ORTHO® WEED & GRASS KILLER

ACTIVE INGREDIENTS
Soybean Oil 18.75%
OTHER INGREDIENTS* 81.25%
Total 100.00%

*Other Ingredients: Water; polyglyceryl oleate; lauric acid; octanoic acid; sodium salt; sodium benzoate

May leave temporary oil mark but will not stain concrete or walkways. This product may stain asphalt.

Weeds Affected
Ortho® Grass & Weed Killer controls broadleaf and grassy weeds. This product is for use only on grass and weeds on irrigation ditch banks, drainage ditch banks and terrestrial areas.

How It Works
This product's label does not make claims of residual activity or systemic control. Most weeds will recover and begin to grow back, necessitating a need for multiple applications to achieve complete control.

Directions For Use
Shake well. Set nozzle to spray setting. Spray product until leaves are completely covered. This product can kill or damage all vegetation contacted. If desirable plants are accidentally sprayed, immediately rinse the foliage with water.

Use Restrictions
- Do not spray near heat or open flame.
- Do not apply to food crops

IMPORTANT: Avoid spray drift onto desirable lawn grasses, shrubs or trees. DO NOT apply directly to water.
