FOR USE ONLY ON CATS AND KITTENS 8 WEEKS OLD OR OLDER
EFFIPRO® Topical Solution for Cats contains the active ingredient fipronil, which controls infestations caused by fleas, ticks, mosquitos, and chewing lice on cats 8 weeks old or older.

1 applicator 0.017 fl oz (0.5 mL)

KEEP OUT OF REACH OF CHILDREN

CAUTION
READ ENTIRE LABEL BEFORE EACH USE

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
HAZARDS TO HUMANS: Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO DOMESTIC ANIMALS: For external use only. Do not use on kittens under 8 weeks of age. Individual sensitivities, while rare, may occur after using any pest control product. Possible temporary irritation may occur at the site where EFFIPRO® Topical Solution for Cats was applied. Contact a veterinarian immediately if signs become persistent or become more severe during the first few days following application. If an unusual reaction is observed following initial application, a veterinarian should be consulted before repeating application. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated or aged cats.

See enclosed insert for directions for use and storage and disposal.

EFFIPRO®
Topical Solution for Cats

FOR USE ONLY ON CATS AND KITTENS 8 WEEKS OLD OR OLDER

For convenient, quick-acting, long-lasting, effective control of fleas, ticks, mosquitoes and chewing lice:
- Easy and convenient application.
- Waterproof (remains effective after bathing and swimming).
- Kills newly emerged adult fleas prior to egg-laying.
- Kills lice that may transmit bartonellosis.
- Kills lice that may cause Flea Allergy Dermatitis (FAD) or flea-bite anemia.
- Kills all stages of Brown dog tick, American dog tick, Lone Star tick, and Deer tick (that may transmit Lyme disease, Rocky Mountain Spotted Fever, babesiosis, ehrlichia, anaplasmosis and other diseases).
- Kills mosquitoes.
- Chewing lice infestations are rapidly eliminated.
- Can be used on breeding, pregnant, and lactating queens.

EFFIPRO® Topical Solution for Cats contains the active ingredient fipronil, which controls infestations caused by fleas, ticks, mosquitoes and chewing lice.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HAZARDS TO HUMANS
Harmful if swallowed. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO DOMESTIC ANIMALS
For external use only. Do not use on kittens under 8 weeks of age. Individual reactions, while rare, may occur after using any pesticide product. Possible temporary irritation may occur at the site where EFFIPRO® Topical Solution for Cats was applied. Consult a veterinarian immediately if signs become persistent or become more severe during the first few days following application. If an unusual reaction is observed following initial application, a veterinarian should be consulted before repeating application. Certain medications can interact with pesticides. Consult a veterinarian before using an acetaminophen, ibuprofen, or aged cats.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have product container or label with you when calling a poison control center or doctor, or going for treatment.

You may also contact the Healthline number 1-800-338-3659 for human and veterinary health concerns, emergency medical treatment information or pesticide incidents.
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in any manner inconsistent with its labeling. Do not allow children to apply product. To PREVENT HARM TO YOU AND YOUR CAT, READ ENTIRE LABEL AND DIRECTIONS BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. USE ON CATS ONLY. DO NOT USE ON RABBITS. DO NOT USE ON OTHER ANIMALS.

For liceing fleas, all stages of Brown dog ticks, American dog ticks, Lone Star ticks, and Deer ticks (those that may transmit Lyme disease), mosquitoes, and shaving lice, apply to CATS or KITTENS (8 weeks old or older) as follows:

APPLICATION DIRECTIONS
1. Remove one applicator from packaging. Hold applicator upright and remove cap.
2. Insert cap and place other end back onto applicator tip. Push cap down to break seal. Remove cap prior to treatment application.
3. Part cat's hair between shoulder blades until skin is visible. Place applicator tip directly against exposed skin. Deposit entire contents by squeezing the applicator at a single spot on cat's skin. Ensure that EFFIPRO Topical Solution for Cats is not applied superficially on cat's hair.

EFFIPRO Topical Solution for Cats is also approved for control of flea, tick, mosquito and chomping lice infestations at breeding, pregnant and lactating queens.

FREQUENCY OF APPLICATION
EFFIPRO Topical Solution for Cats will kill fleas, ticks and chomping lice completely when applied monthly.

Please EFFIPRO Topical Solution for Cats can control fleas for up to six weeks. Apply monthly if your cat has fleas that may cause flea allergy dermatitis (FAD), or if reinfestation is likely.

Ticks: EFFIPRO Topical Solution for Cats can kill ticks for a month or longer. Apply monthly where tick control is consistently needed.

Mosquitoes: When applied monthly, EFFIPRO Topical Solution for Cats can kill mosquitoes within 24 hours (for up to 14 days), and within 48 hours (for up to 28 days).

Not recommended at least 30 days before re-application of EFFIPRO Topical Solution for Cats.

Ard contact with treated area until dry.

EFFIPRO Topical Solution for Cats is effective after bathing, shampooing, water immersion, or sunlight exposure

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store unused product in original container only, out of reach of children and animals.

PESTICIDE/CONTAINER DISPOSAL: (If empty) Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

LIMITED WARRANTY AND DISCLAIMER
To the extent consistent with applicable law, buyer assumes all risks of use, storage, or handling of this product in accordance with directions. Buyer and user assume all risks of use and handling of this material when such use and handling are contrary to label instructions. To the extent consistent with applicable law, any damage arising from a breach of this warranty shall be limited to direct damages and shall not include consequential commercial damages such as loss of profit or value?

Net Contents: 1 or 36 single-dose applicator(s) per package
Each applicator contains 0.017 fl oz (0.5 ml) of solution.
