**PHYSICAL AND CHEMICAL HAZARDS: DANGER.** If this product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and vapors. Do not add water to this product. Add only water. Do not mix this product with a small amount of water. Only add this product directly to your pool. Do not allow it to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. Keep all foreign matter, including other water treatment products, away from this product. Do not store water treatment products, especially in a similar environment. Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely clean and free from residue from other water treatment products before putting this product in a skimmer. Avoid splashing this product. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not expose to heat or open flame. Natural ventilation is enough to cool this container. If exposure to heat or open flame, do not heat or filter by storage or evaporation or drying equipment. FOR COPCOIL: IF CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

**EMERGENCY HANDLING:** In case of contamination or incompatibility—Do not recirculate container. Immediately remove container from open and well-ventilated area by itself. Pour large amounts of water over the material. Do not dispose of container and remaining material in an approved landfill area.

**FIRST AID:** If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If Inhaled: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or go for treatment. NOTE TO PHYSICIAN: Probable mucosal damage may be caused in the respiratory tract. In case of emergency call: 1-800-654-6811

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

**WHY YOU SHOULD USE THIS PRODUCT:** This is a highly effective water treatment product that changes the appearance and condition of your water. It is designed to provide your pool with a clean and clear appearance. Follow the directions for use as directed. Additional shocking to keep water clean and clear is recommended after rain and heavy winds; high number of swimmers; increased temperature; increased frequency of pool use.

**HOW TO USE:** Do not pre-treat this product before adding it to your pool. Only add this product directly to your pool or skimmer. Use entire contents when opened.

**Method for dosing directly into pool:** Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use brush to disperse.

**Method for skimmer addition:** Make sure that the filter pump is on and properly filtering through the skimmer. Empty skimmer of all chemicals and other debris. During cleaning, do not allow debris into filter or backwash system. If debris is allowed into the system, use a skimmer to disperse. Do not allow any material to accumulate as toxic gases may be generated.

**WATER BALANCE:** For best pool performance, swim comfort and clarity, use HTH pool care products to maintain the following water balance:

<table>
<thead>
<tr>
<th>Acceptable Range for Balance</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>pH</td>
<td>7.2–7.8</td>
<td></td>
</tr>
<tr>
<td>Total Alkalinity</td>
<td>60–120 ppm</td>
<td></td>
</tr>
<tr>
<td>Calcium Hardness</td>
<td>Above 200 ppm</td>
<td></td>
</tr>
<tr>
<td>Available Chlorine</td>
<td>1–4 ppm</td>
<td></td>
</tr>
</tbody>
</table>

Follow label directions for each product and allow each product to disperse and disperse before adding additional products to your pool. Use a reliable test kit that measures all these ranges. The entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury.

**OPENING YOUR POOL:** For best results, see the "WATER BALANCE" section above before treatment. Adjust and maintain pH at least 12 to 1.2 ppm to 7.0. pH 1.2 to 7.0 ppm. Add 30 ppm to water to achieve. Test free available chlorine residual with a test kit. Add 1–4 ppm. Repeat dosage, as needed, until the free available chlorine residual is 1–4 ppm.

**POOL SHOCK TREATMENT:** Add the recommended dosage of this product while the filter pump is running. Adjust and maintain pH at least 12 to 7.0 ppm. 4 ppm. 1–4 ppm. Add 30 ppm to water to achieve. Test free available chlorine residual with a test kit. Add 1–4 ppm. Repeat dosage, as needed, until the free available chlorine residual is 1–4 ppm.

**DOSE RATE/SHOCK TREATMENT / SUPER CHLORINATION:** For best results, see "WATER BALANCE" and "HOW TO USE" section above before treatment. Every 7 days, or as necessary to prevent pool problems, shock treat the pool by adding 16 to 32 ounces (418 to 896 grams) of water to each 100 gallons of water to yield to 10 ppm available chlorine. For entry into treated pools is prohibited above levels of 4 ppm for risk of bodily injury.

**ALGAE CONTROL:** 1. Follow "SHOCK TREATMENT" directions on this label. 2. Chlorine as is possible to any algae on the sides or bottom of the pool. 3. Do not enter pool until the free available chlorine residual is 1–4 ppm. 4. After the necessary, repeat the treatment. 3. To prevent possible staining or bleaching, take the following steps immediately after treatment. Thoroughly clean pool by brushing surface of algae growth, vacuum and cycle through filter. For prevention of algae control, use your preferred HTH Algicide product regularly.

**PRECAUTIONARY STATEMENTS:** HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER. Corrosive, Causes irreversible eye damage or skin burns. Harmful if swallowed, or absorbed through skin. • Open to a well-ventilated area. Avoid breathing dust and fumes. • Do not get into eyes, on skin or on clothing. Wear goggles and rubber gloves. For accidental exposure, use your preferred HTH Algicide product regularly.
