Fresh Start is intended for use in hospitals and healthcare settings, laundry rooms, laboratories, transportation vehicles, and any other environment requiring an additional level of personal hygiene.

DIRECTIONS FOR USE: In the absence of a written order, this product will be dispensed in accordance with the terms of this label. This product is not for use on critical and non-critical patient care surfaces. Use for normal cleaning. Never use this product on skin. Use one Fresh Start wipe to completely remove all gross debris from surfaces.

DISINFECTING: To disinfect hard, non-porous surfaces, thoroughly wet the surface to be disinfected. Allow the disinfectant to remain on the surface for 5 minutes. For heavily soiled surfaces, use an approved and labeled disinfectant on top of the Fresh Start wiping solution. Use enough wipes for treated surface to remain visibly wet for 5 minutes. For heavily soiled surfaces, clean before applying Fresh Start. After use, Fresh Start is an effective disinfectant against Enveloped viruses (E.g. SARS-CoV-2), Mycobacteria, Mycoplasma, and spores (ATCC 15442). Staphylococcus aureus (ATCC 6538), Streplococcus pyogenes (Group A) (ATCC 19615), Community-associated methicillin-resistant Staphylococcus aureus (Methicillin-resistant Staphylococcus aureus (MRSA), Vancomycin-resistant Enterococcus faecalis (VRE) and Vancomycin intermediate resistant Staphylococcus aureus (VISA).

PRECAUTIONARY STATEMENTS: Fresh Start is an effective virucide on hard, non-porous surfaces against Flu A, Japan, Herpes Simplex Virus 1 (ATCC VR-262), Human Immunodeficiency Virus-1 (HIV-1) and Human Immunodeficiency Virus-2 (ATCC VR-734) when the treated surface is left in a wet state for 5 minutes. Avoid prolonged contact with or on food-contact surfaces, or with any surface to be consumed or inhaled by humans. In health care settings in which there is an expected likelihood of soiling of inanimate surfaces, use Fresh Start on surfaces at least 5 minutes after they have been used and will be likely to be soiled with blood or body fluids. Viruses may be inactivated by Fresh Start, but not necessarily eradicated.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES SOILED WITH BLOOD OR BODY FLUIDS: PERSONAL PROTECTION: When handling items soaked with blood or body fluids use disposable latex gloves, gowns, masks and eye coverings. CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTAMINATE ME! DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

FUNGICIDAL ACTIVITY: Fresh Start is an effective fungicide against Trichophyton mentagrophytes (ATCC 9393) causative agent of Athlete’s Foot Fungus, when used as directed on hard surfaces found in bathrooms and locker rooms, exercise facilities or other clean, hard, non-porous, surfaces commonly contaminated with fungal spores. Fresh Start is not intended for use on skin. Use one Fresh Start wipe to completely remove all gross debris from surfaces. Fresh Start is effective against fungus on hard, non-porous surfaces, wipe surface, using enough Fresh Start to remain visibly wet for 5 minutes. Allow surface to air dry.

ANTIBACTERIAL FORMULA CLEANES AND DISINFECTS IN ONE STEP

**NO NEW H1N1 INFLUENZA A VIRUS**

Active Ingredients:

- Sodium Hypochlorite (0.05%)
- Dimethyl benzyl ammonium chloride (0.06%
- Aluminum (6%)

Inactive Ingredients:

- 34% (Violet) Blue
