STORAGE and DISPOSAL: Pesticide Storage: Keep this product in its tightly closed original container when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals. Liquid Tube Container Disposal: If empty: Do not reuse tube. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS – HAZARDS TO HUMANS AND DOMESTIC ANIMALS – CAUTION
DO NOT USE ON DOGS LESS THAN 6 LBS OR PUPPIES LESS THAN 10 WEEKS OF AGE.

For external use only. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Repeated exposure to ethylphenoxethanol can cause skin irritation. Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing, or animals on medication. Sensitive pets may experience hair loss or temporary skin irritation at the application site. If signs persist or become more severe, contact veterinarian immediately. Some dogs/puppies may experience hair loss or temporary skin irritation at the application site. Treatment should be avoided for dogs with sensitive skin, or for those that are allergic to the oils in the product. Treatment of dogs/puppies with this product more than once per month should be avoided. A treatment may be necessary if the dog/puppy has been exposed to a large infestation or if the initial treatment has been unsuccessful. The dog/puppy should be treated every 30 days for optimal control and prevention of fleas. Treatment of dogs/puppies with this product more than once per month should be avoided. A treatment may be necessary if the dog/puppy has been exposed to a large infestation or if the initial treatment has been unsuccessful. Treatment of dogs/puppies with this product more than once per month should be avoided. A treatment may be necessary if the dog/puppy has been exposed to a large infestation or if the initial treatment has been unsuccessful.

USE RESTRICTIONS: THIS PRODUCT IS FOR INDOOR USE ONLY. Do Not Allow Children to Apply This Product. Do not apply this product to puppies or dogs less than 10 weeks of age and do not apply this product to other animals. Do not allow your dog/puppy to ingest this product. Apply this product only to the skin. Do not use more than one tube per dog/puppy and do not retreat more than once per month.

This product works by application directly to the dog/puppy’s skin, not to the hair. When applying, use applicator device tip to push to open tube/puppy’s hair to allow direct application to the skin. Do not get this product in dog/puppy’s eyes or mouth.

This product is most effective when used as part of a total flea and tick management program. Use other Adams® products regularly for control of fleas in conjunction with the treatment. Monthly treatments are required for optimal control and prevention of fleas. The success of this flea treatment will depend on the dog/puppy’s environment and the use of other control measures. Treatment of dogs/puppies with this product rapidly kills fleas and may reduce the incidence of the condition. This product is water resistant and remains efficacious following exposure to rainfall or swimming.

Do not apply in the eyes, on the ears, on flea collars, or as an oral treatment. This product is not for use on small mammals, birds, reptiles, or fish. Use on cats and dogs only. Do not use this product on cats.

Do not use on cats less than 12 weeks of age. Do not use on pregnant or nursing cats. Do not use on dogs or puppies less than 10 weeks of age. Do not use on cats less than 12 weeks of age. Do not use on dogs or puppies less than 10 weeks of age. Do not use on cats or dogs under 12 weeks of age. Do not use on cats or dogs under 12 weeks of age.

In case of emergency or for product information call 1-800-234-2269.
