No Rinse Sanitizer

Disinfectant - Sanitizer - Fungicide - Virucide® - Deodorizer
Effective in the presence of 5% serum contamination when used as a disinfectant
For Hospital, Institutional and Industrial Use
For School, Restaurant, Food Handling and Processing Areas, Bar and Institutional Kitchen Use
An effective sanitizer for use on food contact surfaces
Staphylocidal • Pseudomonacidal • Bactericidal • Salmonellacidal • Fungicidal • Virucidal®

Active Ingredients
Octyl decyl dimethyl ammonium chloride ..................... 6.9120%
Diocetyl dimethyl ammonium chloride ..................... 2.7648%
Didecyl dimethyl ammonium chloride ..................... 4.1472%
Alkyl (C₁₄₋₁₆ 50%; C₁₄₋₁₆ 40%; C₁₆₋₁₈ 10%)
dimethyl benzyl ammonium chloride ..................... 9.2160%

Precautionary Statements

Hazards to Humans and Domestic Animals

DANGER. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Harmful if swallowed, inhaled or absorbed through the skin. Wear protective eyewear (goggles, face shield or safety glasses), protective clothing and protective gloves (rubber, chemical resistant) when handling. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

Contains no phosphates.

This product is an economical concentrate. Can be diluted for use with a mop and bucket, trigger sprayers, sponge or by soaking. This product is a complete, chemically balanced disinfectant and sanitizer that provides clear use solutions even in the presence of hard water. This product is a disinfectant, sanitizer, fungicide, virucide, deodorizer, bacteriostat for use in all federally inspected meat and poultry plants, hospitals, institutional and industrial facilities.

Use as a sanitizer on dishes, glassware, and utensils.

This product is an effective sanitizer at 200 ppm active quat for use on food contact surfaces in 500 ppm hard water against: Campylobacter jejuni, Escherichia coli, Escherichia coli 0157:H7, Klebsiella pneumoniae, Listeria monocytogenes, Salmonella enterica, Shigella sonnei, Staphylococcus aureus, Staphylococcus aureus - Community Associated Methicillin-Resistant [CA-MRSA] [NRS348], USA300, Staphylococcus aureus - Community Associated Methicillin-Resistant [CA-MRSA] [NRS123], USA400, Staphylococcus aureus - Methicillin-Resistant [MRSA], Vibrio cholerae, Yersinia enterocolitica.

Use as a disinfectant on hard, nonporous surfaces.

As a disinfectant, this product kills: Brevibacterium ammoniagenes, Campylobacter jejuni, Escherichia coli, Escherichia coli pathogenic strain 0157:H7, Klebsiella pneumoniae, Listeria monocytogenes, Pseudomonas aeruginosa [Pseudomonas], Pseudomonas cepacia, Salmonella enterica [Salmonella], Salmonella typhi, Staphylococcus aureus [Staph], Staphylococcus aureus - Community Associated Methicillin-Resistant [CA-MRSA] [NRS348], Staphylococcus aureus - Methicillin-Resistant [MRSA], Yersinia enterocolitica, Adenovirus Type 5, Adenovirus Type 7, Hepatitis B Virus [HBV], Herpes Simplex Virus Type 1, Herpes Simplex Virus Type 2, Human Immunodeficiency Virus Type 1 [HIV-1] [AIDS Virus], Influenza A2 Hong Kong Virus, Norovirus - Feline Calicivirus, SARS Associated Human Coronavirus, Vaccinia Virus, Aspergillus niger, Trichophyton mentagrophytes (Athlete's Foot Fungus) (A Cause of Ringworm), Kills Pandemic 2009 H1N1 influenza A virus (formerly called swine flu).

Directions for use continued inside.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION / VIRUCIDAL® / FUNGICIDAL DIRECTIONS: Add 1 oz. of this product per 4 gallons of water (or equivalent dilution) to disinfect hard, nonporous surfaces. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from the room or carefully protected. When used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities, this product is an effective fungicide against Trichophyton mentagrophytes (the athlete’s foot fungus). Apply use-solution with a cloth, mop, sponge, sprayer or by immersion, thoroughly wetting surfaces. For sprayer applications, use a coarse spray device. Spray 6-8 inches from surface; rub with brush, sponge or cloth. Do not breathe spray. Note: For spray applications, cover or remove all food products. Treated surfaces must remain wet for 10 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry. Rinse food contact surfaces such as counter tops, tables, picnic tables, exteriors of appliances and/or stove tops with potable water prior to reuse. Do not use on glass, dishes, or utensils as a disinfectant. For heavily soiled areas, preclean first. For Human Coronavirus treated surfaces must remain wet for 1 minute. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

BACTERICIDAL STABILITY OF USE-DILUTION: Tests confirm that the use solution of this product when stored in a sealed container such as a spray bottle, remains effective for up to 5 months. If product becomes visibly dirty or contaminated, the use-dilution must be discarded and a fresh product prepared. Always use clean, properly labeled containers when diluting this product. Bactericidal stability of the use-dilution does not apply to open containers such as buckets or pails.

This product is not to be used as a terminal sterilant / high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

KILLS HIV AND HBV ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids, and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS) or Hepatitis B Virus (HBV).

Special Instructions for Cleaning and Decontamination against HIV-1 or HBV on Surfaces / Objects Soiled With Blood / Body Fluids. Personal Protection: Clean up must always be done wearing protective gloves, gowns, masks and eye protection.

Cleaning Procedure: Blood and other body fluids containing HIV-1 or HBV must be thoroughly cleaned from surfaces and objects before application of this product.

Contact Time: Leave surfaces wet for 10 minutes with a 1 oz. per 4 gallons of water use solution (or equivalent dilution).

Disposal of Infectious Material: Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

FOR MOLD AND MILDEW, 1 oz. of this product per 4 gallons of water (or equivalent dilution) will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears.

TO SANITIZE FOOD CONTACT SURFACES: For sanitizing hard non-porous surfaces of food processing equipment, dairy equipment, food utensils, dishes, silverware, glasses, sink tops, countertops, refrigerated storage and display equipment and other hard nonporous surfaces. Prior to application, remove gross food particles and soil by a pre-flush or pre-scrape and, when necessary, pre-soak. Then thoroughly wash or flush objects with a good detergent or compatible cleaner, followed by a potable water rinse before application of the sanitizing solution. Articles too large for immersing, apply a use-solution of 1 oz. of this product per 9 gallons of water (2 oz. of this product per 18 gallons of water) (200 ppm active quat) to the pre-cleaned hard surface, with a cloth, mop, sponge, coarse sprayer, thoroughly wetting surfaces. Surfaces must remain wet for at least one minute (60 seconds) followed by adequate draining and air drying. Do not rinse. Immune pre-cleaned glassware, dishes, silverware, cooking utensils and other similar size food processing equipment in a solution of 1 oz. of this product per 9 gallons of water (2 oz. of this product per 18 gallons of water) (200 ppm active quat) for at least 60 seconds.

continues on right inside panel
Drain thoroughly and allow to air dry before reuse. Do not rinse. Prepare fresh sanitizing solution daily or more often if the use solution becomes diluted or soiled. For mechanical applications, use solution may not be reused for sanitizing applications but may be reused for other purposes such as cleaning. Apply to sink tops, counter tops, refrigerated storage and display equipment and other stationary surfaces by cloth, sponge or brush.

TO SANITIZE FOOD PROCESSING EQUIPMENT, UTENSILS, AND OTHER FOOD CONTACT ARTICLES REGULATED BY 40 CFR § 180.940(a) (IN A THREE COMPARTMENT SINK):
1. Scrape, flush, or presoak articles (whether mobile or stationary) to remove gross food particles and soil. 2. Thoroughly wash articles with an appropriate detergent or cleaner. 3. Rinse articles thoroughly with potable water. 4. Sanitize by immersing articles in a solution of 1 oz. of this product per 9 gallons of water (2 oz. of this product per 18 gallons of water) (200 ppm active quat) for at least 50 seconds. Articles too large for immersing must be thoroughly wetted by rinsing, spraying, or swabbing. 5. Remove immersed items from solution to drain and then air dry. Non-immersed items must also be allowed to air dry. Do not rinse.

This product can be used in accordance with the U.S. Public Health Service food service sanitation recommendations.

U.S. PUBLIC HEALTH SERVICE FOOD SERVICE SANITIZATION RECOMMENDATIONS
CLEANING AND SANITIZING: Equipment and utensils must be thoroughly pre-flushed or pre-scraped and when necessary, pre-soaked to remove gross food particles and soil. 1. Thoroughly wash equipment and utensils in hot detergent solution. 2. Rinse utensils and equipment thoroughly with potable water. 3. Sanitize equipment and utensils by immersion in a solution of 1 oz. of this product per 9 gallons of water (2 oz. of this product per 18 gallons of water) (200 ppm active quat) for at least 60 seconds at a temperature of 75°F. 4. For equipment and utensils too large to sanitize by immersion, apply a solution of 1 oz. of this product per 9 gallons of water (2 oz. of this product per 18 gallons of water) (200 ppm active quat) by rinsing, spraying or swabbing until thoroughly wet. 5. Allow sanitized surface to drain and air dry. Do not rinse.

WISCONSIN STATE BOARD OF HEALTH DIRECTIONS FOR EATING ESTABLISHMENTS
1) Scrape and pre-wash utensils and glasses whenever possible. 2) Wash with a good detergent or compatible cleaner. 3) Rinse with potable water. 4) Sanitize in a solution of 1 oz. of this product per 9 gallons of water (2 oz. of this product per 18 gallons of water) (200 ppm active quat). Immerse all utensils for at least two minutes or for contact time specified by governing sanitary codes. 5) Place sanitized utensils on a rack or drain board to air dry. 6) Prepare a fresh sanitizing solution at least daily or when visibly soiled or diluted. NOTE: A clean potable water rinse following sanitization is not permitted under HFS 196, Appendix 7-204.11 of the Wisconsin Administrative Code (reference 40 CFR 180.940 (a)).

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Open clumping is prohibited. Store in original container in areas inaccessible to children.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Wrap empty container and put in trash.
