**Materials:**

---

**Pesticide Storage:**

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame.

---

**Pesticide Disposal:**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of the Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional Office for guidance.

---

**Container Disposal:**

Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.

---

**Contains strong oxidizing agent. Use only clean dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter, other chemicals or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning materials such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g. calcium hypochlorite). Such use may cause explosion.**

---

**Emergency Handling:**

In case of contamination or decomposition do not reseal container. If possible isolate container in open and well ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.
