Supplemental Label

For harvest aid/desiccation in dry peas

This supplemental label expires May 20, 2014.

Active Ingredient:
saflufenacil: N’-[2-chloro-4-fluoro-5-(3-methyl-2,6-dioxo-4-(trifluoromethyl)-3,6-dihydro-1(2H)-pyrimidinyl)benzoyl]-N-isopropyl-N-methylsulfamid........................................................................................................... 29.74%
Other Ingredients:........................................................................................................................................................................... 70.26%
Total:................................................................................................................................................................................................ 100.00%

Contains 2.85 pounds active ingredient saflufenacil per gallon formulated as a water-based suspension concentrate.

EPA Reg. No. 7969-278

Directions For Use

Refer to the Sharpen™ herbicide main label, EPA Reg. No. 7969-278, for complete Directions For Use and all applicable restrictions and precautions. When following the instructions on this supplemental label, the user must have this label and the entire Sharpen container label in possession at the time of pesticide application.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Use Information

Sharpen may be used for harvest aid/desiccation in dry peas (including dry field peas as well as all other Pismum species and pigeon pea).

Application Information

Application Rates and Timings
Uniformly apply Sharpen at 1.0 to 2.0 fl ozs/A as a broadcast spray over the top of dry peas that have reached physiological maturity (peas with at least 80% yellow/brown pods and no more than 30% of leaves still green for vine type peas and no more than 40% of leaves still green for bush type peas; or according to Extension Service recommendations in the use area for other crops. Allow up to 10 days for optimum desiccation effect depending on environmental conditions.

BASF Corporation
26 Davis Drive, Research Triangle Park, NC 27709

Thorough spray coverage and a methylated seed oil (MSO) plus ammonium-based adjuvant system (refer to Additives section on the product container label for details) is required for optimum desiccation activity. Ground application is recommended at a minimum spray volume of 10 gallons per acre. Aerial application is recommended at a minimum spray volume of 5 gallons per acre.

A single application or sequential applications may be made, but the maximum cumulative amount of Sharpen applied must not exceed 2.0 fl ozs/A per cropping season from desiccation uses.

Crop-specific Restrictions and Limitations
• DO NOT apply Sharpen on dry peas grown for seed production.
• Dry peas can be harvested 3 or more days after application.
• Desiccation-treated pea vines may be grazed or fed to livestock.
• Refer to Table 4 on the product container label for rotational crop intervals.

Tank Mixtures
Apply Sharpen with a labeled rate of glyphosate (e.g. Roundup® herbicide) for additional preharvest weed control. Read and follow the applicable restrictions and limitations and directions for use on the glyphosate product label, and to confirm whether glyphosate is labeled for the specific crop to be desiccated. The most restrictive labeling applies to tank mixes.
Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
