Supplemental Label

For harvest aid/desiccation in soybean
This supplemental label expires May 20, 2014.
Active Ingredient:
safufenacil: N-[2-chloro-4-fluoro-5-(3-methyl-2,6-dioxo-4-(trifluoromethyl)-3,6-dihydro-1(2H)-
pyrimidinyl)benzoyl]-N-isopropyl-N-methylsulfamide .......................................................... 29.74%
Other Ingredients: .......................................................................................................................... 70.26%
Total: ........................................................................................................................................... 100.00%
Contains 2.85 pounds active ingredient safufenacil per gallon formulated as a water-based suspension concentrate.

EPA Reg. No. 7969-278

Directions For Use
Refer to the Sharpen™ herbicide main label, EPA Reg. No. 7969-278, for complete Directions For Use and all applicable restrictions and precautions. When following the instructions on this supplemental label, the user must have this label and the entire Sharpen container label in possession at the time of pesticide application.
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Use Information
Sharpen may be used for harvest aid/desiccation in soybean.

Application Information
Application Rates and Timings
Uniformly apply Sharpen at 1.0 to 2.0 fl ozs/A as a broadcast spray over the top of soybeans that have reached physiological maturity (all pods and seeds have no more green color).
- Indeterminate Varieties – Greater than 65% brown pods and greater than 70% leaf drop or when seed moisture is 30% or less.
- Determinate Varieties – Beans are fully developed, greater than 50% leaf drop, and remaining leaves are yellowing.

Allow up to 10 days for optimum desiccation effect depending on environmental conditions.
Apply Sharpen as a broadcast spray application adequate to ensure spray coverage. Ground application is recommended at a minimum spray volume of 10 gallons per acre. Aerial application is recommended at a minimum spray volume of 5 gallons per acre.
Thorough spray coverage and a methylated seed oil (MSO) plus ammonium-based adjuvant system (refer to Additives section on the product container label for details) is required for optimum desiccation activity.
A single application or sequential applications may be made, but the maximum cumulative amount of Sharpen applied must not exceed 2.0 fl ozs/A per cropping season from desiccation uses.
Crop-specific Restrictions and Limitations
- DO NOT apply Sharpen on soybean grown for seed production.
- Soybean seed can be harvested 3 or more days after application.
- DO NOT graze or feed desiccation-treated hay or straw to livestock.
- Refer to Table 4 on the product container label for rotational crop intervals.

Tank Mixtures
Apply Sharpen with a labeled rate of glyphosate (e.g. Roundup® herbicide) for additional preharvest weed control. Read and follow the applicable restrictions and limitations and directions for use on the glyphosate product label. The most restrictive labeling applies to tank mixes.

Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION (“BASF”) or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S EXCLUSIVE REMEDY AND BASF’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
