Dog ticks, Lone Star ticks and Wood ticks • Prevents attachment of ticks • Detaches ticks when applied to a dog with a pre-existing infestation • Kills ticks which may transmit Lyme Disease, Canine Ehrlichiosis, Anaplasmosis, Rocky Mountain Spotted Fever, Hepatozoonosis, Babesiosis, or cause tick paralysis • Provides potentiated efficacy against ticks • Rapidly starts killing ticks within 6 hours • Kills adult fleas, flea eggs & flea larvae • Prevents all flea stages (eggs, larvae, pupae) from developing • Kills fleas that may transmit disease, including bartonellosis and tapeworm disease. • Kills fleas which may cause flea allergy dermatitis • Stops existing infestations and prevents re-infestations of fleas and ticks • Long-lasting for 1 month against ticks and 3 months against fleas • Eliminates infestations with chewing lice • Aids in control of sarcoptic mange infestations • Can also be used on breeding, pregnant, and lactating bitches • Waterpoof • Remains effective after swimming.

CERTIFECT® aids in the control of sarcoptic mange infestations. Apply once per month for at least two months for the elimination of mites. CERTIFECT® can also be used for the treatment and control of flea, tick and chewing lice infestations on breeding, pregnant, and lactating bitches.

Available Through Veterinarians

DO NOT USE ON CATS

CERTIFECT® contains fipronil, (S)-methoprene, an insect growth regulator (IGR), and amitraz. CERTIFECT® effectively targets all stages of ticks and fleas.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS and DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

For external use on dogs and puppies ONLY 8 weeks or older and weighing at least 5 lbs. Individual sensitivities, while rare, may occur after using any pesticide product.

SIDE EFFECTS: Transient lethargy of variable duration and pruritus (itching) may occur with the use of this product. In very rare instances, certain sensitive dogs may develop skin irritation at the application site or other forms of dermatitis including pustules-like conditions (skin thickening, flaking skin). Should this occur, contact your veterinarian for treatment advice promptly and discontinue use of the product.

DO NOT USE on dogs that have been diagnosed with diabetes or heart problems. Consult a veterinarian before using on dogs that are medicated, debilitated, aged or obese. Certain medications can interact with pesticides. Amitraz is a monamine oxidase inhibitor (MAOI); therefore, people taking MAOI-containing medication must take particular care when handling this product. Call 1-800-660-1842 for assistance.

CERTIFECT® is applied and remain dry 24 hours after application. Do not contact treated area until completely dry. Verify that the applicator is empty after application. Do not use more than one application per dog per month. Your dog needs to be dry at the time CERTIFECT® is applied and remain dry 24 hours after application. Do not contact treated area until completely dry. Verify that the applicator is empty after applying to your dog.

FREQUENCY OF APPLICATION

A monthly application of CERTIFECT® kills all stages of ticks, completely breaks the flea life cycle and controls chewing lice infestations.

CERTIFECT® prevents ticks from attaching, and detaches ticks when applied to a dog with a pre-existing infestation. Do not apply more than once a month.

Research demonstrates that CERTIFECT® kills adult fleas (Ctenocephalides felis and Ctenocephalides canis), flea eggs, and flea larvae for up to three months.

CERTIFECT® also prevents development of all flea stages for up to three months. Although CERTIFECT® can control fleas for up to three months, if there is a high risk of reinfestation or if the dog has fleas which may cause flea allergy dermatitis, a once monthly application may be needed. CERTIFECT® remains effective even after bathing, water immersion, or exposure to sunlight.

HOW SUPPLIED

For easy and convenient treatment, CERTIFECT® for dogs is available in sizes for small dogs and puppies ONLY 8 weeks and older and 5-22 lbs., medium dogs ONLY 8 weeks old and older and 23-44 lbs., large dogs ONLY 45-88 lbs., and extra large dogs ONLY 99-132 lbs.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE. Store unused product in original container only in a cool dry place, out of reach of children and animals.

PESTICIDE DISPOSAL. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

CONTAINER DISPOSAL. If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

WARRANTY

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent consistent with applicable law, buyer assumes all risk of use and handling of this material when such use and handling are contrary to the label instructions.

- Prevents ticks from attaching, and detaches ticks when applied to a dog with a pre-existing infestation.
- To successfully control ticks & fleas, all dogs must be treated with their own dose of CERTIFECT®.
- Apply according to label instructions, ensuring the product is applied to the skin. It must be applied between the base of the skull and the shoulder blades where the dog cannot lick.
  It may be helpful to remove the collar before application, so it doesn't absorb the product.
- Remember, your dog needs to be dry at the time CERTIFECT® is applied and remain dry 24 hours after application.
- Verify applicator is empty after applying to your dog.
- Even indoor dogs need tick and flea control because you or other dogs in the household may bring ticks and fleas into the home.
