For Garden Insects

- Ants (except Harvester, Pharaoh and Carpenter ants), Centipedes, Crickets, Cutworms, Earwigs, Grasshoppers, Millipedes, Sowbugs (pillbugs) and Springtails.

For Perimeter Insects

- Crickets
- Millipedes
- Sow bugs (pillbugs)
- Spiders

CAUTION

This product is an N-methyl carbamate and is a cholinesterase inhibitor.

FIRST AID

If Swallowed

- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If on Skin or Clothing

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in Eyes

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-420-9347 for emergency treatment information.
Hazardous to Humans & Domestic Animals

CAUTION
Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wear long-sleeved shirt and long pants, and shoes plus socks and chemical resistant gloves (household or latex rubber gloves) when handling this product. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Wash hands before eating, drinking, chewing gum, tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

Environmental Hazards
This product is extremely toxic to aquatic invertebrates. Do not apply directly to water or allow drift to water. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, side walk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

Installation Rate Diagrams
Refer to the diagrams on pages 11 and 12 as a guide to uniform distribution of granules at the specified application rate.

Ticks That May Vector Lyme Disease
To kill juvenile and adult Ixodes spp. ticks (Deer Tick and Black Legged Tick) and ticks (Lone Star Tick) which may vector Lyme Disease: Apply granules at the rate of 0.575 pounds of product per 500 sq. ft. with this shaker container to ensure uniform coverage. Refer to the application rate diagram for accurate granule spacing of the specified rate. Target applications to kill juvenile ticks (larvae and nymphs) in late spring or early summer (May/June). Adult ticks can be killed with late summer and fall
Applications (August/September). Make applications to shrub beds, ornamental plantings, wooded areas and around outside perimeters of home and other buildings. Irrigate treated areas thoroughly after application to remove pesticide from the granules and move down into thatch. Ticks may be reintroduced from surrounding areas or host animals. Reapply as necessary up to a total of 4 times per year, but not more often than once every 7 days. Will kill target pests that are present only at the time of application. Ticks must be directly contacted for product to be effective.

Flowers and Shrubs (Ornamental Plantings) in Landscape and Foundation Plantings.

To kill Fleas: Apply granules at the rate of 1.75 to 2.25 lbs. per 250 sq. ft.

To kill Ticks: Apply granules at the rate of 0.575 lbs. per 500 sq. ft.

To kill Scorpions: Apply granules at the rate of 2.5 lbs. per 500 sq. ft.

To kill Ants (except harvester, pharaoh and carpenter ants), Armypommes, Centipedes, Crickets, Cutworms, Earwigs, Firebrats, Silverfish, Spiders: Using this shaker container, apply granules uniformly in an 8 foot band around the outside perimeter of the home. Refer to the application rate diagram for accurate granule spacing of the specified rate. Treated area must be thoroughly watered after application to remove the chemical from the granules. Repeat as needed up to 3 times per year but do not apply more often than once every 7 days. Do not use on plants above chest height.

Pests Application Rate Specific Directions

Ants (except harvester, pharaoh and carpenter ants), Armypommes, Centipedes, Crickets, Cutworms, Earwigs, Firebrats, Silverfish, Spiders 1.13 to 2.5 lbs per 500 sq. ft. Application to wet foliage during periods of high humidity may cause injury to tender foliage. Using this shaker container, apply granules in a 6-foot band around the home, to shrub and flower beds, foundations, ornamental plantings and lawn or soil areas immediately adjacent to the home. Refer to the application rate diagram for accurate granule spacing of the specified rate. Treated area must be thoroughly watered after application to remove the chemical from the granules. Repeat application as necessary up to a total of 4 times per year, but not more often than once every 7 days. Will kill target pests that are present only at the time of application. Pest must be directly contacted for product to be effective.

Nuisance Pests Around the Outside of Homes, Porches, and Patios

To kill Fleas: Apply granules at the rate of 1.75 to 2.25 lbs. per 250 sq. ft.

To kill Ticks: Apply granules at the rate of 0.575 lbs. per 500 sq. ft.

To kill Scorpions: Apply granules at the rate of 2.5 lbs. per 500 sq. ft.

To kill Ants (except harvester, pharaoh and carpenter ants), Armypommes, Centipedes, Crickets, Cutworms, Earwigs, Firebrats, Silverfish, Sowbugs, Spiders: Using this shaker container, apply granules uniformly in an 8 foot band around the outside perimeter of the home. Apply granules at the rate of 2.3 lbs. per 1000 sq. ft. to shrub and flower beds, foundations, ornamental plantings and lawn or soil areas immediately adjacent to the home.

Refer to the application rate diagram for accurate granule spacing of the specified rate. Treated area must be watered immediately after application to remove the chemical from the granules. Repeat application as necessary up to a total of 4 times per year, but not more often than once every 7 days. Will kill target pests that are present only at the time of application. Pest must be directly contacted for product to be effective.

Nuisance Pests in Listed Garden Vegetables and Strawberries

To kill Ants (except harvester, pharaoh and carpenter ants), Centipedes, Crickets, Cutworms, Earwigs, Grasshoppers, Millipedes, Sowbugs (Pillbugs) and Springtails apply granules with this shaker container at the rate given below. Refer to the application rate diagram for accurate granule spacing of the specified rate. Water lightly after application to release the chemical from the granules.
Begin applications when insect or damage is first observed and repeat as directed below. Will kill target pests that are present only at the time of application. Pest must be directly contacted for product to be effective. 

**Preharvest Use Limitation:** Observe the listed preharvest intervals (number of days between the last application and harvest) for application during the growing season.

Product of China; Contains U.S. and imported ingredients.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS & DOMESTIC ANIMALS: CAUTION
Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wear long-sleeved shirt and long pants, and shoes plus socks and chemical resistant gloves (household or latex rubber gloves) when handling this product. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Wash hands before eating, drinking, chewing gum, tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

FIRST AID: This product is a N-methyl carbamate and is a cholinesterase inhibitor. If Swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for at least 15 minutes. Call a poison control center or doctor for treatment advice if in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. HOTLINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-420-9347 for emergency treatment information.

NOTE TO PHYSICIAN: CARBARYL is an N-methyl carbamate insecticide which is a cholinesterase inhibitor. Specific antidote consists of atropine. Narcotics and other sedatives should not be used. Drugs like 2-PAM (pyridine-2-aldoxime methiodide) are not recommended.

Environmental Hazards: This product is extremely toxic to aquatic invertebrates. Do not apply directly to water or allow drift to water. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

See attached booklet for complete Storage and Disposal and Directions For Use.
