PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

DANGER. KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin. Harmful if inhaled. Avoid breathing spray mist. Do not get into eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD

This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified. Do not discharge effluent containing this product into sewers systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not store near heat or open flame. Do not mix with combustibles, ionic soaps and detergents.

DIRECTIONS FOR USE

1. As a sanitizer, use this product in a manner consistent with its labeling. Before using this product, food products and packaging materials must be removed from the room.

GENERAL DIRECTION PERFORMANCE IN NON-MEDICAL FACILITIES: At 1 oz. per gallon of water, use level (200 ppm active), this product is an effective one-step sanitizer with a 5 minute contact time against the following on hard non-porous surfaces:

- Escherichia coli
- Salmonella enterica

ENTRYWAY SANITIZING SYSTEMS: To prevent cross contamination from area to area, set the system to deliver 0.5 to 1 oz. of this product per gallon of water (400 - 800 ppm) of sanitizing solution. The foams form barriers over the entire path of the doorway. Set the system so that a continuous wet blanket of sanitizer solution is delivered to the floor. Do not mix other foams additives with the sanitizing solution.

FOOD CONTACT SANITIZING PERFORMANCE: At a minimum of 1 and a maximum of 6 ppm, this product was tested and has proven to be effective against Foot and Mouth Disease Virus (FMDV) of间距 6 ppm when 5% soil is present. The product was tested and has proven to be effective against Foot and Mouth Disease Virus (FMDV) in the presence of 5% soil. The product was tested and has proven to be effective against Foot and Mouth Disease Virus (FMDV) in the presence of 5% soil. The product was tested and has proven to be effective against Foot and Mouth Disease Virus (FMDV) in the presence of 5% soil.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

1. IF IN SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

2. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

3. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor.

4. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

5. IF ON SKIN OR CLOTHING: Wash with a good detergent or compatible cleaner, followed by a potable water rinse before application of the sanitizing solution.

NOTES: This product is effective against Foot and Mouth Disease Virus (FMDV) in the presence of 5% soil. The product was tested and has proven to be effective against Foot and Mouth Disease Virus (FMDV) in the presence of 5% soil.

RESIDUE REMOVAL INSTRUCTIONS: If these wastes cannot be disposed of by use, contact the Pesticide Management Program of your State, EPA, the Environmental Protection Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING/PESTICIDE STORAGE/CONTAINER DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal.

CONTAINER HANDLING/PESTICIDE STORAGE/CONTAINER DISPOSAL:

Non-refillable container. Only in original container. Do not reuse empty container. Do not replace container. A leaky container must be disposed of in a suitable waste disposal container. Store in cool, dry, well-ventilated area. Do not store in basement or garage. Do not store in food or feed containers. Do not store near food, feed, or food or feed products.
