IN CASE OF EMERGENCY CALL: 1-800-556-6911.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Precautionary Statements before use.

WHY YOU SHOULD USE THIS PRODUCT: This product is an effective multi-purpose sanitizer & shock that products against chlorine loss, improving pool water and swimmer comfort with no sustained. This product is convenient and easy to use to control the growth of algae, kill bacteria and destroy organic matter.

HOW TO USE: Add the recommended dosage of this product directly to the pool during evening hours while the filter is running. Adding this product to the pool builds the product slowly over a wide area of the deepest part of the pool. Use entire contents when opened. If any granules settle on the bottom of the pool use a brush to disperse.

WATER BALANCE: For best product performance, maintain proper balance at all times. Maintain pH in the range of 7.2 to 7.6. Maintain total alkalinity in the range of 80 to 120 parts per million ppm. Maintain calcium hardness above 200 ppm. Use a reliable test kit that measures all these ranges. Use your pool care products to maintain balance. Follow label directions for each product.

OPENING YOUR POOL: For best results, see "WATER BALANCE", section above before treatment. Always adjust and maintain pH in the 7.2 to 7.6 range. Follow "SHOCK TREATMENT/ SUPERCHLORINATION" directions on this package. After 20 minutes, test for free available chlorine. Test free available chlorine residual with a pool test kit. DO NOT enter pool until the free available chlorine residual is 1-4 ppm. Read all Precautionary Statements. Follow label directions. SHOCK TREATMENT/SUPERCHLORINATION: For best results, see "WATER BALANCE" and "HOW TO USE" sections above before treatment. Every 7 days, or as necessary to prevent pool problems. Shock treatment removes chlorine to add shock and oxidizes organic matter. Causes irreversible eye damage and skin burns. May be fatal if inhaled. Harmful if swallowed or absorbed through skin.

STORAGE & DISPOSAL: Store in cool, dry, well-ventilated area. Keep out of reach of children. In case of contamination or decomposition - DO NOT recall container. Store closed container in a well-ventilated area. Do not pour into drains or other waterways. In case of contamination or decomposition - DO NOT recall container. Store closed container in a well-ventilated area. Do not pour into drains or other waterways. In case of contamination or decomposition - DO NOT recall container. Store closed container in a well-ventilated area. Do not pour into drains or other waterways.

EMERGENCY HANDLING: In case of contamination or decomposition - DO NOT recall container. Store closed container in a well-ventilated area. Do not pour into drains or other waterways.
