FOR DOGS
HOLD Applicator Upright away from you and your dog’s face, cut applicator tip with scissors to open.
Do not allow your dog to ingest product.
Do not apply to dogs weighing less than 45 lbs. or younger than 8 weeks of age.
Do not use more than one application per dog per month.
CERTIFECT® for dogs rapidly starts killing ticks within 6 hours providing a convenient, effective treatment for all stages of ticks. CERTIFECT® kills ticks, flea eggs, flea larvae, prevents the development of all stages of fleas, and kills chewing lice, and all stages of ticks on dogs weighing 45-88 lbs.

DIRECTIONS FOR USE

To kill all stages of ticks, fleas and chewing lice apply topically to the skin of dogs or puppies (8 weeks or older) monthly. To kill all stages of ticks, fleas and chewing lice for up to three months. CERTIFECT® kills adult fleas, flea eggs, and flea larvae for up to three months. CERTIFECT® also prevents development of all flea stages for up to three months. CERTIFECT® can control flea larvae for up to three months. CERTIFECT® is also effective against all stages of ticks for up to three months. CERTIFECT® aids in the control of sarcoptic mange infestations. Apply once per month for at least two months for the elimination of mites. CERTIFECT® can also be used for the treatment and control of fleas, tick and chewing lice infestations in breeding, pregnant, and lactating bitches.

Frequency of Application

A monthly application of CERTIFECT® kills ticks, completely breaks the flea life cycle and controls chewing lice infestations. Research demonstrates that CERTIFECT® kills adult fleas (Ctenocephalides felis and Ct. canis), flea eggs, and flea larvae for up to three months. CERTIFECT® also prevents development of all flea stages for up to three months. CERTIFECT® can control flea larvae for up to three months. Although CERTIFECT® can control fleas for up to three months, if there is a high risk of re-infestation or if the dog has fleas which may cause flea allergy dermatitis, a once monthly treatment should be considered. Should this occur, contact your veterinarian for treatment advice promptly and see section 17 of the product insert. Do not allow application inconsistent with its labeling.

- **CERTIFECT®** can also be used for the treatment and control of flea, tick and chewing lice infestations on breeding, pregnant, and lactating bitches.
- Available Through Veterinarians

**DO NOT USE ON CATS**

**CERTIFECT®** contains fipronil, (S)-methoprene, an insect growth regulator (IGR), and amitraz. **CERTIFECT®** effectively targets all stages of ticks and fleas.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. For external use on dogs and puppies 8 weeks or older and weighing at least 5 lbs for small dogs, 23 lbs. for medium dogs, 45 lbs. for large dogs, and 89 lbs. for extra-large dogs. Individual sensitivities, while rare, may occur after using any pesticide product.
**SIDE EFFECTS:** Transient lethargy of variable duration and pruritus (itching) may occur with the use of this product. In very rare instances, certain sensitive dogs may develop skin irritation at the application site or other forms of dermatitis including pemphigus-like conditions (skin thickening, flaking skin). Should this occur, contact your veterinarian for treatment advice promptly and discontinue use of the product.

**DO NOT use on dogs that have been diagnosed with diabetes or heart problems. Consult a veterinarian before using on dogs that are medicated, debilitated, aged or obese. Certain medications can interact with pesticides. Amitraz is a monoamine oxidase inhibitor (MAOI); therefore, people taking MAOI-containing medication must take particular care when handling this product. Call 1-800-660-1842 for assistance, Monday-Friday, 8am-8pm EST.

**PHYSICAL OR CHEMICAL HAZARDS**

**COMBUSTIBILITY:** Do not use or store near heat or open flame.

**FIRST AID**

Have the product container or label with you when calling a poison control center or doctor for treatment, or call 1-800-660-1842 for 24-hour assistance.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person.

**DIRECTIONS FOR USE**

It is illegal to use this product in a manner inconsis- tent with its labeling. Read entire label and enclosed directions before use. Follow all directions and precautionary statements carefully.

**Restrictions:** Do not allow children to apply product. Use on dogs ONLY. Do not use on cats, rabbits, or other animals. Open the child-resistant packaging according to the instructions found on the inside back panel of the carton. Do not allow your dog to ingest the product. Do not apply to dogs weighing less than 5 lbs for small dogs, 23 lbs. for medium dogs, 45 lbs. for large dogs, 89 lbs. for extra-large dogs or puppies younger than 8 weeks of age. Do not use two applications on dogs weighing more than 132 lbs. Do not use more than one application per dog per month. Your dog needs to be dry at the time CERTIFECT® is applied and remain dry 24 hours after application. Do not contact treated area until completely dry. Verify that the applicator is empty after applying to your dog.

**FREQUENCY OF APPLICATION**

A monthly application of CERTIFECT® kills all stages of ticks, completely breaks the flea life cycle and controls chewing lice infestations. CERTIFECT® prevents ticks from attaching, and detaches ticks when applied to a dog with a pre-existing infestation. Do not apply more than once a month. Research demonstrates that CERTIFECT® kills adult fleas (Ctenocephalides felis and Ctenocephalides canis), flea eggs, and flea larvae for up to three months. CERTIFECT® also prevents development of all flea stages for up to three months. Although CERTIFECT® can control fleas for up to three months, if there is a high risk of reinfection or if the dog has fleas which may cause flea allergy dermatitis, a once monthly application may be needed.

CERTIFECT® remains effective even after bathing, water immersion, or exposure to sunlight.

**HOW SUPPLIED**

For easy and convenient treatment, CERTIFECT® for dogs is available in sizes for small dogs and puppies ONLY 8 weeks or older and 5-22 lbs., medium dogs ONLY 8 weeks or older and 23-44 lbs., large dogs ONLY 45-88 lbs. , and extra large dogs ONLY 89-132 lbs.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE.** Store unused product in original container only in a cool dry place, out of reach of children and animals.

**PESTICIDE DISPOSAL.** If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

**CONTAINER DISPOSAL.** If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

**WARRANTY**

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent consistent with applicable law, buyer assumes all risk of use and handling of this material when such use and handling are contrary to the label instructions.

Amitraz side

Fipronil/Methoprene side
DO NOT USE ON CATS.

✓ Prevents ticks from attaching, and detaches ticks when applied to a dog with a pre-existing infestation.
✓ To successfully control ticks & fleas, all dogs must be treated with their own dose of CERTIFECT®.
✓ Apply according to label instructions, ensuring the product is applied to the skin. It must be applied between the base of the skull and the shoulder blades where the dog cannot lick. It may be helpful to remove the collar before application, so it doesn’t absorb the product.
✓ Remember, your dog needs to be dry at the time CERTIFECT® is applied and remain dry 24 hours after application.
✓ Verify applicator is empty after applying to your dog.
✓ Even indoor dogs need tick and flea control because you or other dogs in the household may bring ticks and fleas into the home.
Calendar reminder stickers

To ensure continued protection of your dog, use these stickers as a reminder to apply and re-purchase CERTIFECT®.

After treating your dog for the first time, peel off the sticker and place on your calendar that day.

Place the remaining stickers on your calendar as a reminder to apply CERTIFECT® monthly. Don’t forget to re-purchase!

6 Months
use all 6 stickers
