**SANITET®**

**Disinfectant • Sanitizer • Deodorizer**

**GENERAL DISINFECTION**

To disinfect inanimate, hard non-porous surfaces apply use-solution with mop, cloth, sponge, low pressure coarse sprayer or hand pump trigger sprayer making sure the surface remains completely wet for at least 60 seconds and let air dry. Do not rinse.

**HOSPITAL DISINFECTION**

– Add 3 ounces of this product per 5 gallons of water for disinfection against Staphylococcus aureus, Salmonella enterica, Listeria monocytogenes and Yersinia enterocolitica.

**SANITATION**

To sanitize pre-cleaned public eating establishment surfaces (counters, tables, finished wood or plastic cutting boards), apply a 200-400 ppm active quaternary solution with a cloth, sponge, low pressure coarse sprayer or hand pump trigger sprayer making sure the surface remains completely wet for at least 60 seconds and let air dry. Do not rinse.

**SANITATION**

To sanitize pre-cleaned dairy processing equipment (tanks, piping, pasteurizers, milking equipment) apply a 200-400 ppm active quaternary solution throughout the equipment. Surfaces must remain thoroughly wet for at least 60 seconds, followed by adequate draining and air drying. Do not rinse.

**Food Contact Surface Sanitization Directions**

Sanitization of public eating establishment, dairy, food processing plants, and bars. When used as directed, this product is effective as an active quaternary concentration of 200-400 ppm in public eating establishment surfaces against Staphylococcus aureus, Salmonella enterica, Listeria monocytogenes and Yersinia enterocolitica.

Sanitization of public eating establishment and dairy food contact surfaces is regulated under Section HFS 196.36(1) of the Wisconsin Administrative Code. To sanitize public eating establishment surfaces (counters, tables, finished wood or plastic cutting boards), apply a 200-400 ppm active quaternary solution with a cloth, sponge, low pressure coarse sprayer or hand pump trigger sprayer making sure the surface remains completely wet for at least 60 seconds and let air dry. Do not rinse. To sanitize dairy processing equipment (tanks, piping, pasteurizers, milking equipment) apply a 200-400 ppm active quaternary solution throughout the equipment. Surfaces must remain thoroughly wet for at least 60 seconds, followed by adequate draining and air drying. Do not rinse.

**GENERAL DEODORIZATION**

To deodorize, add 3 ounces of this product to 5 gallons of water. Let air dry.

**Shoe Bath Sanitizer Directions**

Shoe bath directions: To prevent tracking harmful organisms into animal areas, and the packaging and storage of footwear. The use of this product in a shoe wash machine is not recommended. Use in areas of food plants, shoe baths containing one inch of freshly made use-solution should be placed at all entrances to animal areas, and the packaging and storage of footwear. The use of this product in a shoe wash machine is not recommended.

**NOTE:**

5. Place sanitized utensils on a rack or drain board to air dry. 6. Fresh sanitizing solution should be prepared at least daily or when visibly soiled or diluted.

**DIRECTIONS FOR EATING ESTABLISHMENTS**

1. Scrape and pre-wash utensils and glasses whenever possible.

2. Wash with a good detergent or compatible cleaner.

3. Use chlorine as follows: for sanitization, add 3 ounces of this product to 5 gallons of water (200 ppm active quaternary). Immerson at all surfaces for at least two minutes or for contact time specified by governing sanitary code.

4. Rinse with a potable water rinse.

5. Place sanitized utensils on a rack or drain board to air dry.

6. Sanitizing solution prepared daily or when visibly soiled or diluted.

7. Fresh sanitizing solution should be prepared at least daily or when visibly soiled or diluted.

**CAREFUL, keep out of reach of children. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. Harmful if swallowed. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water when handling.**

**FIRST AID**

If in eyes:

Hold eye open and flush with running water for at least 15 minutes. Remove contact lenses, if present, after first 5 minutes. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

If on skin or clothing:

If on skin, wash area with soap and water. If on clothing, remove contaminated clothing and wash before reuse.

If inhaled:

Move person to fresh air. If not breathing, call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

**SPILL OR LEAK PROCEDURES**

Small spills may be mopped up, flushed away with water or absorbed on some absorbent material and incinerated. Large spills should be contained, the material then moved into containers and disposed of by approved methods for hazardous wastes.

**Hazardous, do not contaminate water, food or feed with this material.**

**DANGER**

KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. Harmful if swallowed. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water when handling.

**Precautionary Statements**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**Storage and Disposal**

**Pesticide Storage**

Store in a dry place no lower in temperature than 50°F or higher than 120°F. Store in a tightly closed container. Keep out of the reach of children. Keep out of reach of pets and livestock. Do not contaminate water, food or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, equipment washings, and other materials contaminated with the pesticide will increase the hazards from exposure to the pesticide and may result in accidental poisoning in non-target organisms. DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL. KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves, and protective clothing. Harmful if swallowed. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water when handling.
