**KILLS BED BUGS & RED BUG EGGS**

Hot Shot® Bedbug Mattress & Luggage Treatment Kit is used to treat crawling bed bug nymphs, adults and eggs exposed to product vapors. Use Hot Shot Bedbug Mattress & Luggage Treatment Kit pest strip to treat bed bugs in household items in treatment bag with one bed bug pest strip placing it near the center of the item to allow for an even treatment. Do not put more than one strip in each bag. Do not sleep or lie on mattress while in treatment bag or during the ventilation period. • Included with the pest strip. Do not allow children to handle treatment bag or new or used pest strip. • To Treat Mattress and Box Spring:

- Remove treated items from bag and let air out in a well-ventilated area for no less than 4 hours. Do not use treated items during the ventilation period. Dispose of plastic treatment bag and used bed bug pest strip in trash immediately.

**FOR BEST RESULTS**

**USE THIS PRODUCT AS PART OF A COMPREHENSIVE BED BUG HOME PROTECTION CYCLE**

**TREATMENT**

- **LARGE BAG HOLDS & TREATS UP TO A KING SIZE MATTRESS**
- **Also Use To Seal & Dispose Of Infested Items**

**UNPACK & PREPARE**

- When using Hot Shot® Bedbug Mattress & Luggage Treatment Kit, first make sure to unpack and prepare the area you will be treating. This includes removing any bed bug barriers and getting rid of any clutter or debris that may have been created. Once you have removed these items, move all furniture and clothing away from the area you will be treating. This will make it easier to access the areas you need to treat.

**TREATMENT**

- Once the area is prepared and the pest strips are ready to be placed, it is time to treat the area. To do this, simply place the pest strip, near the center of the item to be treated, and let it sit for a minimum of 48 hours. This will allow the substance to work its way deep into the fabric of the item, killing any bed bugs that are hiding in the fabric.

**CLEANUP**

- After the treatment period has ended, it is time to remove the pest strip and clean up the area. To do this, simply vacuum the area to remove any debris or dead bed bugs. This will help to prevent any remaining bed bugs from multiplying and spreading. It is also important to wash and dry any clothing or linens that were placed in the area.

**DISPOSAL**

- It is important to dispose of any used pest strips and treatment bags properly. This will help to prevent any remaining bed bugs from spreading. To do this, simply follow the instructions on the label and dispose of the used pest strips and treatment bags in a trash can.

**SAFETY**

- When using Hot Shot® Bedbug Mattress & Luggage Treatment Kit, it is important to follow the safety instructions on the label. This includes keeping the product out of reach of children and pets, and avoiding inhaling the vapors. It is also important to avoid applying the product to any area that is not made of fabric, as this could result in damage to the fabric.

**PRODUCT INFORMATION**

- Hot Shot® Bedbug Mattress & Luggage Treatment Kit is a ready-to-use liquid product that can be used to treat bed bug infestations in mattresses, box springs, luggage, furniture, and other household items. The product is designed to kill bed bugs and their eggs, and is effective against a wide range of bed bug species.

**STORAGE**

- Hot Shot® Bedbug Mattress & Luggage Treatment Kit should be stored in a cool, dry place away from children and pets. The product should not be exposed to extreme temperatures, as this could affect its effectiveness.

**CONTACT INFORMATION**

- For more information about Hot Shot® Bedbug Mattress & Luggage Treatment Kit, or to purchase the product, please visit the manufacturer’s website at www.hotshtoilet.com. You can also call the manufacturer’s customer service line at 1-800-HOT-SHOT (1-800-468-7468) to speak with a representative.

**RECYCLING**

- Hot Shot® Bedbug Mattress & Luggage Treatment Kit is recyclable. If available, please recycle the product and its packaging. If recycling is not available, please dispose of the product in the trash.

**COMPONENTS**

- The product contains the toxic inert ingredient Dichlorvos.
