DANGER POISON PELIGRO

PRECAUTIONARY STATEMENTS

POISON PELIGRO

Ethoprop is a phosphorodithioate.  In case of accidental exposure, wash the skin and clothing immediately and thoroughly with soap and water.

FIRST AID

• Take off contaminated clothing.

• Then wash skin immediately with plenty of water and soap.

• If eyes: Flush eyes with large amounts of water for 15-20 minutes.

• If swallowed: Do not induce vomiting unless told to do so by a poison control center or doctor.

• If inhaled: Remove to fresh air immediately.  If symptoms persist, call a poison control center.

• Do not give anything by mouth to an unconscious person.

• Be provided and have immediately available for use in case of an emergency when they must exit the cab, the PPE specified in the PPE section of this label.

• Long-sleeve shirt and long pants and a full face respirator or a Category A homemade respirator as specified in the PPE section of the label.

Have the product container or label with you when calling for medical advice:
