PREVENTION OF POOL ALGAE

BioGuard® has a wide variety of products that prevent specific pool situations. These products are designated as “Inhibit”. The BioGuard® Care System has three important parts that help you maintain crystal blue sparkling water.

- A sanitizer to kill bacteria
- A shock to destroy contaminants
- A preventative algicide to stop algae before it starts

All parts of the BioGuard Care System are vital to achieve beautiful water.

This product is a non foaming swimming pool algae preventative for the BioGuard Care System. Weekly use of this product prevents algae before it starts. This product is formulated to complement most swimming pool sanitizers. This product is a highly effective pool algae preventative. This product is effective and non-staining when used as directed. This product kills and prevents all types of pool algae: black algae, green algae, and mustard algae. This product provides a residual effectiveness that protects your pool against algae formation while keeping your pool water sparkling clear. This product is non-toasting and can be used in pools with attached spas or jetted returns.

IMPORTANT NOTES:

- Do not use in pools sanitized with biguanides or pools treated with hydrogen peroxide.
- Prior to the initial application of this product, test pool water for the presence of metals. If metals are present, apply a metal stain preventative per label directions.
- In use dilution, this product is non-toasting to pool surfaces and equipment.
- This product is designed to prevent the growth of algae. If visible growth is already present, it will be necessary to use a treatment product to kill the visible algae.

DIRECTIONS FOR USE:

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.
- PRIOR TO APPLICATION:
  - Ensure all equipment is working properly. If necessary, clean the filter system.
  - Adjust pH between 7.2-7.6.
  - Establish and maintain proper chlorine or bromine levels. In chlorine treated pools, add stabilizer to establish a minimum level of 30-40 ppm of cyanuric acid to reduce the degrading effects of sunlight on chlorine residual.
  - Vacuum leaves and any other foreign debris from pool. Brush pool thoroughly with a surface-compatible brush.

TO PREVENT POOL ALGAE:

- With pump and filter operating, initially apply 8 fluid ounces of this product per 10,000 gallons of pool water. Thereafter, for weekly application intervals; add 1.5 fluid ounces per 10,000 gallons of pool water. For two week application intervals, add 3 fluid ounces per 10,000 gallons of pool water every other week. Apply more often if pool volume is diluted by heavy rain, frequent backwashing or partial drain/refill.
  - Wait at least 15 minutes after application before entering pool.

STORAGE AND DISPOSAL:

Keep this product in its original tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Do not contaminate food or feed by storage or disposal. PRODUCT DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: WARNING: Causes substantial, but temporary, eye injury. Harmful if swallowed. Harmful if inhaled. Do not get in eyes or on clothing. Avoid breathing vapors. Wear safety glasses or goggles. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

Note: Buyer assumes all responsibilities for safety and use not in accordance with directions. Metals from source water, ionizers or poorly sequestered algicides have the potential to stain pool surfaces. Treat these problems with an appropriate stain and scale inhibitor (chelating agent) before using this product.

ACTIVE INGREDIENT:
- Copper (metallic)*** 3.3%
- TOTAL 100.0%

OTHER INGREDIENTS:
- Derived from copper sulfate pentahydrate (CAS No. 7758-99-8)
- Contains polymeric polyacrylate and gluconate stabilizing agents

** Contains polymeric polyacrylate and gluconate stabilizing agents

*** Approximate addition rate. Please refer to directions for use.

** Derived from copper sulfate pentahydrate (CAS No. 7758-99-8)
