Dog is at high risk for flea reinfestation. Apply monthly to control ticks and chewing lice. Studies show that Sergeant’s® PRONYL OTC® for dogs kills adult fleas, ticks, and chewing lice. Controls fleas that may cause allergy-like reactions. Kills other fleas that may transmit a disease. Kills brown dog ticks, American dog ticks, and lone star ticks. Prevents flea reinfestation for 4 weeks.

PRECAUTIONS

HAZARDS TO HUMANS. Caution! Do not ingest. Cautious use around children. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or going to the toilet.

HAZARDS TO DOMESTIC ANIMALS. For external use only. Do not use on puppies or kittens under 8 weeks of age. Individual animals differ in their response to this and any other pesticide product. Some dogs may develop extreme reactions such as signs of anaphylaxis or respiratory distress. If signs persist, or become more severe within a few days of application, consult a veterinarian immediately. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating treatment. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated, or aged dogs. Call 1-866-701-4738 for 24-hour assistance.
