WARRANTY - CONDITIONS OF SALE

Our directions for use of this product are based upon tests deemed reliable. Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals, and other inherent factors in the use of this product are beyond the control of the seller. The user is responsible for compliance with applicable law.

Do not store or dispose of this product in a manner that may contaminate the environment.

This product is effective for the control of cucurbats, apple rust mites, and fall armyworms on cucurbit crops.

When the RED for a field is 4 days or longer, or when the RED for a field is 7 days or longer, the inspecting agent may be called in.

This product is for use by ground, using a mechanical spreader or a roadside spout applicator.

Do not use on or near any food or feed crop or in or near any food or feed crop storage facility.

Storage and disposal must be in accordance with local, state, and federal regulations.

The use of this product may be the subject of a patent or other legal protection.
