ACCELERON™

IDL-810

Insecticide and Fungicides
Seed Treatment

A seed treatment product for control of certain insects and diseases of canola.

For use in commercial seed treatment facilities with closed transfer systems only. No open transfer.

Active Ingredients:
- Thiamethoxam*: 20.70%
- Difenconazole**: 1.26%
- Mefenoxam***: 0.40%
- Fludioxonil****: 0.13%

Other Ingredients: 77.52%

Total: 100.00%

*Cas No. 153719-23-4
**Cas No. 119448-68-3
***Cas Nos. 76330-17-0 and 69516-34-3
****Cas No. 131341-86-1

Acceleron IDL-810 Insecticide and Fungicides Seed Treatment contains the following amounts of active ingredient per gallon:
- 2.23 lbs. thiamethoxam
- 0.13 lbs. difenconazole
- 0.04 lbs. mefenoxam
- 0.01 lbs. fludioxonil

EPA Reg. No. 100-935-524 EPA Est. 46073-TN-003
Product of Canada

KEEP OUT OF REACH OF CHILDREN

CAUTION

See additional precautionary statements and directions for use in booklet.

</table>
| **If in eyes** | • Hold eye open and rinse slowly and gently with water for 15-20 minutes.  
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.  
• Call a poison control center or doctor for treatment advice. |
| **If on skin or clothing** | • Take off contaminated clothing.  
• Rinse skin immediately with plenty of water for 15-20 minutes.  
• Call a poison control center or doctor for treatment advice. |
| **If inhaled** | • Move person to fresh air.  
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.  
• Call a poison control center or doctor for further treatment advice. |
| **If swallowed** | • Call a poison control center or doctor immediately for treatment advice.  
• Have person sip a glass of water if able to swallow.  
• Do not induce vomiting unless told to do so by the poison control center or doctor.  
• Do not give anything by mouth to an unconscious person. |

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION: Harmful if inhaled or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling, and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing and wash before reuse.

Personal Protective Equipment

Workers involved in treating, cleanup, or maintenance of seed treatment equipment must wear: Chemical-resistant coveralls over long-sleeved shirt and long pants, Chemical-resistant gloves made of any waterproof material - Category A (e.g., polyvinyl chloride [PVC], nitrile rubber or butyl rubber, barrier laminate, neoprene rubber, natural rubber, polyethylene, or vinyl) Hazmat gear, Respirator protection (i.e., half-mask respirator with suitable dust filter or fresh air hood)

Operators, washers, and stackers must wear: Regular coveralls over long-sleeved shirt and long pants, Chemical-resistant gloves made of any waterproof material - Category A (e.g., polyvinyl chloride [PVC], nitrile rubber or butyl rubber, barrier laminate, neoprene rubber, natural rubber, polyethylene, or vinyl), Hazmat gear, Respirator protection (i.e., single use dust masks, quarter or half-mask respirator, fresh air hood)

Forklift operators must wear regular coveralls over long-sleeved shirt and long pants and gloves.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Environmental Hazards

This pesticide is toxic to wildlife and highly toxic to aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift or runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash water.

Surface Water Advisory: This product may contaminate water through drift of spray in wind. This product has a high potential for runoff for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. A level, well-maintained vegetative buffer strip between areas to which the product is applied and surface water from rainfall runoff (See manual at the following internet address: http://aevee.nrcs.usda.gov/มากๆที่เน้น.html). Runoff of the product will be reduced by avoiding applications when rainfall is forecast to occur within 48 hours.

Ground Water Advisory: Thiamethoxam has properties and characteristics associated with chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow may result in ground water contamination.

Spray Drift Advisory: Do not allow this product to drift.
Physical and Chemical Hazards
Do not use, pour, spill, or store near heat or open flame.

**Conditions of Sale and Limitation of Warranty and Liability**

**NOTICE:** Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Once injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of MONSANTO COMPANY or Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold MONSANTO COMPANY and Seller harmless for any claims relating to such factors.

MONSANTO COMPANY warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of the product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or MONSANTO COMPANY, and Buyer and User assume the risk of any such use. MONSANTO COMPANY MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

IT IS MONSANTO COMPANY’S AND SELLER’S INTENTION THAT TO THE EXTENT ALLOWED BY STATE LAW, THAT MONSANTO COMPANY or Seller not be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF MONSANTO COMPANY AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF MONSANTO COMPANY or SELLER, THE REPLACEMENT OF THE PRODUCT.

MONSANTO COMPANY and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of MONSANTO COMPANY.
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on agricultural establishments in hopper-box, planter-box, shurf-box, or other seed-treatment applications at or immediately before planting.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN CROP INJURY, POOR INSECT AND/OR DISEASE CONTROL, AND/OR ILLEGAL RESIDUES.

Treatment of highly mechanically scored or damaged seed, or seed known to be of low vigor and poor quality, except for the purpose of curative control of existing disease pests, may result in reduced germination and/or reduction of seed and seedling vigor. Treat a small quantity of seed using equipment similar to that planned for treating the total seed lot. Conduct germination tests on a small portion of seed before committing the total seed lot to a selected seed treatment. Due to seed quality and seed storage conditions beyond the control of Monsanto Company, no claims are made to guarantee the germination of carry-over seed or propagating material for all crop seed.

General Information

Acceltron IDL-610 Insecticide and Fungicide Seed Treatment is a seed treat-
ment product that contains both insecticide and fungicide components with
activity against aphids, flea beetles, seedcorn maggot, white grubs, wireworm,
and certain seed borne and damping off diseases of canola. Thiamethoxam, the
insecticide component, provides activity against flea beetles and the remaining
components are fungicides with activity against damping off diseases caused by
Pythium species, Fusarium species, Rhizoctonia species, and seed-borne black-
leg (Leptosphaeria maculans). Thiamethoxam, difenoconazole, metconazole, and
fludioxonil are the active ingredients in Cruiser® SFS, Dividend®, Apron XL® LS,
and Maxim® +PS, respectively.

Note: Metconazole is a systemic fungicide having a specific mode of action.
Metconazole could be subject to development of insensitive strains of fungi.
Development of insensitive strains cannot be predicted. Therefore, Monsanto
Company cannot assume liability for crop damage resulting from insensitive
strains of fungi. Consult your State Agricultural Experiment Station or Extension
Service Specialist for guidance and ways to control any possible insensitive
strains of fungi that may occur.
Mixing Procedures

Acceleron DL-810 Insecticide and Fungicide Seed Treatment is especially formulated as a ready-to-apply seed treatment. An EPA-approved coloring agent, C.I. Pigment Blue No. 15, has been added to the formulation. No additional colorant, dyes, binders, or water are needed. Acceleron DL-810 Insecticide and Fungicide Seed Treatment has a density of approximately 10.8 pounds per gallon. Apply utilizing standard slurry seed treatment equipment which provides uniform seed coverage. Uneven or incomplete seed coverage may not give the desired level of insect or disease control. Consult the manufacturer of the application equipment you plan to use for suitability for this application and for instructions on operation and calibration of the equipment. Allow seed to dry before planting.

Federal law requires that bags containing treated seed shall be labeled with the following information: "This seed has been treated with thiamethoxam insecticides and fomesafen, difenoconazole, and mefenoxam fungicides. Do not use for feed, food, or of any purposes. Store away from feed and foodstuffs."

Crop Use Directions

Canola

To provide early season protection against aphids, flea beetles, seedcorn maggot, white grubs, wireworm, seed-borne disease (Leptosphaeria maculans), seed-borne Alternaria, and the seedling disease complex (smut/pink, seedling blight, seed rot, and root rot) caused by Pythium species, Fusarium species, and Rhizoctonia species, apply Acceleron DL-810 Insecticide and Fungicide Seed Treatment at 25 fluid ounces of product per 100 pounds of seed.

Rotational Crops

Treated areas may be replanted immediately to canola or wheat following harvest. All other crops may be planted 30 days after canola seeding or the last application of Acceleron DL-810 Insecticide and Fungicide Seed Treatment.
STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment.

Pesticide Storage: Store in a cool, dry place.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. If these wastes cannot be used according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA regional office for guidance in proper disposal methods.

For minor spills, leaks, etc., follow all precautions indicated on this label and clean up immediately. Take special care to avoid contamination of equipment and facilities during cleanup procedures and disposal of wastes.

Container Handling: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. Trade used container (for equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinse into application equipment or a mix tank or store rinse for later use and disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or as allowed by state and local authorities, by burning. If burned, stay out of smoke.

First Aid

If in eyes: Hold eye open and rinse slowly with water for 15-30 minutes.

If exposed: Remove contact lenses, if present, after the eye is rinsed.

Call a poison control center or doctor for treatment advice.

If on skin or clothing:

Take off contaminated clothing.

Rinse skin immediately, with plenty of water for 15-30 minutes.

Call a poison control center or doctor for treatment advice.

If swallowed:

Contact us for treatment advice.

Have the product container or label with you when you call.

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION: Harmful if inhaled or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Avoid breathing vapor orony. Wash thoroughly withsoap and water after handling, and before eating, drinking, chewing gum, or using tobacco. Wash hands before any other activity.

Environmental Hazards

This product is toxic to wildlife and highly toxic to aquatic organisms. Do not apply directly to water, to areas where surface water is present, or to lands adjacent to such areas. Use of this product may result in residues in or on water to which it is applied. Do not contaminate water, food, or feed by storage or disposal.

Transportation Information

This product is highly flammable. Keep out of reach of children and away from food and water.

Surface Water Adverse: This product may contaminate water through drift of spray in wind. This product has a high potential for runoff for several months in nonapplication. P although drinking water and soil with shallow water tables are more prone to produce runoff than contains this product. A level, well-managed vegetative buffer strip (at least 100 ft. from the point where this product is applied) is required at the following densities to minimize surface runoff: 30 ft. in narrow canals, 60 ft. in wide canals. This product will be reduced by bioassays in the aquatic environment.

Ground Water Adverse: This product has properties and characteristics associated with chemicals detected in groundwater. The use of this product is not warranted where shallow water table is likely to be near the surface. Consider the possibility of contamination to ground water. Where such a possibility exists, determine the depth and permeability, where the water table is shallow. This may lead to ground water contamination.

Safety Data Sheet

Do not allow your pet or any other animal near this product or drift.

Conditions of Sale and Limitation of Warranty and Liability

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before using this product. If damage is not acceptable, return the product at once, unopened, and the purchased price will be refunded.

Failure to follow the directions for use and precautions on this label may result in reduced performance and/ or loss of warranty. Consult your local retailer for more information.

Conditions of Sale and Limitation of Warranty and Liability

IT IS MRONSON COMPANY’S AND SELLER'S INTENTION that to the extent allowed by law, that MRONSON COMPANY or Seller be not liable for any losses, damages, consequential or other damages, including but not limited to, the liability of MRONSON COMPANY and Seller for any and all claims, losses, injuries or damages (including claims based on breach of warranty, contract, negligence, product, strict liability or otherwise) resulting from the use or handling of this product. YOU SHALL BE THE SOLE RECIPIENT OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTRON OF MRONSON COMPANY OR SELLER, THE REPLACEMENT OF THE PRODUCT.

MRONSON COMPANY and Seller offer this product, and Buyer and User accept it subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of MRONSON COMPANY or SELLER.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Not for use on or in agricultural establishments or their immediate surroundings. This product is highly flammable. Do not use near fire, sparks, open flames, or other sources of ignition. Use of the proper protective equipment is necessary when handling this product. This product is toxic to wildlife and highly toxic to aquatic organisms.

Do not allow your pet or any other animal near this product or drift.

Do not use in or near water bodies, or near livestock, wildlife, or other sensitive areas. Do not contaminate water, food, or feed by storage or disposal.

Do not allow this product or any of its containers near food or foodstuffs.
