For external use only. Individual sensitivities, while rare, may occur after using any pesticide product at a time. Consult a veterinarian before using on medicated, debilitated or aged dogs. Can be used on breeding, pregnant, lactating or recovering dogs. In case of human contact, wash off with soap and water. Saved product should be kept in a cool, dry place accessible to pets and out of reach of children and pets. Do not refrigerate. Protect from direct sunlight. Do not remove tube from the pack until ready to use. Store in a cool (below 77°F) dry place inaccessible to children and pets. Non-refillable container. Do not reuse or refill this container. If empty: Place in the trash or offer for recycling.

DIRECTIONS FOR USE

How to Open:
1. Remove product tubes from the package.
2. Separate one tube from the others. Hold the tube with notched end pointing up and away from the face and body. Use scissors to cut off the narrow end at the notches along the line.
3. Squeeze tube firmly to expel excess solution. Remove tube from the pack until ready to use.

How to apply:
1. Invert tube over dog
2. Separate one tube from the others. Hold the tube with notched end pointing up and away from the face and body. Use scissors to cut off the narrow end at the notches along the line.
3. Squeeze tube firmly to expel excess solution. Remove tube from the pack until ready to use.

While holding the dog with one hand, use the other hand to apply the solution. Invert the tube and use the open end to apply the solution to the dog's back between the shoulder blades. Do not double dose or apply more than one tube per treatment for one dog regardless of size. This product is not effective when applied to puppies over 8 weeks of age and weighing less than 89 lbs. Do not split a tube between dogs. Weigh your dog to be sure you are applying the right dose formulated for the weight of your dog. Do not apply to puppies less than 8 weeks of age. Do not apply to dogs or puppies weighing less than 89 lbs. 24 hours after treatment. If applied to a cat or ingested by a cat, contact your veterinarian. To prevent harm to you and your dog, read entire label before each use. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FREQUENCY OF APPLICATION

Use Parastar for Dogs monthly for control of flea, tick and chewing lice infestations. Studies show that Parastar for Dogs kills fleas for at least 1 month. Parastar for Dogs remains effective, after water immersion, or exposure to sunlight. Allow treated area to dry thoroughly. Do not reapply for 30 days.

FOR Use ONLY ON DOGS WEIGHING 89-132 lbs. Do not split one tube between dogs. Weigh your dog to be sure you are applying the right dose formulated for the weight of your dog. Do not double dose or apply more than one tube per treatment for one dog regardless of size. This product is not effective when applied to puppies over 8 weeks of age and weighing less than 89 lbs. Do not apply to puppies less than 8 weeks of age. Do not apply to dogs or puppies weighing less than 89 lbs. 24 hours after treatment.
