CEN-KLEEN IV
One-Step Disinfectant Cleaner - Fungicide - Mildewstat - Viricide*
For Hospitals, Industrial and Institutional Use

**PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS**
DANGER: Company causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield or safety glasses), protective (indoor or outdoor) clothing and gloves. Harmful if swallowed or absorbed through the skin. Wash thoroughly with soap and water after handling and before eating, drinking, smoking, or handling tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**FIRST AID**
If IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Wash out any remaining solution with water. For mold and mildew, on non-porous surfaces of: Bathroom fixtures, tile floors and walls, shower and bath areas and exercise facilities. Dlife 2 oz. per gallon of water or 8 oz. per gallon of water to kill Adenovirus Type 7. For mold and mildew at 2 oz. per gallon of water, 10 minutes and flush. For mold and mildew at 2 oz. per gallon of water, allow surfaces to remain wet for 10 minutes. CEN-KLEEN IV is a one-step fungicide at 2 oz. per gallon of water in 200 ppm hard water and 5% serum contamination. For mold and mildew at 2 oz. per gallon of water, CEN-KLEEN IV will effectively inhibit the growth of mold and mildew and the odors caused by mold and mildew. For mold and mildew, on non-porous surfaces of: Bathroom fixtures, tile floors and walls, shower and bath areas and exercise facilities. Dlife 2 oz. per gallon of water or 8 oz. per gallon of water to kill Adenovirus Type 7. For mold and mildew at 2 oz. per gallon of water, 10 minutes and flush. For mold and mildew at 2 oz. per gallon of water, allow surfaces to remain wet for 10 minutes. CEN-KLEEN IV is a one-step fungicide at 2 oz. per gallon of water in 200 ppm hard water and 5% serum contamination.

**NOTICE TO PHYSICIAN:** Probable treatment of gastric lacerations includes damage to the stomach wall. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor for treatment advice. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor for treatment advice.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses (if worn), if easy to do so, and continue rinsing. Get medical help if irritation persists.

IF IN SKIN: Wash area with soap and water for 15-20 minutes. If irritation persists, get medical help.

IF INHALED: Remove person to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical help.

IF SWALLOWED: Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Get medical help.

CEN-KLEEN IV is a concentrated one-step Hospital Use Disinfectant cleaner that is effective against a broad spectrum of bacteria, is virucidal including HIV-1, the AIDS-related virus, and MRSA. It is effective against bloodborne pathogens: Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), and HIV-1; as well as against the microorganisms that cause TB, MRSA, and Staphylococcal infections. CEN-KLEEN IV has demonstrated the capability to achieve at least 5-log reductions and inactivate/remove the specified microorganisms even in the presence of organic soil.

CEN-KLEEN IV is a one-step fungicide at 2 CEN-KLEEN IV

For Hospitals, Institutional and Industrial Use

One-Step Disinfectant  Fungicide  Mildewstat  Virucide*

Effective in hard water up to 200 ppm hardness [Calculated as CaCO3] in the presence of 5% serum contamination

For Hospitals, Institutional and Industrial Use

For hospitals, institutional and industrial use.

CEN-KLEEN IV is an effective one-step fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) in areas such as locker rooms, dressing rooms, shower and bathe areas and exercise lockers.

For fungicidal activity, CEN-KLEEN IV uses polyoxoniums, hexamidiniums, and quaternary ammoniums. Effective disinfectant formulations include tetrachloroethylene. It is a one-step fungicide at 2 CEN-KLEEN IV.

For mold and mildew: 2 oz. per gallon of water. For cultures and/or industrial use:

CEN-KLEEN IV contains the following active ingredients:

- Cetyl trimethyl ammonium chloride (0.66%)
- Diocetyl dimethyl ammonium chloride (0.90%)
- Alkyl (C6, 50%; C8, 40%; C10, 10%)
- Dimethyl benzyl ammonium chloride (2.20%)

Other Ingredients:

- Nonionic surfactant (84.5%)

Total: 100.00%

For Home Use

CEN-KLEEN IV is effective in hard water up to 200 ppm hardness (calculated as CaCO3) in the presence of 5% serum contamination.
