DANGER: Corrosive. Causes irreversible eye damage and skin irritation. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust. Wear goggles, face shield, or shielded safety glasses, coveralls worn over short-sleeved shirt and short pants, socks, chemical-resistant gloves, chemical-resistant footwear, and a dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C), or a NIOSH approved respirator with any N, R, P or HE filter. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using toilet. Remove and wash contaminated clothing before reuse.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

ENVIRONMENTAL HAZARDS: This product must be disposed of properly. Contamination with organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire, and explosion. In case of contamination or spillage, do not continue to use the product. The area should be well-ventilated until all fumes are gone.

FIRST AID: IF IN EYES: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. DO NOT rinse eyes with water. IF INHALED: DO NOT induce vomiting. Get person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. DO NOT rinse eyes with water. IF IN contact with skin: DO NOT rub. Wash area with soap and water. Flush with water if on clothing. If on skin, wash with soap and water. DO NOT induce vomiting.

Note to Physician:

Active ingredient: Trichloro-s-triazinetrione

Total: 100.0%

Other ingredients: 46.5%

Available chlorine: 48.6%

Keep out of reach of children.

DANGER

See back panel for First Aid and additional precautionary statements.

Manufactured for: Recreational Water Products
POOL TIME DIVISION
PO Box 1449, Buford, GA 30515-1449

Net weight: 1 lb (453 g)

Keep this product dry in its original unopened bag until use. For partially used bags, fold over top to keep dry. For use, place an empty bag in its place.

DIRECTIONS FOR USE:

To shock your pool, apply product weekly when bather loads are high, water appears hazy or dull, unpleasant odors or eye irritation occurs, or to adjust your pH. Do not use while using a chlorine or bromine feeder.

Shock:

1. Add 1 lb of this product to a chlorine feeder whenever you shocks your pool. DO NOT mix with Calcium Hypochlorite or any other product. See label for additional important product information.

2. Add 1 lb of this product in dry form to your pool as needed. DO NOT mix with Calcium Hypochlorite or any other product. If your pool is above 7.5 ppm, do not use this product. Monitoring pH, alkalinity and chlorine levels every other day after shocking is recommended.

3. Add 2.5 lbs of this product in dry form to your pool as needed. DO NOT mix with Calcium Hypochlorite or any other product. If your pool is above 7.5 ppm, do not use this product. Monitoring pH, alkalinity and chlorine levels every other day after shocking is recommended.

4. Add 10 lbs of this product in dry form to your pool as needed. DO NOT mix with Calcium Hypochlorite or any other product. If your pool is above 7.5 ppm, do not use this product. Monitoring pH, alkalinity and chlorine levels every other day after shocking is recommended.

First Aid:

1. If swallowed: Do not induce vomiting. Get person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice.

2. If inhaled: Get person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice.

3. If in eyes: DO NOT rub. Wash area with soap and water. Flush with water if on clothing. If on skin, wash with soap and water.

For storage and disposal, see back panel.
