APPLICATION DIRECTIONS:

Norway Rats and Roof Rats: Apply 2 to 8 blocks per placement, using bait stations as required under “IMPORTANT”. Make placements at intervals of approximately 15 to 30 feet at appropriate locations in infested area. Adjust the amount of bait provided according to the level of rat feeding expected at each placement location.

House Mice: Apply 1 block per placement, using bait stations as required under “IMPORTANT.” Make placements at intervals of approximately ½ to 1 foot at appropriate locations in infested area. Up to 2 blocks may be placed at points of extremely high mouse activity.

Baiting Strategy (Rats and Mice): Highest bait consumption is expected to occur on the first day or two after treatment begins. After several days, inspect the placement and replenish bait at sites where there is evidence of heavy feeding or where there is continued evidence of rodent activity. Normally, the volume of bait consumed will be significantly less with Bromethalin baits than with anticoagulant baits. Although one night’s feeding will usually provide a lethal dose, maintain bait for at least one week to provide all rodents a chance to feed on the bait. Continue baiting until all signs of feeding have ceased. FOLLOW-UP: Replace contaminated or spilled bait immediately. Using gloves, collect and properly dispose of all dead animals and leftover bait. To discourage relocation, limit sources of rodent food, water and harborage and rodent-proof structures as much as possible. If relocation does occur, repeat treatment. When a continuous source of relocation is present, establish permanent bait stations and replenish bait as needed.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in original container in a cool, dry place inaccessible to children and pets. Keep container closed and away from other chemicals. PESTICIDE DISPOSAL: Wash hands after handling product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

STORAGE: Store product not in use out of reach of children and pets.

TO HELP PREVENT ACCIDENTS:

DO NOT EXPOSE CHILDREN, PETS, OR NON-TARGET ANIMALS TO RODENTICIDES.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CAUTION:

This Product May Only Be Used Inside And Within 100 Feet Of Buildings Or Inside Of Transport Vehicles (Ships, Trains, & Aircraft).

PROOF

THIS PROOF IS TO BE CHECKED FOR ACCURACY

Please review and approve Text, Spelling, Copy Placement, Size, Shape, Colors and DieLine.

Authorized signature accepts responsibility for accuracy of all copy, color break and artwork. Cimarron Label is not liable for any discrepancies subsequently identified.

PLEASE NOTE: Due to color variance between printers/ monitors, the colors represented by this proof cannot be deemed accurate. Please refer to a color matching system such as the Pantone Matching System for a truer representation of spot colors.

THIS PROOF IS NOT ACCURATE FOR COLOR-MATCH. DieLine does not print.
