NOTICE

Neither Doheny Enterprises nor the seller of this product can accept any responsibility where the product is not used according to directions and for the manner in which it was intended.

To control algae in your swimming pool simply add Doheny’s Total Algaecide every three months. Your pool water will sparkle like never before.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DOSAGE RATES

EVERY THREE MONTHS: 16 fl. oz. Doheny’s Total Algaecide per 10,000 gallons pool water (or 500 mL per 40,000 L) will prevent algae growth in all pool types.

SEVERE ALGAE TREATMENT: 32 fl. oz. Doheny’s Total Algaecide per 10,000 gallons pool water (or 1 L per 40,000 L).

GENERAL DIRECTIONS

1. Maintain pool water in the pH range 7.2 to 7.8. Adjust pH to 7.2 for severe algae.
2. Ensure that filtration system is working properly and that filtration cycle is adequate.
3. A regular brushing program will assist in the removal of stubborn algae.
4. Calculate the volume of Doheny’s Total Algaecide required for your pool.
5. Add the product directly to the pool, distributing over as wide an area as possible.
6. While Doheny’s Total Algaecide controls algae, it is important that adequate levels of sanitizer (chlorine) be maintained to control bacterial growth.
