**USER SAFETY REQUIREMENTS:**

- Before handling product, especially after applying the bait, wash hands thoroughly with soap and water.
- Wash hands after touching the bait or bait station and before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Avoid contact with the bait or bait station as much as possible. If contact occurs, wash the affected parts with soap and water.
- Avoid contaminating food or surfaces that come into direct contact with food.

**APPLICATION DIRECTIONS:**

- Before applying the bait, thoroughly clean and dry the bait station to reduce the risk of contamination.
- Ensure that the bait station is accessible to the target pest(s) and that it is out of the reach of children and pets.
- Place the bait station in areas where the pest is most likely to find and consume the bait. Areas such as beside burrows, along walls, by gnawed openings, in corners, and concealed places will most likely attract the pest and enhance consumption.
- Set the bait station in areas where children and pets may not be able to interact with it.

**USE RESTRICTIONS:**

- This product is not to be used on or near food or foodstuffs.
- Avoid applying the bait directly to water or other sources of drinking water.
- Avoid applying the bait directly to any area that is frequented by humans.
- Avoid applying the bait directly to any area that could contaminate food or surfaces that come into direct contact with food.
- Avoid applying the bait directly to any area that could contaminate food or surfaces that come into direct contact with food.
- Avoid applying the bait directly to any area that could contaminate food or surfaces that come into direct contact with food.
- Avoid applying the bait directly to any area that could contaminate food or surfaces that come into direct contact with food.
- Avoid applying the bait directly to any area that could contaminate food or surfaces that come into direct contact with food.
- Avoid applying the bait directly to any area that could contaminate food or surfaces that come into direct contact with food.
- Avoid applying the bait directly to any area that could contaminate food or surfaces that come into direct contact with food.
