This product provides **FAST CONTROL** of ants in 3-5 days. Use only in areas not easily accessible to children.

This product controls a broad spectrum of ants. Thus, it kills not only foragers but also worker ants feeding to the nest. Fipronil that is fed to the rest of the colony and through trophallaxis, worker ants eat the bait while foraging, helping to spread the bait and kill the entire colony.

The high moisture content of this gel enhances the attraction of the bait for ants. It is fast acting, killing worker ants within 24 hours. The baits are taken to larvae and queen(s) so that the entire colony is killed through the **Domino Effect™**.

To apply gel: Remove cap from tip –or- break off, touch tip to surface and pull the drive rod out as far as it will go. Remove the empty reservoir, wrap and dispose of in trash. Remove the reservoir outlet cap and attach the dispensing tip. Push the drive rod out as far as it will go. Place the bait as follows: Gel can be placed in cracks, crevices, corners and any area when food is exposed and facility is in operation. Application of this product in areas of food/feed handling establishments is limited to crack and crevice areas of food/feed handling establishments.

### DIRECTIONS FOR USE:

1. **FOR INDOOR USE:**
   - Place bait along foraging trails and into nest sites. A careful inspection will help to determine the location of foraging paths and stations.
   - Place bait outdoors into, on or adjacent to structures where you see ants, next to ant trails and suspected areas of ant activity.
   - Likely locations for ants and gel include: windows, cabinets, sinks, stoves and other places where ants may enter the building structure, trees, stumps, roots, wood decks, fences, planter boxes, woodpiles, landscaping, and railroad ties.
   - Extreme heat or cold, direct sunlight and building snow/ice can affect the gel performance. Do not apply bait to areas where food/feed, food utensils or food processing surfaces are exposed.

2. **OUTDOOR USE:**
   - Place bait along foraging trails and into nest sites. A careful inspection will help to determine the location of foraging paths and stations.
   - Place bait outdoors in cracks, crevices, corners, window sills, under and behind kitchen appliances, in corners of buildings, under exterior doors and along exterior window frames.
   - Outdoor stations are effective in areas where insects may enter the building such as vents, garage, attic, and crawl spaces. Do not treat food preparation surfaces.

3. **Do not apply bait to areas which have been recently sprayed with insecticide or contaminated with foggers and do not spray insecticide over gel as this may affect baits performance.

4. **Do not apply the gel to areas which have been recently sprayed with insecticide or contaminated with foggers and do not spray insecticide over gel as this may affect baits performance.

### PHYSICAL AND CHEMICAL HAZARDS

- **Inhalation:** Causes respiratory tract irritation. Inhaling the dust or smoke of this product may produce coughing, wheezing, nose and throat irritation, and eye irritation.
- **Skin Contact:** Causes irritation of the skin, eyes, and respiratory tract. Skin contact with this product may produce irritation, redness, swelling, itching, contact dermatitis, and allergic contact dermatitis.
- **Eye Contact:** Causes irritation of the eyes. If the eyes are exposed to this product, wash eyes with clean water if able to swallow.
- **If swallowed:** Call a poison control center or doctor immediately for treatment. You may also contact the nearest EPA Poison Information Center at 800-858-1313. Have the product container or label with you when contacting a doctor.

### STORAGE AND DISPOSAL

- **When this product is no longer needed, place the container and its lid in a trash bin. Do not throw into the trash or down any indoor or outdoor drain. Do not flush down a toilet.
- **If Empty:** Do not reuse container. Place in trash or offer for recycling if available.

### OTHER INGREDIENTS:

- *Active Ingredient:* Fipronil 0.15%
- *Other Ingredients:* Methyl cellulose

### EPA REGISTRATION NUMBER:

- **EPA Reg. No.** 432-1264
- **EPA Est. No.** 071106-GA-001

### TOTAL NET WEIGHT:

- **Total:** 108g (3.8 Oz)
- **Total:** 27g (0.95 Oz) each

### WITHDRAWAL GUIDELINES:

- **Do not apply this product more than once in a week.
- **Do not apply this product more than 4 times a month.

### TOTAL:

- **Total:** 108g (3.8 Oz)

### 27g (0.95 Oz) each

### REFRIGERATION:

- **Refrigerate if desired.**

### CONDITIONS:

- **Keep out of reach of children.

### CAUTION:

- **Do not apply more than one application to any area of the structure.

### RECOMMENDATIONS:

- **Follow the directions for use carefully.**

### WARNING:

- **Warning:** The statements made on this label do not necessarily indicate that all known risks have been identified or that the risks have been determined to be insignificant.
