**POOLIFE® CLEARx™**

**SHOCK SYSTEM**

**GET BACTERIA-FREE WATER**
**RESTORES WATER CLARITY**
**ALL-IN-ONE CHLORINATES, SHOCKS AND KILLS ALGAE**

**ACTIVE INGREDIENT:** Calcium Hypochlorite: 78%
**OTHER INGREDIENTS:** 22%
**TOTAL:** 100%
**MINIMUM AVAILABLE CHLORINE:** 75%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER** Contamination or improper use may cause intense fire, explosion, or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not mix this product with any amount of water. Only add directly to your pool.

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed.

Read all precautionary statements and first aid statements before use.

**EXCEPTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ ALL PRECAUTIONARY STATEMENTS BEFORE USE:**

**POOLIFE® Exclusive Pool Care Collection CLEARx™ Shock System:**

If you are experiencing a severe algae bloom, which has turned your pool green, the Poolife CLEARx Shock System can turn your pool sparkling blue again. This two-part system destroys the bacteria and algae that have taken over your pool and then makes it easy to vacuum out. At the start of the season, or if a severe algae bloom occurs during the season, the pool can be treated and returned to its clear blue appearance within 24 hours by using Poolife CLEARx I and Poolife CLEARx II as part of the Poolife CLEARx Shock System.

1. Add 2.8 lbs of Poolife CLEARx I per 15,000 gallons of water into the pool with the circulation system turned on. If any granules settle to the bottom of the pool, use a brush to disperse, which assists in dispersing the granules.
2. Once this product has been completely dispersed in the pool water, add 2.0 lbs of Poolife CLEARx II per 15,000 gallons of water through the skimmer.
3. Leave the system circulating for 1 hour, then turn off the filter pump and allow water and sediment to settle overnight.
4. The following day, vacuum the sediment to waste.
5. If the pool has not settled out or is not clear in color, repeat steps 1, 2, 3, and 4.

**WATER BALANCE:** For best product performance, swimmer comfort, and crystal clear water, maintain pH in the range of 7.2 to 7.6. Maintain total alkalinity in the range of 60 to 130 parts per million (ppm). Maintain calcium hardness above 200 ppm. Use a POOLIFE test kit that measures all these ranges. Use POOLIFE Pool Care Products to make adjustments. Follow label directions for each product. Take a pool water sample to your authorized POOLIFE dealer regularly for a detailed water analysis.

**RETURN INTO TREATED POOLS:** Prohibited above 4 ppm due to risk of bodily harm.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to nose and throat.

- Do not get in eyes, on skin, or clothing. Do not handle with bare hands. Wear safety goggles or face shield, and rubber gloves when handling this product. For additional skin protection, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Do not allow this product to contact any foreign matter, including other water treatment products, to cause intense fire, explosion, or the release of toxic gases. If any granules settle to the bottom of the pool, use a brush to disperse, which assists in dispersing the granules.

Keep all foreign matter, including other water treatment products, away from this product. Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely free of residue from other water treatment products before putting this product in a skimmer.

**EXPOSURE TO HEAT CAN CAUSE THIS PRODUCT TO RAPIDLY DEcompose, leading to intense fire, explosion, and the release of toxic gases.**

**STORE IN A COOL, DRY, well-ventilated area.**

**HAZARDOUS VAPORS:** This product can increase fire intensity. Keep away from heat and flames and burning material (like a lit cigarette).

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**STORAGE & DISPOSAL**

Keep the product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flames. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. For disposal of a contaminated or decomposing product see “EMERGENCY HANDLING”.

**EMERGENCY HANDLING:** In case of contamination or decomposition – Do not release container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

- Restores water clarity
- All-in-one chlorinates, shocks and kills algae

KEEPS OUT OF REACH OF CHILDREN

WARNING
IRRITATING TO EYES AND SKIN.
Read all Precautionary Statements and First Aid on back panel before use.

At the start of the season, or if a severe algae bloom occurs during the season, the pool can be treated and returned to its clear blue appearance within 24 hours by using the POOLIFE® Exclusive Pool Care Collection ClearRx™ Shock System. The POOLIFE® ClearRx Shock System is a flocculent that will help clear your pool by dropping particles to the bottom of your pool.

HOW TO USE: Do not mix this product. Only add this product directly to your pool skimmer. Use entire contents of pouch when opened.

DIRECTIONS FOR USE: As part of the POOLIFE® ClearRx Shock System, use POOLIFE® ClearRx I Shock System first and follow all directions.
1. Make sure the water is circulating. Once POOLIFE® ClearRx I has completely dispersed in the pool water, add 10.6 oz per 5,000 gallons of POOLIFE® ClearRx II through the skimmer.
2. Leave the system circulating for 1 hour then turn off the filter pump and allow any particles or debris to settle overnight.
3. The following day, vacuum the sediment to waste.
4. If the pool has not settled out or is not blue in color, repeat POOLIFE® ClearRx I treatment steps 1, 3 and 4. Then repeat steps 2 and 3 above.

Check the chlorine level and readjust as necessary. Do not treat the pool until the chlorine level is between 1–4 parts per million (ppm). Balance the water chemistry following the recommended values in the table under "WATER BALANCE", located on the box or on the POOLIFE® ClearRx I label.

STORAGE AND DISPOSAL: Keep this product in its original, tightly closed container when not in use. Do not mix with any other chemicals, including those normally used in the pool. Use entire contents, then rinse and discard any remaining product.

PRECAUTIONARY STATEMENTS
WARNING: Contains polyaluminum chloride. Irritating to eyes and skin. Do not get into eyes, on skin or on clothing. Do not swallow. Wear safety glasses or goggles and chemical-resistant gloves when handling this product. Wash hands thoroughly after handling. Do not mix with other chemicals.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IN CASE OF EMERGENCY CALL: 1-800-654-6811.
Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.
