PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to ethylene can cause skin irritation.

Personal Protective Equipment (PPE): Applications and other handling must wear: appropriate PPE: gloves, goggles, and respirators. Keep out of reach of children.

User Safety Requirements: Follow manufacturer’s instructions for clearing/monitoring PPE. If no such instructions are available, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST-AID IF IN EYES: Hold open eyes and rinse slowly and briefly with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Vomiting may cause aspiration pneumonia.

Attach the product container or label with the name of the poison control center for your area. Call your local poison control center for treatment advice. If no such instruction is available, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS: This product is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not contaminate water when disposing of equipment wastewater or rinsate. See Directions for Use for additional precautions and requirements.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Use Restraint and Directions.

Piperonyl butoxide* (CAS# 51-03-6)........................1.50%

Tetramethrin (CAS# 7696-12-0)..........................0.50%

OTHER INGREDIENTS: 96.85%

TOTAL: 100.00%

*butyric acid/3-(propyl-piperonyl) ether and related compounds

USE RESTRICTIONS:

Do not order or allow others to order until supplies have been exhausted.

Do not cover exposed food and drinking water before application.

Remove or cover dress shirts, street, food processing equipment, and food preparation surfaces, or wash them before use.

Do not water the treated area to the point of runoff.

Do not use in aircraft cabins.

All outdoor applications must be limited to spot or crack-and-crevice treatments only.

USING INFORMATION: ZENPROX® Aerosol is a spot treatment to control bed bugs, earwigs, and ants. Do not reapply more often than every 14 days. Ants:

- Do not water the treated area to the point of runoff.
- Do not use ZENPROX® Aerosol directly on mattresses, pillows, bed linens or clothes. Do not subdue the mattress, and do not treat entire surface area of mattress.
- Use to dry spray to prevent re-occurrence of bed bugs and bed bugs. (50 sq ft).

To apply at the maximum application rate, spray for 24 seconds to cover an area of 5' X 10' (50 sq ft). Do not allow pets to reoccupy treated areas until treated surfaces have thoroughly dried. Do not use this product directly on domestic/companion animals (DOGS, CATS, PUPPIES OR KITTENS). Treat dogs and cats with a flea and tick control product before allowing them to re-enter the treated area. Spiders: Apply as a crack and crevice or spot treatment along and behind baseboards, in window and door frames, corners, joists, storage areas (including areas above window or door frames, areas inside/outside of cupboards and cabinets, wall voids, behind wall hangings and mirrors, wallpaper edges and popcorn ceilings). Remove all clothes and other articles from drawers or cabinets before application. To apply, fill treated area, protect and shield from all other items. Repeat treatment to infested areas such as pet beds, sleeping quarters of pets, around entrances and exits, under couches, pets, and around debris. Fleas in Buildings: Remove and destroy pet’s old bedding and replace, with clean fresh bedding after treatment of pet area. Apply as a crack and crevice treatment to infested areas such as pet beds, sleeping quarters of pets, around entrances and exits, baseboards, windows, and door frames, local areas of floors (under the edges of rugs and floor coverings), and between/under cushions of upholstered furniture. As a broadcast application, application rate should be at the rate of 124 seconds to cover an area of 5' X 10' (50 sq ft). Do not apply pets to treated areas. Apply to treated areas with the aid of a vacuum cleaner to remove debris and dust from suspicious areas. Apply spray to surroundings in and around debris. Fleas in Buildings: Remove and destroy pet’s old bedding and replace, with clean fresh bedding after treatment of pet area. Apply as a crack and crevice treatment to infested areas such as pet beds, sleeping quarters of pets, around entrances and exits, baseboards, windows, and door frames, local areas of floors (under the edges of rugs and floor coverings), and between/under cushions of upholstered furniture. As a broadcast application, application rate should be at the rate of 124 seconds to cover an area of 5' X 10' (50 sq ft). Do not apply pets to treated areas. Apply to treated areas with the aid of a vacuum cleaner to remove debris and dust from suspicious areas. Apply spray to surroundings in and around debris.

To kill Cockroaches, Ants, Crickets, Earwigs, Firebrats, Fleas, Spiders, and Silverfish: Apply as a crack and crevice or spot treatment to areas where these pests crawl and hide, especially on hidden surfaces around sinks and storage areas, along and behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, and in the out-of-sights of drawers, shelves and closets. Do not apply more often than every 14 days. Ants: Spray around ant trails, doors and windows and other places where ants enter premises. Spray around baseboards, and in storage areas where these pests may crawl.
