ACTIVE INGREDIENTS: Pyrethrin (RS)-2-methyl-4-oxy-3-(2-propynyl) cyclohex-2-enyl (1R)-cis-tris-(chrysanthemate) 0.20%, Piperonyl Butoxide Technical 0.80%, N-Octyl bicyclohexyl isocarbostyril 1.00%

OTHER INGREDIENTS: 98.00%
TOTAL: 100.00%

Keep OUT OF REACH OF CHILDREN: See side panel for additional precautions. NET WT. 16 OZ. (1 lb.) (454 grams)

For Industrial, Institutional, Commercial Use: Contains a Combination of Ingredients That Provide a Rapid Knockdown and Kill of Listed Insects

Feel Confident To Use Indoors or Outdoors: Kills Flies, Mosquitoes, and Many More Insects Listed On Back Panel

Non-Staining • Water-Based

For USE IN CANNERIES: Before bringing in produce, thoroughly clean floors, covering equipment, and walls, paying special attention to cracks and crevices. Spray entire space inside the canning, including walls, ceilings, and floors, paying special attention to forcing the spray into all cracks and crevices for the control of Fruit Flies, Moths, House Flies, and other listed insects.

For USE IN STORAGE: This product can be used in warehouse bins and trucks, cargo ships, mills, bin hoppers, elevators, and conveyor equipment as a clean up prior to using them for storage. In mills and elevators, all infested accumulations of grain should be removed from the bin hoppers. All storage and conveying equipment should be thoroughly cleaned by sweeping out waste grain, cobwebs, and other debris from walls, rafters, floors, and door frames, paying special attention to material lodged in cracks and crevices. All debris should be removed and burned to kill eggs and insects that turn off fans and air inlets. With the spray in place, all infested areas have been employed, spray all areas prior to use for storage as directed.

For FARMS, particular attention should be given to all machinery, tractors, equipment, and vehicles from wagons, harvesting equipment and feed troughs, and around used feed and grain bags. Newly harvested grain should not be placed in the same bin with carry-over grain, and all carry-over grain stocks that are not treated with grain protectant should be fumigated. These cleaning been employed, spray all areas prior to use for storage as directed.

For storage, remove any infested articles from storage, brush thoroughly, and air for several hours in sunlight if possible. Apply liberally to empty chests, cabinets, barns, and other storage locations that are thoroughly dry before use. For spray, use the spray as directed for flying Moths: Remove any infested articles from storage, brush thoroughly, and air for several hours in sunlight if possible. Apply liberally to empty chests, cabinets, barns, and other storage locations that are thoroughly dry before use.

STORAGE AND DISPOSAL: Store in a cool, dry place. Keep container closed. DISPOSAL: Do Not Puncture or Incinerate! IF EMPTY: Place in trash or offer for recycling if available. IF PARTIALLY FILLED: Call your local solid waste agency for disposal instructions.
