To control algae in your swimming pool, simply add ALGAE Break 90 every three months. Your pool will sparkle like never before. Keep algae at bay with ALGAE Break 90.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DOSE RATES:
EVERY THREE MONTHS: 16 fl oz. of ALGAE Break 90 per 10,000 gallons of pool water (or 500 mL per 40,000 L) will prevent algae growth in all pool types.
SEVERE ALGAE TREATMENT: 32 fl oz. of ALGAE Break 90 per 10,000 gallons of pool water (or 1 Liter per 40,000 L).

GENERAL DIRECTIONS:
1. Maintain pool water in the pH range 7.2 to 7.8. Adjust pH to 7.2 for severe algae.
2. Ensure that filtration system is working properly and that filtration cycle is adequate.
3. A regular brushing program will assist in the removal of stubborn algae.
4. Calculate the volume of ALGAE Break 90 required for your pool.
5. Add the product directly to the pool, distributing over as wide an area as possible.
6. While ALGAE Break 90 controls algae, it is important that adequate levels of sanitizer (chlorine) be maintained to control bacteria growth.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish and aquatic invertebrates and may contaminate water through reuse. Do not contaminate water when disposing of equipment wash water or rinseout.

NOTICE
Natural Chemistry L.P. nor the seller of this product can accept any responsibility where the product is not used according to directions and for the manner in which it was intended.
