concentrated, long lasting sanitizer
SWIMMING POOL SANITIZER

When used as directed, this product is an effective stabilized chlorinating disinfecting agent. This slow dissolving product releases sufficient chlorine to reduce the growth of harmful algae and aquatic organisms in your pool.

DIRECTIONS FOR USE:
- When used in automatic chlorinators and floaters:
  - This product can be used in feeding mechanisms such as automatic chlorinators and floaters as a maintenance treatment. Fill unit with this product and adjust the feeding mechanism to assure a constant treatment level of 1-4 ppm available chlorine in the pool water. Normally 1-2 ounces of this product per 10,000 gallons will be needed daily. Use a test kit or test strips to monitor chlorine levels and adjust the chlorine feed mechanism as needed. Do not let this product come in direct contact with vinyl liners or other bleachable surfaces as damage may occur.

- When used in skimmers:
  - This product may be used in plastic skimmers only if skimmer and the piping between skimmer and pump are plastic. Do not add other chemicals through the skimmer when using this product in skimmer as an explosion or fire may result. Do not turn pump off for more than 8 hours in vinyl pools and pump are plastic. Do not add other chemicals through the skimmer when using this product in skimmer. Initially add one of this product per 10,000 gallons of water. Add additional product as determined by a test kit or test strips to maintain chlorine residual of 1-4 ppm. Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of body injury.

- Storage and Disposal:
  - Keep this product dry in original tightly closed container. When not in use, store in a cool, dry, well ventilated area away from heat or open flames. May decompose, isolate container if possible and flood area with large volumes of water. Flood area with large volumes of water to prevent fire or explosion. Contamination may decompose this product and cause a violent reaction leading to fire and explosion. In case of contact with skin, flush with water for at least 15 minutes. If on clothing, remove clothing immediately and wash clothing in large quantities of water. When using automatic feeding devices, always follow manufacturer's directions as to the proper addition of sanitizer product to chlorinators. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Condensation with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not repackage or resell this container. For CONTAINER DISPOSAL: Recycle, if available. Triple rinse container (or equivalent) promptly after emptying for recycling, if available. Triple rinse container (or equivalent) promptly after emptying for recycling, if available.

PHYSICAL OR CHEMICAL HAZARDS:
- STRONG OXIDIZING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. When using automatic feeding devices, always follow manufacturer's directions as to the proper addition of sanitizer product to chlorinators. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Condensation with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not repackage or resell this container. For CONTAINER DISPOSAL: Recycle, if available. Triple rinse container (or equivalent) promptly after emptying for recycling, if available.

PRECAUTIONARY STATEMENTS:
- HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DangEROUS: Highly corrosive. Causes skin and eye irritation. Skin contact and eye damage may be fatal if not treated immediately. Do not get in eyes, on skin or on clothing. Wash promptly with large volumes of water. Do not contaminate live or freezer storage of disposal or food. Non-refillable container. Do not reuse or resell (this container). Offer FOR CONTAINER DISPOSAL: Recycle, if available. Triple rinse container (or equivalent) promptly after emptying for recycling, if available.

FIRST AID:
- IF IN EYES: Flush eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.
