DANGER

OF CHILDREN

KEEP OUT OF REACH

**FIRST AID STATEMENTS BEFORE USE.**

Read all precautionary statements and small amounts of water, it can react to treatment products.

Do not allow product to contact any water if able to swallow. Do not induce vomiting.

Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling poison control center or 1-800-654-6911.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

• Increased frequency of spa usage
• Increased water temperature
• High number of bathers
• Increased microbial population
• Organic material

**PHYSICAL OR CHEMICAL HAZARD:**

Strong oxidizing agent. This product can increase fire intensity. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

Do not add water to this product. Add only into water. Do not get in eyes, on skin or on clothing. Do not breathe dust, fumes, or mists. Avoid spilling this product.

• Keep away from heat and from flame and burning material
• Store in a cool, dry, well-ventilated area away from heat or open equipment.
• Avoid spilling this product.
• Keep all foreign matter, including other water treatment equipment, away from this product.
• Do not allow to become wet or damp before use.
• Do not allow product to contact any
• Do not allow product to contact other water treatment products, to cause fire, explosion, and the release of toxic gases.

**HOW TO CALCULATE SPA CAPACITY**

Gallons of Water = Shape of Spa

- Oval with straight lines: Width x length x average depth x 6.7
- Circular: Diameter x diameter x width x 7.5

**STORAGE & DISPOSAL:**

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Offer for recycling if available. Do not contaminate food

waste to dissolve all material before disposal. Offer this container. Rinse empty container thoroughly with

water to dissolve all material prior to disposal. Offer

**DIRECTIONS FOR USE**

FOR REGULAR DOSAGE

Add ½ ounce of this product per 500 gallons of water. Check pH: The pH should be monitored with a reliable test kit 2.

This product should be added daily or as necessary to maintain:

- Free residual chlorine
- Inconsistent with its labeling.
- It is a violation of Federal law to use this product in a manner

DIRECTIONS FOR USE

SUPERCHLORINATION:

Adding a suitable agent such as Rendezvous® pH Up bicarbonate.

The pH can be decreased by adding a suitable agent such as sodium bisulphate or increased by sodium

equipment.

- Net Wt.: 4.0 LBS. (1.81 kg)

**WHAT YOU SHOULD USE THIS PRODUCT:**

- Why You Should Use This Product:
  - Chlorinate:
    - Add ½ ounce of this product per 500 gallons of water
  - Add chlorine to maintain the parts per million (ppm) free residual chlorine.
  - Maintain:
    - pH: The pH should be monitored with a reliable test kit.
    - 2.
  - The pH can be decreased by adding a suitable agent such as sodium bisulphate or increased by adding sodium hydroxide.
  - It should be maintained in the 7.2 to 7.8 range for clean, sparkling water.
  - Chloration:
    - 1.
    - System should be treated daily as necessary and rechecked at least daily.
    - Chlorine demand of the spa or hot tub resulting in the need for additional shocking to keep water clean and clear.
    - **Additional shocking to keep water clean and clear is the easy way to control the growth of algae, kill bacteria and destroy fish and aquatic organisms.**
    - Why You Should Use This Product:
      - Inconsistent with its labeling.
    - It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

- Increased frequency of spa usage
- High number of bathers
- Additional shocking to keep water clean and clear is the easy way to control the growth of algae, kill bacteria and destroy fish and aquatic organisms.

**ENVIRONMENTAL HAZARD:**

- Keep away from heat and from flame and burning material.
- Do not add water to this product. Add only into water.
- Can react with other materials, including other water treatment products, away from this product.
- This product protects spa water against chlorine loss while in inconsistent with its labeling.
- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Additional shocking to keep water clean and clear is the easy way to control the growth of algae, kill bacteria and destroy fish and aquatic organisms.

**WHY YOU SHOULD USE THIS PRODUCT:**

- **PH:** The pH should be monitored with a reliable test kit.
- **2.**
- The pH can be decreased by adding a suitable agent such as sodium bisulphate or increased by adding sodium hydroxide.
- **3.**
- It should be maintained in the 7.2 to 7.8 range for clean, sparkling water.
- **CHLORINATION:**
  - **1.**
  - The system should be treated daily as necessary and rechecked at least daily.
  - Chlorine demand of the spa or hot tub resulting in the need for additional shocking to keep water clean and clear.
  - **ADDITIONAL SHOCKING TO KEEP WATER CLEAN AND CLEAR IS THE EASY WAY TO CONTROL THE GROWTH OF ALGAE, KILL BACTERIA AND DESTROY FISH AND AQUATIC ORGANISMS.**

**STORAGE & DISPOSAL:**

- **KEEP OUT OF REACH OF CHILDREN**
- Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear safety glasses, face shield or goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.

- Do not induce vomiting as poisoning may occur. Call a poison control center or doctor immediately for treatment advice.
- **IF IN EYES:**
  - Remove contact lenses if present after rinsing.
  - Hold eyelids open and rinse slowly with water for 15 to 20 minutes.
  - Call a poison control center or doctor for further treatment advice.
- **IF ON SKIN OR CLOTHING:**
  - Remove contaminated clothing and wash clothing before reuse.
  - Slowly with water for 15 to 20 minutes. Call a poison control center or doctor for further treatment advice.
- **IF INHALED:**
  - If you are not breathing, call 911 or an ambulance, then give artificial respiration. Rotate head to one side and place hand over the mouth and nose of the unconscious person and give 15 breaths. Place the hand over the mouth and nose and give 15 breaths. Resume program when chlorine residual reads 2 to 3 ppm.
- **IN CASE OF EMERGENCY CALL:**
  - RendezvousSpa.com
  - IN CASE OF EMERGENCY CALL:
  - 1-800-654-6911.
  - EPA EST. NO. 3525-NJ-01 [NJ]
  - EPA REG NO. 7364-80
  - 354x200
  - Maintain clea,
**FOR REGULAR DOSAGE**

- Chlorinate: Maintain a 0.5 to 1 ppm free residual chlorine.
- Re-entry into treated spas/hot tubs is prohibited above levels of 5 ppm free residual chlorine.

**SUPERCHLORINATION:** It is good practice to superchlorinate water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Remove contact lenses if present after removing skin contaminants. Rinse skin contaminated with this product with plenty of water for at least 15 minutes. Call a poison control center or doctor immediately for further treatment advice.

**IF IN EYES:** Hold eyelids open and rinse immediately with plenty of water for at least 15 minutes. Call a poison control center or doctor immediately for further treatment advice.

**IF SWALLOWED:** Call a poison control center or doctor for further treatment advice.

**INHALED:** Harmful if swallowed or absorbed through skin. May cause irritation, swelling and skin burns. May be fatal if inhaled. Harmful if swallowed. Irritating to nose and throat. May cause coughing, choking, or difficulty breathing. May also cause irritation of the throat, nose, and eyes. May cause respiratory failure if inhaled in large amounts.

**EXPOSURE TO HEAT:** Strong oxidizing agent. This product can increase fire intensity. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

**STORAGE & DISPOSAL:** Do not get in eyes, on skin or on clothing. Do not breathe dust, fumes or spray mist. Wear safety glasses, face shield or goggles and rubber gloves. For additional protection of skin, wear long-sleeved shirt and long pants.

**ENVIRONMENTAL HAZARD:** Strong oxidizing agent. This product can increase fire intensity. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

**WHY YOU SHOULD USE THIS PRODUCT:**

- Maintains clean, clear, sanitized water
- Superchlorination: kills bacteria, destroys organic material.
- Easy way to control the growth of algae, kill bacteria and destroy fish and aquatic organisms.
- Optimizing spa usage and comfort. This product is a convenient and easy way to control the growth of algae, kill bacteria and destroy fish and aquatic organisms.
- Additional shocking to keep water clean and clear is recommended after increased frequency of spa usage.
- High number of bathers
- Better water quality
- Easier to maintain
