KEEP OUT OF REACH OF CHILDREN
DANGER Contamination or improper use may cause
intense fire, explosion, or the release of toxic gases. Do not
allow product to contact any foreign matter, including other
water treatment products. If product is exposed to small
amounts of water, it can react violently to produce heat and
toxic gases and spatter. Do not add water to this product. Add
only into water. Do not mix this product with a small amount
of water. Only add directly to your pool. Highly corrosive. Causes
skin and eye damage. May be fatal if swallowed.
Read all precautionary statements and first aid statements
before use.

Net Wt. 2.6 lbs (1.18 kg)

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with
water for 15-20 minutes. Remove contact lenses, if present, after the
first 5 minutes, then continue rinsing eye. Call a poison control center
or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off
contaminated clothing. Rinse skin immediately with plenty of water
for 15-20 minutes. Call a poison control center or doctor for treatment
advice. IF SWALLOWED: Call a poison control center or doctor immedi-
ately for treatment advice. Have person sip a glass of water if able to
swallow. Do not induce vomiting unless told to do so by a poison con-
trol center or doctor. Do not give anything by mouth to an unconscious
person. IF INHALED: Move person to fresh air. If person is not breath-
ing, call 911 or an ambulance, then give artificial respiration, preferably
mouth-to-mouth if possible. Call a poison control center or doctor for
further treatment advice.

Have the product container or label with you when calling a poison
control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the
use of gastric lavage.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.
POOLIFE® Exclusive Pool Care Collection CleaRx™ Shock System:
If you are experiencing a severe algae bloom, which has turned your pool green, the POOLIFE Exclusive Pool Care Collection CleaRx Shock System can turn your pool sparkling blue again. This two-part system destroys the bacteria and algae that have taken over your pool and then makes it easy to vacuum out. At the start of the season, or if a severe algae bloom occurs during the season, the pool can be treated and returned to its clear blue appearance within 24 hours by using POOLIFE Exclusive Pool Care Collection CleaRx I and POOLIFE Exclusive Pool Care Collection CleaRx II as part of the POOLIFE Exclusive Pool Care Collection CleaRx Shock System.

1. Add 2.6 lbs of this product per 15,000 gallons of water into the pool with the circulation system turned on. If any granules settle to the bottom of the pool, use brush to disperse to assist in helping it to dissolve.
2. Once this product has completely dispersed in the pool water, add 2.0 lbs of POOLIFE Exclusive Pool Care Collection CleaRx II per 15,000 gallons of water through the skimmer.
3. Leave the system circulating for 1 hour, then turn off the filter pump and allow to settle overnight.
4. The following day, vacuum the sediment to waste.
5. If the pool has not settled out or is not blue in color, repeat steps 1, 2, 3, and 4.

WATER BALANCE: For best product performance, swimmer comfort, and crystal clear water: Maintain pH in the range of 7.2 to 7.8. Maintain total alkalinity in the range of 60 to 120 parts per million (ppm). Maintain calcium hardness above 200 ppm. Use a POOLIFE test kit that measures all these ranges. Use POOLIFE Pool Care Products to make adjustments. Follow label directions for each product. Take a pool water sample to your authorized POOLIFE dealer regularly for a detailed water analysis. Re-entry into treated pools is prohibited above 4 ppm due to risk of bodily harm.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to nose and throat.
• Do not get in eyes, on skin, or clothing.
• Do not handle with bare hands.
• Wear safety goggles or face shield, and rubber gloves when handling this product. For additional skin protection, wear long sleeves and long pants.
• Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
• Open in a well ventilated area. Do not breathe dust or fumes.
• Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water.
• Do not allow to become wet or damp before use.
• Do not mix this product with a small amount of water. Only add this product directly to your pool.
Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases.
• Keep all foreign matter, including other water treatment products, away from this product.
• Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely free of residue from other water treatment products before putting this product in a skimmer.
Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases.
• Store in a cool, dry, well ventilated area.
Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flame and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING".

EMERGENCY HANDLING: In case of contamination or decomposition — Do not ressl container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
