PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage or skin burns. May be fatal if absorbed through skin. Harmful if swallowed. Do not get in eyes or on clothing. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE)
Applicators and other handlers must wear:
- Coveralls over long-sleeved shirt and long pants,
- Socks and chemical resistant footware,
- Goggles or face shield, and
- Chemical-resistant gloves (such as Barrier Laminate or Viton).

A NIOSH-approved respirator with ammonia, organic, and HEPA cartridge such as P-100 must be worn when PEL threshold levels are exceeded for an 8 hour work period.

User Safety Requirements
Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separate from other laundry. Users must wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users must remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users must remove personal protective equipment immediately after handling this product. Wash outside of gloves before removing.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) Permit and the Permitting Authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NW-CA
WOOD PRESERVATIVE FOR INDUSTRIAL USE

Active Ingredients:
Copper Ethanolamine Complex* (CAS #14215-52-2).......................... 27%
Teboconazole................................................................. 0.19%
Propiconazole.............................................................. 0.19%
Inert Ingredients............................................................ 72.62%
Total : 100.00%

* Copper Equivalent from Ethanolamine Complexes 9.3%

DANGER
KEEP OUT OF REACH OF CHILDREN

FIRST AID
IF IN EYES: Hold eye(s) open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue to rinse eye(s). Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED: Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth. Call a Poison Control Center or doctor for treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

HOT LINE NUMBER
In case of emergency, call CHEMTREC toll free at 800-424-9300. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

MANUFACTURER:
Osmose, Inc., 980 Ellicott Street, Buffalo, NY 14209

EPA Registration No. 3008-112
EPA Establishment No. 3008-TN-1

NET CONTENTS:

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

This product has been developed to be used for treatment of wood products. For pressure plant use only. Do not spray. Tank mix NW-CA with quaternary ammonium or azole compounds or other compounds approved for wood treatment. Do not attempt to use without having the necessary safety equipment. To be used only in treatment of wood products utilizing water solutions having concentrations ranging from 0.1 percent to 5.0 percent active ingredients by weight. Impregnation procedures must adhere to the current specifications of Osmose, Inc. or the American Wood-Preserver’s Association. Processes used to apply NW-CA shall leave no visible surface deposits on the wood. Visible surface deposits mean a surface residue to crystallization on the treated wood. Small isolated or infrequent spots of chemical on otherwise clean wood shall be allowed. Treatment of wood products with NW-CA provides protection against termites, ascomycetes, white rot, brown rot, soft rot, and dry rot. The percent solution to be used must be based on the retention in lbs. per cubic foot (pcf) specified by the purchaser and by the treating process used.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Open dumping is prohibited. Keep container closed when not in use. Store in a dry, well ventilated area.

PESTICIDE DISPOSAL:
Pesticides are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these pesticides cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING:
Drums:
Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the container into application equipment or a mix tank. Fill the container ¼ full with water. Balance and tighten closures. Tie container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat the procedure two more times. Offer for reconditioning, if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Tote Container:
Nonrefillable container. Do not reuse or refill this container. Then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Residue Removal – Cleaning container before final disposal is the responsibility of the person disposing of the container. To clean container before final disposal, fill container about 10 percent full with water; agitate container vigorously; discard rinsate according to pesticide disposal instructions; repeat this rinsing procedure two more times. For additional container disposal information, contact product supplier.
