UN3077 ENVIRONMENTAL HAZARDOUS SUBSTANCE, SOLID, N.O.S. (Trichloro-s-triazinetrione, zinc sulphate)

Available Chlorine . . .84%
TOTAL  . . . . . . . . . . . . . . 100.0%
OTHER INGREDIENTS:
Zinc sulfate monohydrate . . 3.5%
Trichloro-s-Triazinetrione . 93.6%

Chlorinates up to 1 week
Kills bacteria and algae
10,000 gallons
Clarifies water
1 tablet treats
4-in-1

Net Wt. 25 lbs.
MADE IN USA

Statements on back panel before use. Read all Precautionary and First Aid

Chlorinates up to 1 week
Kills bacteria and algae
1 tablet treats 10,000 gallons
Clarifies water

Net Wt. 25 lbs.
MADE IN USA

Statements on back panel before use.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

NOTE:
Always check and adjust total alkalinity before adjusting pH levels.

Adjust and maintain pool water to recommended ranges:

- pH: 7.2-7.6
- Chlorine: 1-4 ppm

Prevent algal growth and clarify water.

- FOR CRYSTAL CLEAR POOL WATER, FOLLOW OUR HTH® 4 STEP POOL CARE PROGRAM:
  1. Sanitize
  2. Shock
  3. Clarify
  4. Maintain

WHY YOU SHOULD USE THIS PRODUCT:

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR USE:

- DO NOT throw tablets directly into pool or pool surface damage could occur.
- DO NOT use in feeders that have been used with other water treatment chemicals to the feeder while this product is present. If chlorine residual goes above 4 ppm, reduce skimmer/floor rate or daily pump operation time. If chlorine residual goes above 4 ppm, add other chemicals to the feeder. If used with other chlorine products, permit tablets to contact plastic pool linings or metal objects.
- Use in a new feeder or any device which has previously contained only this product or any feeder which has been used with other chlorinating compounds.
- Place this product in a feeder designed for this product, or place in skimmer.
- Do not use in feeders that have been used with other water treatment chemicals to the feeder. If used with other chlorine products, permit tablets to contact plastic pool linings or metal objects.
- Use in a new feeder or any device which has previously contained only this product or any feeder which has been used with other chlorinating compounds.
- Place this product in a feeder designed for this product, or place in skimmer.
- DO NOT use in feeders that have been used with other water treatment chemicals to the feeder. If used with other chlorine products, permit tablets to contact plastic pool linings or metal objects.
- Use in a new feeder or any device which has previously contained only this product or any feeder which has been used with other chlorinating compounds.
- Place this product in a feeder designed for this product, or place in skimmer.

FIRST AID:

- IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Do not rinse eye open and rinse slowly and gently with water for 15-20 minutes. Do not induce vomiting unless told to do so by a poison control center or doctor. Call a poison control center or doctor if swallowed. Do not give anything by mouth to an unconscious person.
- IF INHALED: Move person to fresh air. If person continues to choke, call a poison control center or doctor. If inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.
- IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin with plenty of water after handling and before eating, drinking, chewing gum, using tobacco or using anything around the mouth.

PROTECTIVE CLOTHING:

- Protect skin with goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants. • Wash thoroughly with soap and water if in eyes, on skin or on clothing.

ENVIRONMENTAL HAZARDS:

- Follow recommendations of the Environmental Protection Agency and the manufacturer for discarding used containers.

EMERGENCY HANDLING:

- Call a poison control center or doctor if swallowed. • If inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.
- Call a poison control center or doctor if swallowed. • If inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.
- Call a poison control center or doctor if swallowed. • If inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.

PRODUCT SEE EMERGENCY HANDLING.
ACTIVE INGREDIENTS:

- UN3077 (Trichloro-s-triazinetrione, zinc sulphate)

Available Chlorine: 84%

Zinc sulfate monohydrate: 3.5%

Trichloro-s-triazinetrione: 93.6%

Kills bacteria and algae: 1 tablet treats 10,000 gallons

Net Wt.: 25 lbs.

Statements on back panel before use. Read all Precautionary and First Aid details for all.

WHY YOU SHOULD USE THIS PRODUCT:

DIRECTIONS FOR USE:

1. Place this product in a feeder designed for this product, or place in skimmer.

2. Adjust and maintain pool water to recommended ranges:
   - pH: 7.2-7.8
   - Total Alkalinity: 80-120 ppm
   - Free Chlorine: 1-4 ppm

3. Routinely check pool water for proper chlorine levels:
   - Test pH, total alkalinity, and chlorine levels at least once a week.

4. Add algaecide regularly.

FOR CRYSTAL CLEAR POOL WATER, FOLLOW OUR:

- Step 1: Adjust and maintain pool water to recommended ranges.
- Step 2: Routinely check pool water for proper chlorine levels.
- Step 3: Add algaecide regularly.
- Step 4: Add this product as needed or as often as necessary to maintain pool water balance.

EMERGENCY HANDLING:

- In case of emergency, call 1-800-654-6911.

PRODUCT SEE EMERGENCY HANDLING.

STORAGE AND DISPOSAL:

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Non-refillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water after handling and before eating, drinking, chewing gum, using tobacco or using

MAKE SURE TO WASH THOROUGHLY WITH SOAP AND WATER HANDS.

IN CASE OF SKIN CONTACT:

- Remove contaminated clothing and wash skin with soap and water.
- If necessary, get medical attention.

IN CASE OF EYE CONTACT:

- If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- If swallowed, do not induce vomiting unless told to do so by a poison control center or doctor.
- For treatment advice, have the person sip a glass of water if able to swallow.
- Call a poison control center or doctor immediately for treatment advice.
- IF SWALLOWED:
  - Call a poison control center or doctor
  - IF IN EYES:
    - Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center for treatment advice.
  - IF ON SKIN OR CLOTHING:
    - Remove contaminated clothing and wash skin with soap and water.
    - IF INHALED OR ABSORBED THROUGH SKIN:
      - Harmful if swallowed. Irritating to nose and respiratory tract. May cause pulmonary edema. Harmful if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and respiratory tract. May cause pulmonary edema.

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and respiratory tract. May cause pulmonary edema.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

- This pesticide is toxic to fish and aquatic organisms.

PRECAUTIONARY STATEMENTS:

- Statements on back panel before use. Read all Precautionary and First Aid details for all.

IN CASE OF EXPOSURE:

- Wash skin with soap and water. If necessary, get medical attention.

FIRST AID:

- IF IN EYES:
  - Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
- IF ON SKIN OR CLOTHING:
  - Remove contaminated clothing and wash skin with soap and water. If necessary, get medical attention.
- IF INHALED OR ABSORBED THROUGH SKIN:
  - Wash skin with soap and water. If necessary, get medical attention.
- IF SWALLOWED:
  - Do not induce vomiting unless told to do so by a poison control center or doctor.
  - For treatment advice, have the person sip a glass of water if able to swallow.
- IF INHALED OR ABSORBED THROUGH SKIN:
  - Harmful if swallowed. Irritating to nose and respiratory tract. May cause pulmonary edema. Harmful if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and respiratory tract. May cause pulmonary edema.

THERAPEUTIC STATE:

- Use in feeders that have been used with other chlorinating compounds.

OTHER WATER TREATMENT PRODUCTS:

- Before putting this product in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products. In a skimmer, this product can increase fire intensity.

STORAGE:

- Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame.

DISPOSAL:

- Container and any remaining contaminated material in an approved landfill area.

IN CASE OF SPILL:

- Do not allow to become wet or damp. Can react with other materials, including other water treatment products. Only add product into water. Avoid contact with eyes, skin or clothing. Do not remove float or other dispensing device from water for more than five minutes if it contains a tablet or tablet residue.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

- This pesticide is toxic to fish and aquatic organisms.

PRECAUTIONARY STATEMENTS:

- Statements on back panel before use. Read all Precautionary and First Aid details for all.

IN CASE OF EXPOSURE:

- Wash skin with soap and water. If necessary, get medical attention.
