**DI-CHLOR CHLORINATING GRANULES**

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

Read entire label and follow instructions. This product, or its solutions, may cause severe burns and damage to eyes, skin, or clothing. Do not inhale dust or smoke. Avoid skin and eye contact. Wash thoroughly with soap and water after handling. Keep out of reach of children.

**PRECAUTIONARY STATEMENTS AND FIRST AID**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER.** Do not inhale dust or smoke. Avoid eye, skin, or clothing contact. Wash thoroughly with soap and water after handling.

**DIRECTIONS FOR USE**

1. For chlorine pool disinfection, add 1 pound of this product to 3 gallons of water. Circulate water for several hours, then apply a winterizing solution.
2. In water temperatures less than 70°F, or as an alternate application procedure, pre-dissolve this product prior to applying evenly to the deep end of the pool.
3. Dissolve this product outdoors, in a clean plastic bucket stirring with a clean plastic or wooden spoon. Add this product to water; NEVER add water to product. NEVER add more than 1 pound of this product to 3 gallons of cool water. Do not mix with other products when pre-dissolving.

**SPECIAL RISK LEVELS**

- If swallowed, DO NOT INDUCE VOMITING. Call a poison control center or doctor for treatment advice.
- If in eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, and continue rinsing.
- If on skin, wash thoroughly with soap and water.
- If inhaled, move person to fresh air. If person is not breathing, call 911 or a doctor for immediate medical attention.

**STORAGE AND DISPOSAL**

Store in a dry, cool and well-ventilated area. Avoid contact with eyes, skin, clothing, and food and animal feeds. Do not contaminate water sources. Do not mix with other products. Use an approved landfill area.

**REDUCTION OF HAZARDS**

Always follow directions on those products. With pump running, broadcast 4 ounces of this product to maintain a residual of 1-3 ppm. Prevent damage to pool surface, use a pool brush to disperse any granules that may settle to the bottom of the pool.

**HOW TO CALCULATE POOL CAPACITY**

**Irregular:** Consult pool builder

**Circular:** Diameter x diameter x average depth x 5.9

**FRC / WATER TREATMENTS**

- For WHITE PLASTER POOLS, broadcast this product directly into the pool with pump running.
- Sprinkle powder or pour the pre-dissolved treatment dose (see NOTE above) into the pool at 15 to 20 minute intervals until a residual of 3-5 ppm of available chlorine is established.

**MAINTENANCE AND TESTING**

- For fiberglass pools, broadcast this product directly into the pool with the pump on.
- Use one teaspoon of this product per 100 gallons of water to treat swimming pool algae.
- Use the Doheny's Test Kit to monitor chlorine residual.

**FRC / HEALTH & SAFETY**

- Use a pool brush to disperse any granules that may have settled to the bottom of the pool. Clean skimmer baskets, and filter.
- Ensure that all pool equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. When using other products as outlined in the directions for this product, follow directions on those products.

**FRC / CIRCULATION**

- Ensure that all pool equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. When using other products as outlined in the directions for this product, follow directions on those products.

Buying a pool for any purpose requires knowing the pool’s capacity and understanding its design. A large pool is not necessarily better than a small one, as it depends on your specific needs and preferences. Here are some factors to consider when buying a pool:

1. Size and Shape:
   - Determine the size of your pool based on the number of people who will be using it. A pool should be able to accommodate the number of people comfortably, with enough space for swimming and playing games. Consider the shape of the pool, whether it's rectangular, oval, or freeform, and how it will fit into your yard.

2. Material:
   - Choose from materials such as concrete, vinyl, or fiberglass. Each material has its own advantages and disadvantages. Concrete pools provide a durable and long-lasting option but require regular maintenance. Vinyl pools are easy to install and maintain but may not be as long-lasting as concrete pools. Fiberglass pools are easy to install and maintain and offer a wide range of colors and designs.

3. Location:
   - Consider the location of your pool and how it will affect the overall design and layout of your backyard. Factor in elements such as sunlight, wind, and views. Also, ensure that the pool is positioned to allow for proper drainage and access to essential services like electrical outlets and water supply.

4. Budget:
   - Set a budget for your pool and stick to it. Consider the costs of installation, maintenance, and pool accessories. Be sure to factor in any additional costs that may arise, such as permits, landscaping, and paving.

5. Maintenance:
   - Determine how much time and effort you are willing to dedicate to maintaining your pool. Pools require regular cleaning, chemical treatment, and equipment maintenance. Consider hiring a professional pool service if you do not have the time or expertise.

6. Safety:
   - Ensure that your pool is equipped with safety features such as ladders, handrails, and automatic covers. These features can help prevent accidents and keep the pool enjoyable for all users.

7. Aesthetics:
   - Consider the visual appeal of your pool. Design it to complement the overall look of your home and yard. Think about the colors, patterns, and textures that will enhance the pool's appearance and create a relaxing atmosphere.

By carefully considering these factors, you can make an informed decision about buying a pool that meets your specific needs and preferences. Remember, the right pool can transform your backyard into a beautiful and enjoyable space for relaxation and entertainment.
