CONTAINS PETROLEUM DISTILLATES

BPA: EST 2018-NO:1
UPA REG NO. 2635-425
MICRON® CSC HS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This product uses micron technology to provide excellent bonding, abrasion resistance, and inert characteristics for all types of coatings. These products are designed to be used to ensure high adhesion strength and free from solvents.

APPLICATION PROCEDURE: Stir or shake well prior to use. Apply at least 2 coats of 3 coats of bare wood with this product by brush or roller in thin coats. Do not apply too thin. Keep in mind that the dry film thickness is directly related to the amount of product applied. If applying during hot, humid conditions, it is recommended to use a minimum of 2 coats for this product. It is also recommended to apply this product to surfaces that are not susceptible to weathering or withstanding change in dry film thickness.

APPLICATION SYSTEMS: GENERAL APPLICATION PROCEDURE: Stir or shake well prior to use. Apply at least 2 coats of this product by brush or roller in thin coats. Do not apply too thin. Keep in mind that the dry film thickness is directly related to the amount of product applied. If applying during hot, humid conditions, it is recommended to use a minimum of 2 coats for this product. It is also recommended to apply this product to surfaces that are not susceptible to weathering or withstanding change in dry film thickness.

PREVIOUSLY PAINTED SURFACES: Generally, prepare the surface by sanding it with a fine-grade abrasive. Wipe the surface clean with a damp cloth to remove any dust and to provide a smooth finish. Then apply the recommended coating. For best results, apply 2 to 3 coats of this product.

COATINGS: Generally, apply at least 2 coats of this product by brush or roller in thin coats. Do not apply too thin. Keep in mind that the dry film thickness is directly related to the amount of product applied. If applying during hot, humid conditions, it is recommended to use a minimum of 2 coats for this product. It is also recommended to apply this product to surfaces that are not susceptible to weathering or withstanding change in dry film thickness.

SAFETY DATA SHEET (SDS) AVAILABLE ON REQUEST: For more detailed information on the use and safety of this product, please refer to the SDS available on request. This document provides comprehensive information on the use, handling, storage, and disposal of the product.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

This product contains a variety of solvents and other chemical ingredients that may be harmful if inhaled or ingested. Use this product in a well-ventilated area, away from open flames or other sources of ignition. Keep out of reach of children. If you experience any adverse effects, seek medical attention immediately.

FIRST AID

If swallowed:

- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything orally to an unconscious person.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- If clothing is contaminated, remove the clothing and launder it as directed.
- If clothing is contaminated, remove the clothing and launder it as directed.

If in eyes:

- Wash out with running water for at least 15 minutes.
- If irritation persists, seek medical attention immediately.

If inhaled:

- Move patient to fresh air.
- If patient is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

ENVIRONMENTAL HAZARDS

This material is toxic to fish. Do not apply directly to waterways or bodies of water. For best results, apply at least 2 coats of this product by brush or roller in thin coats. Do not apply too thin. Keep in mind that the dry film thickness is directly related to the amount of product applied. If applying during hot, humid conditions, it is recommended to use a minimum of 2 coats for this product. It is also recommended to apply this product to surfaces that are not susceptible to weathering or withstanding change in dry film thickness.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. General disposal prohibited.

DO NOT DISCARD INTO STREAMS OR SEWERS: This product is not to be discarded into streams or sewers. It is recommended to properly dispose of this product by contacting the local environmental protection agency or the hazardous waste disposal facilities in your area.
