STORAGE AND DISPOSAL
Do not contaminate water, food, feed by storage or disposal. 

PESTICIDE STORAGE: 
- To minimize risk, this product is stored in a manner that the bag is neither tan in contact with moisture. 
- Do not store near fertilizer, seeds, or insecticides. 

PESTICIDE DISPOSAL: 
- Wash hands thoroughly after using or handling the product. 
- Do not apply or store in water. 

CONTAINER DISPOSAL: 
- Non-refillable container. 
- Do not rehandle the container. 

FIRST AID
- If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice. 
- If in Eyes: Flush eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes and continue rinsing eyes. 
- Call a poison control center or doctor for treatment advice. 
- If Swallowed: 
  - Immediately call a poison control center or doctor for treatment advice. 
  - Have person sip a glass of water if able to swallow. 
  - Do not induce vomiting unless told to do so by a poison control center or doctor. 

CAUTION: Harmful if absorbed through skin. Cause moderate eye irritation. Avoid contact with skin, eyes or clothing. Protocols or frequently repeated skin contact may cause allergic reactions in some individuals.

Weed Killer

For general weed control around buried cable closures, telephone booths, cross-boxes, transformer pads and fire plugs.

ACTIVE INGREDIENTS:
- Tebuthiuron: N-N,1-dimethylureas-1,3,4-thiadiazole-2-yl-N,N′-dimethylurea……………………..2% 
- Diuron [3-(2-chlorophenyl)-1,1-dimethylurea]……………………………………..6% 
- OTHER INGREDIENTS………………………………………………………………………………….82% 

TOTAL: 100%

Rainbow Weed Killer contains a total of 8% for the active ingredients, tebuthiuron and diuron.

KEEP OUT OF REACH OF CHILDREN

CAUTION: Harmful if absorbed through skin. Cause moderate eye irritation. Avoid contact with skin, eyes or clothing. Protocols or frequently repeated skin contact may cause allergic reactions in some individuals.

Personal Protective Equipment (PPE)
- Some materials that are chemically resistant to the product are listed below. If you want more options, follow the instructions for category A on the EPA chemical resistance chart. 
- Wear long-sleeved shirt and long pants. Use gloves and protective clothing to avoid contamination.

Environmental Hazards: For terrestrial use: Do not apply water directly to water in streams, lakes, or ponds to prevent contamination. Do not contaminate water when disposing of equipment washwaters or waste. In case of spills, collect, or incorporate organics based on soil type and characteristics to prevent contamination. 

Ground Water Protection: This product is known to leach from the ground under certain conditions as a result of registered transplanted and non-use. 

NOTICE OF WARRANTY: All warranties are excluded for the purpose stated on such books of such books when used in accordance with the directions under normal conditions. To the extent consistent with applicable law, Rainbow does not warrant or makes any representation or warranty, either express or implied, to the extent that the product is neither tan in contact with moisture. 

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Non-Crop Weed Control:

Intended Only for Industrial Use. 

Rainbow Weed Killer is approved for use in approved waste transfer systems, telephone booths, cross-connector boxes, transformer pads and fire plugs. 

For registration control by broadcast treatment (ground equipment) and broadcast applications. 

Precautions and Restrictions
- Do not apply by air. 
- Do not apply the product only by ground application. 
- Do not apply on or near desirable woody or herbaceous plants or on areas where their roots may extend beyond the treated soil. 
- Do not use on crops or other plants to be used for food or forage. 
- Do not cultivate the soil for at least 90 days prior to planting of the following crops: alfalfa, annual rye grass, clover, cotton, hops, peanuts, chicory, soybeans, tobacco, and watermelon. 

Register for Other Use: 
- In areas of high density or where undesirable weed growth exists, Rainbow Weed Killer may be applied in the noncrop application. 
- Keep soil and water out of the area during application. 
- Do not apply the product to areas where soil or water can enter the soil. 
- Do not apply the product to areas where it will contact surface or sub-surface water. 

Register for Industrial Use: 
- Use Rainbow Weed Killer for controlling a web of annual and perennial weeds and grasses, for use on general weed control on surrounding areas around buried cable closures, telephone booths, cross-connector boxes, transformer pads and fire plugs. 
- Rainbow Weed Killer contains a total of 8% for the active ingredients, tebuthiuron and diuron.

EPA Reg. No. 13283-18 
EPA Est. 12383-AL-1, 82013-AL-1

NET WT. 4 lbs
STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: To maximize the shelf life of this product, store in a dry area where the container is not likely to come in contact with moisture. Do not store near fertilizers, seeds, insecticides or fungicides.

AL: Wastes resulting from the use of this product may be disposed of on site as an approved waste disposal facility.

CONTAINER DISPOSAL: Non-refillable container; do not reuse or refill this container. Container must be empty of residue before disposal. Do not contaminate water or soil by disposal of this product into surfaces water or sewage systems.

Do not incinerate empty containers. Empty containers may retain some product residue and therefore do not terminate the hazard of the product.

Do not use on or near desirable or poisonous plants or crops growing on land or water which may be used or drained into sources of water for potable or irrigation purposes.

Non-refillable

PESTICIDE DISPOSABLES: Do not contaminate water, food or feed by storage or disposal.

First Aid

If on Skin or Clothing: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye. Call a poison control center or doctor for treatment advice. If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If you have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also call 1.800.255.9394 for emergency medical treatment advice.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

Personal Protective Equipment (PPE)

Some materials that are chemical-resistant to this product are listed below. If you require additional protection, consult fire and safety authorities.

Chemical-resistant gloves: Latex, neoprene, nitrile, polyethylene or polyvinylchloride. In addition, applicators using tractor drawn spreaders and all loaders must wear a NIOSH-approved particulate filtering respirator equipped with N, R, or P class filter media. The respirator should meet and exceed the NIOSH approval number prefix TC-98A. It is recommended that applicators require the respirator wearer to be fit tested, and trained in the use, maintenance, and limitations of the respirator. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users should: thoroughly wash hands with soap and water after handling this product and before eating, drinking, chewing gum, using tobacco or performing any other activity before eating, drinking, chewing gum, using tobacco or performing any other activity. Application equipment is available from Rainbow Technology Corporation.

How to Apply

For general weed control around buried cable closures, telephone booths, cross-connect boxes, transformer pads and fire plugs.

ACTIVE INGREDIENTS:

Tebuthiuron: N-(5-1,1-dimethylethyl)-1,3,4-thiadiazol-2-yl)-N,N’dimethylurea.......................... 2% thiazidazole-2-yl)-N,N’dimethyurea.......................... 2% Diuron [3-(3,4-dichlorophenyl)-1,1-dimethylurea].................. 6% OTHER INGREDIENTS......................................... 92% TOTAL.......................................................... 100%

Rainbow Weed Killer contains a total of 8% of the active ingredients, tebuthiuron and diuron.

KEEP OUT OF REACH OF CHILDREN

Caution: Keep out of reach of children and pets. Keep out of the reach of children and pets. Keep out of the reach of children and pets. Keep out of the reach of children and pets. Do not contaminate water, food or feed by storage or disposal.

Environmental Hazards: For terrestrial uses: Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment or rinsates. In cases of spills, collect, cover or incorporate the material into the soil as soon as possible. Do not allow pesticides to get washed into drainage systems.

Apply this product only as specified on this label. This product is designed for use in irrigation canals, ditches, drainage ditches, and other water bodies for the control of aquatic weeds. This product is approved for use on any water body where disturbance is not a problem. In addition, this product is approved for use in water bodies that are not used for drinking water or for any other potable uses. This product is approved for use in public recreational water bodies. This product is approved for use in private recreational water bodies. This product is approved for use in any water body where disturbance is not a problem. This product is approved for use in lakes and ponds.

NOTICE OF WARRANTY: Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on such label or in the instructions for use given in this material safety data sheet. To the extent consistent with applicable law: a) Rainbow shall not be liable for consequential or special damages resulting from the use or handling of this product, the buyer assumes all such risk; and b) Rainbow makes no warranties of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE or any other express or implied warranty except as stated above.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NON-CROP WEED CONTROL

Intended Only for Industrial Use Around Buried Cable Closures, Telephone Booths, Cross-Connect Boxes, Transformer Pads and Fire Plugs. For vegetation control by broadcast (ground equipment) and banded applications.

Precautions and Restrictions

Do not apply by air. Apply this product only by ground application. Do not apply on or near desirable or poisonous plants or crops growing on land or water where its roots may extend because of possible leaching into streams or any land to be used for subsequent cropping. Do not contaminate irrigation ditches or water used for domestic purposes. Except for banded application, do not allow others to enter treated areas until the dusts have settled. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Keep animals off treated areas. Application with a spoon or pump-feed backpack sprayer or a gravity-feed backpack spreader is prohibited. Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

This product is intended for use in controlling grasses and broadleaf weeds in non-crop areas. Use this product only as furnished with a seed spreader, fertilizer spreader, spreader, shaker-type applicator or any equipment which will distribute the chemical uniformly over the treatment site. Do not apply this product with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Application equipment is available from Rainbow Technology Corporation. To apply: To obtain the best results, apply this product to the ground where it will be absorbed by the roots. Applied early in the season have been found to give results superior to applications at a later seasonal date. To apply this product, however, may be applied at any time of the year, except when the ground is frozen. Maximum effective and in regions is obtained when application is made just prior to the rainy season. Consult state agricultural experimental stations or extension service weed specialists for recommendations as to use in your particular area. Use Restrictions for Ground Water Protection: Vulnerable Sites: To minimize any movement of tebuthiuron to surface water, do not exceed the application rates specified above. On all other sites where soils have a sandy or loamy sand texture the soil profile and all of the following characteristics: 1) Rapid to very rapid permeability, 3) Presence of well-defined organic layers or a textural B-horizon (restricting layer of fine-textured soil). 2) The water table of an underlying aquifer is shallow. An aquifer is defined as an “underground saturated, permeable rock formation capable of producing significant quantities of water to a well or spring.” If it is the ability of the saturated zone, or portion of that zone, to yield water which meets the standards of the Water Quality Act (American Chemical Society, 1983). Local agricultural and public agencies can further information on the type of soil in your area and the location of shallow ground water aquifers. Do not apply this product in areas where the water table is within 5 feet of ground surface, such as marshy or sub-irrigated areas, or areas immediately adjacent to streams or lakes which are periodically flooded, unless such use is allowed under a state-approved pesticide management program. Note: Also on such areas, woody plants noted in a shallow water table are minimally affected by applications of tebuthiuron and poor weed control may follow. Do not apply this product where the area is identified by federal, state or local authorities as protected ground water recharge zones. Use of this product in California, Oregon, and Washington is subject to the January 2004 Order of injunctive relief in Washington Toxicology Coalition, et al v. EP, C01-0123C, (W.D. WA). For further information, please refer to http://www.epa.gov/oppdir/wed.
