DANGER
CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eye wear (goggles or face shield), protective clothing, and rubber gloves. Harmful or fatal if swallowed or absorbed through the skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before resue.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on this label.

PHYSICAL AND CHEMICAL HAZARDS
Do not use or store near heat or flame.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Do not store on side. Avoid creasing or impacting side walls. PESTICIDE DISPOSAL: Pesticides wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse (or equivalent) container promptly after emptying. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling, if available, or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Technical assistance in applying NALCON 7642 for control of bacterial and fungal slime as described below is available from your Nalco representative.

SLIMICIDE USE
For use as a preservative in a paper additive system, such as pastes and adhesive systems, polymers and latex emulsion systems, pigmented slurries and coating systems add NALCON 7642 directly to the system to be preserved at a dosage of 250-750 ppm.

For control of fungi, bacteria, and associated slime in pulp, paper or paperboard systems, use 0.25-1.5 lbs. NALCON 7642 per ton of total paper (dry basis) production.

Intermittent Dosage: A typical intermittent feed cycle would be 1 hour feed at a dosage of 4.2 lbs./ton followed by 7 hours off for an average total feed of 0.5 lbs./ton.

Continuous Dosage: Apply NALCON 7642 continuously at a dosage of 0.25-1.5 lbs. NALCON 7642 per ton of total paper (dry basis) production depending on severity of contamination. Badly fouled process systems must be cleaned before initial treatment. Feed NALCON 7642 directly from the drum or diluted with water using a proportioning pump or other application equipment. Application may be anywhere in the system prior to sheet formation where it will be uniformly mixed or to the recirculating white water.

PRESERVATIVE USE
For use as a preservative in a paper additive system, such as pastes and adhesive systems, polymers and latex emulsion systems, pigmented slurries and coating systems add NALCON 7642 directly to the system to be preserved at a dosage of 250-750 ppm.

Note: Not for use in additive systems applied to paper or paperboard used for food contact applications.

NALCON® 7642
A PAPERMILL SLIMICIDE

ACTIVE INGREDIENTS:
- n-alkyl (60% C14, 30% C16, 5% C12, 5% C18)dimethyl benzyl ammonium chloride ........................................... 30.5%
- n-dialkyl (60% C14, 30% C16, 5% C12, 5% C18) methyl benzyl ammonium chloride .......................... 0.12%
- Bis (trichloromethyl) sulfone .......................................... 3.33%

INERT INGREDIENTS: .................................................. 66.05%
TOTAL ........................................................................ 100.0%

Weight per Gallon = 8.7 lb

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID
If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or a doctor immediately for treatment advice.

If swallowed:
- Call a poison control center or a doctor immediately for treatment advice.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or a doctor for treatment advice.
- If inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or a doctor for further treatment advice.

NOTE TO PHYSICIAN:
Aspiration may cause lung damage. Probable mucosal damage may contraindicate the use of gastric lavage.
Have the MSDS and, if available, the product container or label with you when calling a poison control center or a doctor, or going for treatment.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER
Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eye wear (goggles or face shield), protective clothing, and rubber gloves. Harmful or fatal if swallowed or absorbed through the skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reusing.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on this label.

PHYSICAL AND CHEMICAL HAZARDS
Do not use or store near heat or flame

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. PESTICIDE STORAGE: Do not store on side. Avoid creasing or impacting side walls. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. CONTAINER HANDLING: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times. Then offer for recycling, if available, or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedure approved by state and local authorities.
