**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:** DANGER. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear long-sleeved shirt, pants, safety glasses or goggles, and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until hands have been washed. Wash contaminated clothing before reuse.

**PHYSICAL OR CHEMICAL HAZARDS**

Strong oxidizing agent. Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, ponds, streams, estuaries, oceans or other waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority. A National Pollutant Discharge Elimination System (NPDES) permit has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant. For guidance contact your State or Local Office of Environmental Management.

**STORAGE AND DISPOSAL:** Do not contaminate water feed or food by storing it in or near the container. Pesticide Storage: Store in a closed container in cool, dry area away from heat and sunlight to avoid deterioration. In case of spill, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding this container (if practicable) in trash. Emergency Handling: In case of contamination or decomprecation, do not reseal container. Isolate in open, well-ventilated area and flood with large volume of water. Cool unopened containers in vicinity by water spray. Pesticide Disposal: Wastes may be hazardous. Improper disposal of excess pesticide, spray mixture, or rinsewater is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the EPA Regional Office for guidance.

Container Handling:

Nontoxic rigid container. Do not re-use or re-fill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/3 full with water. Replace the lid and shake back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of container in a sanitary landfill or submitted to a sanitary incinerator, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Nontoxic rigid container. Refill this container with this product only. Do not re-use this container for any other product or purpose. Mix only with water. Do not re-use or re-fill this container.

**ACTIVE INGREDIENT:** Sodium hypochlorite 12.5% Other ingredients 87.5%

**TOTAL AVAILABLE CHLORINE** 11.9%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**FIRST AID**

IF IN EYES: -Hold eye open and rinse slowly and gently with water for 15-20 minutes.
-Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF INHALED: -If product is inhaled, move the person to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth.

IF SWALLOWED: -Have person sip a glass of water if able to swallow.
-Do not induce vomiting unless told to do so by poison control center or doctor.
-Do not give any mouth by anything to an unconscious person.

**PRECAUTIONARY STATEMENTS**

**NOTICE TO PHYSICIAN** - Probable mucosal damage may contaminate the use of gastric lavage.

**FOR ALL ACCIDENTS, CALL CHEMTREC AT 1-800-424-9300**

**SANITIZATION OF NONPOROUS FOOD CONTACT SURFACES**

**RINSE METHOD** - A solution of 100 ppm available chlorine may be used in the sanitizing solution if a chlorine test kit is available. Solutions containing an initial concentration of 100 ppm available chlorine must be tested and adjusted periodically to insure that the available chlorine does not drop below 50 ppm. Prepare a 100 ppm sanitizing solution by thoroughly mixing 1 oz. of this product with 10 gallons of water. If no test kit is available, prepare a sanitizing solution by thoroughly mixing 2 oz. of this product with 20 gallons of water to provide available chlorine equal to 110% of the volume capacity of the equipment by mixing the product in a ratio of 2 oz. of product with 10 gallons of water. Prepare a 600 ppm solution by thoroughly mixing the product in a ratio of 6 oz. of product with 10 gallons of water. Use spray equipment, which can resist hypochlorite solutions. Always empty and rinse spray equipment with potable water after use. Thoroughly spray all surfaces until wet, then empty and rinse. Prior to using equipment, rinse all surfaces treated with a 600 ppm solution with a 200 ppm solution.
