SANITE 75 HF
Disinfectant • Non-Food Contact Sanitizer
For Institutions, Industrial Sites, Restaurants, Food Handling and Process Areas, and Federally Inspected Meat and Poultry Plants.

ACTIVE INGREDIENTS:

- Aryl (50% C14, 40% C12, 10% C18) Dimethyl Benzyl Ammonium Chloride 4.0%
- Diocyl Decyl Dimethyl Ammonium Chloride 3.0%
- Didecyl Dimethyl Ammonium Chloride 1.5%
- Diocyl Dimethyl Ammonium Chloride 3.0%
- Other Ingredients: 90.0%

FOAMING NON-FOOD CONTACT SANITIZING PERFORMANCE: This product is an effective one-step non-food contact sanitizer in 5 minutes at 1 oz. per gal. of water (390 ppm active), and 50% soil on hard, non-porous surfaces against: Enterobacter aerogenes, Salmonella enterica, Staphylococcus aureus.

FOAMING NON-FOOD CONTACT SANITIZING DIRECTIONS: Apply foam onto hard, non-porous surfaces against: Enterobacter aerogenes, Salmonella enterica, Shigella dysenteriae, Staphylococcus aureus, Yersinia enterocolitica.

SHOE FOAM DIRECTIONS: To prevent cross contamination from area to area and the packaging and storage of areas of food, provide a foam layover of 2.5 oz. per gal. of water (or equivalent use dilution) at all entrances to buildings, hatcheries, production and packaging rooms using by a foam generating machine or aerator to apply foam layer. Follow the foam directions as noted on the container. Apply foam only on pre-washed, cleaned, and thoroughly rinsed, waterproof shoes.

FOOD PROCESSING PREMISES USE AS A DISINFECTANT IN FOOD PROCESSING PLANTS, PREMISES, FOOD SERVICE ESTABLISHMENTS: 1. Pre-clean heavily soiled areas. 2. Apply solution of 1 oz. of this product per gal. of water (or equivalent use dilution) for at least weekly or as may be needed to control (listed) organism growth. Do not mix other foam additives to the sanitizing solution.

FIRST AID:

In case of emergency, call a poison control center or doctor for treatment advice. Have the product label or container with you. For treatment of the eye, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

PRECAUTIONARY STATEMENTS:

Hazard Statements:

- H317: Causes irreversible eye damage and skin burns. Harmful if swallowed.
- H373: Causes eye irritation.

Environmental Hazards:

This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewers without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store only in original container. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinse is a violation of a Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact the State or Federal Environmental Protection Agency or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Non-Refillable Container. Do not reuse or refill this container. Tri-ring container (or equivalent) may be used for emptying. Tri-ring rinse as follows: Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand container on its end and tip back and forth several times. Turn the container over on its end and roll back and forth several times. Follow Pesticide Disposal instructions for rinse disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.
