UltraFume™
PROTECTION OF WOOD AGAINST FUNGAL DECAY
INTENDED FOR COMMERCIAL USE ONLY

ACTIVE INGREDIENT (% w/w)
Tetrahydro-3,5-dimethyl-2H-1,3,4-benzodiazepin-2-oxide........99.0%
OTHER INGREDIENTS:.........................................................1.0%
TOTAL (% w/w):................................................................100.0%

KEEP OUT OF THE REACH OF CHILDREN
WARNING

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED: Call Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told by a Poison Control Center or doctor.

IF INHALED: Move person to air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for further treatment advice.

HOT LINE NUMBER
In case of chemical emergency call CHEMTREC at 1-800-424-9300 day or night for assistance and information concerning spilled material, the exposure and other chemical accidents. Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. You may also contact 1-800-492-4457 for emergency medical treatment information.

MANUFACTURED FOR:
Viance, LLC
200 East Woodlawn Road, Suite 350
Charlotte, NC 28227

NET CONTENTS: ____________ lbs (__________ kg)
Lot-No.: ____________

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING
May be fatal if swallowed. Prolonged exposure may cause irritation of skin, eyes, and mucous membranes. Do not breathe dust. Avoid contact with skin or eyes and clothing. Wear rubber gloves when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. The gases released during the degradation of the product in wood or other use of application of accelerants is irritating to the eyes, skin and mucous membranes. Avoid inhaling vapors. Prolonged or frequently repeated skin contact may cause allergic response in some individuals.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic invertebrates. This pesticide is expected to be toxic when in contact with terrestrial or aquatic plants. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on this label.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

Storage: Store this product in a dry, cool place below 80° Fahrenheit; it will decompose at higher temperatures. Material reacts non-volatility with moisture or accelerants, releasing fumigant vapors. Keep container tightly sealed when not in use.

Pesticide Disposal: Washes resulting from the use of this product may be disposed of as off-site or at an approved waste disposal facility.

Container Handling: For non-refillable bulk bags: Non-refillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

For small plastic containers: Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

WOOD AND WOOD PRODUCTS
UltraFume is recommended for the internal remedial treatment and protection of wood products, such as utility poles, pilings, timbers, and other large, solid or laminated wood products against fungal decay. UltraFume is not to be used indoors or underneath indoor structures.

UltraFume is designed to be placed inside the wood product to be treated. The total amount applied will be dependent on the size of the wood unit and the zone to be protected.

UltraFume is applied in treatment holes drilled into the wood at a 45° angle downward or greater, which is then plugged. For wood in ground contact, the first hole should start at or slightly below ground-line and should be arranged in a spiral pattern covering the treatment zone with about 0.5” to 1.2” vertically between holes. Do not overfill the treatment holes, to allow room for a plug.

The following example can be used as a guide for the application of this product to treat the ground-line zone of a 35° circumference standing utility pole.

Drill three 7/8” diameter by 14” long holes at a depth of angle 45 deg. or greater, in a spiral pattern starting at ground line. Apply 70 grams of end use product into each hole. Do not overfill treatment hole. Add liquid accelerant if desired to the treatment hole. Plug the treatment hole with a tight fitting treated wooden dowel, removable plastic plug or other suitable cap.

Copper Naphthenate (2-9% solution in Mineral Spirits or diesel solvents) added to the treatment holes after the UltraFume application can be used as an accelerator to help speed the decomposition and release of active fumigant inside the wood product. Accelerating the release of fumigant is especially desirable when active decay is present. Keep accelerant away from UltraFume except in treatment holes, which should be plugged immediately after they are placed. Plug the pre-drilled holes immediately after applications; Do not treat structures/frames indoors; Do not drill an application hole through seasons or checks to apply product. If the hole intersects a second, check, plug the hole and drill another. If more than 2 treatment holes intersect and internal void or not pocket, re-drill the holes further up the pole into relatively solid wood.

NOTE OF WARRANTY AND DISCLAIMER
The manufacturer warrants that this product conforms to the chemical description on the label thereon and is reasonably fit for the purpose stated on such label only when used in accordance with label directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product, of which unforeseen or other unintended consequences may result because of such factors as absence of other materials or the manner of use or application which are beyond the control of the manufacturer. The manufacturer shall not be responsible for losses or damages resulting from the use of this product in any manner not specifically set forth on this label. User assumes all risks associated with the use of this product in any manner not specifically set forth on this label. In no case shall the manufacturer be liable for consequential, special, punitive or indirect damages resulting from the use or handling of this product. At such risks shall be assumed by the user. The manufacturer makes no warranties of merchantability or fitness for a particular purpose, nor any other express or implied warranty except as stated above. Buyers exclusive remedy and the manufacturer's exclusive liability, whether in contract, tort, negligence strict liability or otherwise, shall be limited to repayment of the purchase price of UltraFume.
