How to Apply:
1. Invert tube over cat and use open end to part cat's hair.
2. Apply contents of one tube of PREFURRED PLUS as a spot between the shoulder blades. Squeeze tube firmly to apply all of the solution to the cat's skin.

How to Open:
1. Remove product tubes from the package.
2. Separate one tube from the others. Holding the tube with notched end pointing up and away from the face and body, cut off the narrow end at the matches with scissors.

Easy Topical Checklist
1. Read the label completely and follow directions
2. Weigh your pet
3. Do NOT use Dog products on Cats
4. Do NOT treat with more than one pesticide product at a time
5. Separate animals after treatment to avoid chance of ingestion
6. Do NOT split tubes between pets

FREQUENCY OF APPLICATION
Over 12 Weeks of Age
For best control, apply PREFURRED PLUS monthly to effectively kill fleas, ticks, and chewing lice. The sustained-release formula developed for fast-acting and long-lasting control of fleas, ticks, and chewing lice for 30 days on cats and kittens 12 weeks or older.

How to apply:
1. Start to kill fleas and ticks in an hour, continues to kill for a month with more than one pesticide product at a time. Over dosing your cat can result in serious illness and even death.

HAZARDS TO DOMESTIC ANIMALS.
